IMPORTANT INFORMATION FOR BUYERS

***BUYERS OF IMPORTED OBJECTS COLLECTED OR SHIPPED WITHIN THE GCC (BAHRAIN, KUWAIT, OMAN, QATAR, SAUDI ARABIA, UAE) ARE SUBJECT TO A 5% IMPORT DUTY ON THE LOW ESTIMATE (IDENTIFIED BY THE SYMBOL * IN THE CATALOGUE).**

For GCC buyers, please note that duty is paid at origin (in Dubai) and not in the importing country. As such, duty paid in Dubai is treated as final duty payment as per GCC's custom laws.

For non-GCC buyers, import duty will not apply provided that shipment/delivery is arranged through Christie's shipper. Christie's cannot guarantee that import duty will not be levied should clients choose to arrange delivery through their own carriers.

All objects offered for sale and identified without the symbol * in the catalogue are duty exempt if bought by and shipped to UAE residents.

In any case, property sold at auction may be subject to import restrictions/taxes of foreign countries. It is the buyers' responsibility to obtain any relevant import licenses into the buyers' own countries of residence.

For further information on Buying at Christie's please see page 134.

AUDEMARS PIGUET

ROYAL OAK OFFSHORE

Introduced in 1989 as a re-imagined Royal Oak that could handle the lifestyle of the most active and adventurous collectors, the Offshore was designed by following a deconstructed approach, intending to showcase how the timepiece's key elements were built and allied together. Similar to the Royal Oak, the Offshore received criticism during its presentation. Today the model has become one of Audemars Piguet's most successful timepieces, becoming a true symbol of fusion between luxury and sport aesthetics.

Born in Bogota in 1975, Juan Pablo Montoya was quickly drawn by his father to the world of motor racing. At only 6 years old, Montoya had already won the title of Colombian National Carting Champion, leading him towards the F3000 championship and Formula One. Now 40 years old, Montoya races in the IndyCar Series and has become over the years a true crossover race winner.

Highlight of his career include winning the Indianapolis 500, the Grand Prix of Monaco, 24 hours of Daytona, the British and Italian Grand Prix.

First Formula One ambassador for Audemars Piguet, the present limited edition chronograph emanates from motor racing. Made out of Titanium, the ultra-light case is allied to a bezel made of Carbon and a strap inspired from the racing suits of pilots.

'BARRICHELLO I'

NO. 016/150

Born in 1972, Brazilian pilot Rubens Barrichello became a predominant figure of Formula One. Although Rubens encountered difficult first seasons when driving for the Jordan team, many quickly recognized his potential and acute driving skills.

During the Formula One season of 1994, Barrichello was devastated by the fatal accident of Ayrton Senna and became the leading Brazilian racing driver in the championship. With his gathered experience and solid performances, Rubens joined Ferrari in 2000, where he partnered up with the renowned Michael Schumacher. During his years at Ferrari, Barrichello was able to get multiple podiums and dedicated his first win to Ayrton Senna.

Throughout his career, Barrichello gathered impressive victories and performance, imposing himself as one of the most experienced F1 driver of all time.

The watch is further more delivered with an autograph of Rubens Barrichello.

Constantly searching for precision and performance, the alliance between racing driver Rubens Barrichello and Audemars Piguet arose naturally. By crafting the present chronographs with innovative and highly resistant materials, the link between the timepieces and Formula One is clear.

Built with an extremely resistant and light case made of Titanium, the present chronograph stays true to the Royal Oak series with an octagonal ceramic bezel secured by eight screws. Incorporating peculiar traits showcasing its link with Formula One, the bezel will refer to the ceramic brakes of a racing car and the case back represents a wheel with a central part engraved with the signature of Rubens Barrichello. The driver being of Brazilian origin, the hands of the subsidiary dials for the chronograph commemorate the Brazilian flag through their colors.

Founded upon the three crucial elements of technical innovation, artistry and culture of fine watchmaking, Richard Mille has become a dominant player of the watch industry. With the creation of the RM001 tourbillon in 2001, the manufacture stunned the watchmaking sphere through its forward-looking approach towards its designs and use of innovative materials.

As one of the first sporting figure to have joined the Richard Mille family, the manufacture celebrated the 10th year anniversary of their collaboration with Formula One racing driver Felipe Massa by launching the present RM 011 Automatic Flyback Chronograph.

Born in Sao Paulo in 1981, Felipe Massa erupted onto the Formula One scene rapidly, making his racing debut at only 21 years old. Acquiring a reputation for being fast, Massa joined the Ferrari racing team and partnered with the legendary Michael Schumacher during the 2006 season. Throughout his career, Felipe Massa was the first Brazilian racing driver to win on home soil since Ayrton Senna, and was able through his determination and sportsmanship to win the hearts of a nation as well as the Formula One community.

DOUBLE TOURBILLON

NO. 05/28

The present watch is set with 48 baguette-cut diamonds weighing a total of approximately 4.30 carats.

Founded in 1995 through an alliance between the watchmaker *Roger Dubuis* and designer Carlos Dias, the Swiss manufacture quickly thrived through its balance between traditional watch making and striking designs.

Far from being solely an aesthetic choice, all *Roger Dubuis* timepieces bear the prestigious Geneva seal. Part of the very few companies to reach such an esteemed status, the manufacture self-produces their movements, cases, follows strict assembly guidelines and tests.

With only 28 pieces made, the present timepiece is fresh to the market and represents an extremely rare opportunity for collectors.

LOUIS AUDEMARS FOR BREGUET

MINUTE REPEATER PERPETUAL CALENDAR 'MADE FOR THE TURKISH MARKET'

*60

LOUIS AUDEMARS, MADE FOR BREGUET. AN EXTREMELY FINE AND RARE 18K PINK GOLD HUNTER CASE MINUTE REPEATING PERPETUAL CALENDAR KEYLESS LEVER WATCH WITH MOON PHASES, MADE FOR THE TURKISH MARKET

SIGNED LOUIS AUDEMARS, NO. 12'144, AND BREGUET, NO. 3'938, MANUFACTURED IN 1881, SOLD TO BREGUET AND SOLD BY BREGUET TO MESSR MIR & COTTEREAU IN ISTANBUL ON 29 DECEMBER 1885

Gilt-finished fully jewelled lever movement, bimetallic compensation balance, minute repeating mechanism on two hammers onto two gongs, gold cuvette, white enamel dial, Roman numerals, outer Arabic five minute division, gilt steel spade hands, four subsidiary dials for month and leap year, day, date, moon phases, lunar calendar and constant seconds, circular case, covers centered by the engraved initials of the Ottoman Sultan Abdulhamid II to the front and date 1303 AH (1885 AD) to the back, bordered by laurel wreaths, repeating slide in the band, case, stamped LA and numbered 12'144 and with casemakers initials MF for Meylan Frères, cuvette signed Breguet No. 3938 54 mm. diam.

US\$25,000-35,000

AED91,000-130,000

The present watch is a very fine example of a complicated timepiece made by Louis Audemars for his faithful client, Breguet in Paris. According to the Archives of *Montres Breguet*, ébauche and case were supplied by Louis Audemars, finished by Breguet and sold on 29 December 1885 for the amount of 2,500 Francs to Messrs Mir et Cottereau, their agent in Constantinople at the end of the 19th century.

The case is stamped with Louis Audemars' shield-shaped hallmarks, one inscribed "Brassus", one featuring a dog's head and capital letters L.A. for Louis Audemars above the double cross of Lorraine (see *Louis-Benjamin Audemars - His Life and Work* by Hartmut Zantke, pp. 182 - 187). For a comparable watch, however with the addition of a chronograph, sold by Louis Audemars to Breguet in 1882 see p. 408, *op. cit.*

The engraved initials on the front cover of the present watch are most likely those of the Ottoman Sultan 'Abdulhamid II, the engraving on the back indicates the Islamic year AH1303 or 1885AD, year of sale of the present watch. The Sultan had often objects made for him featuring these initials, including watches, cigarette boxes, and other decorative items.

His Imperial Majesty, The Sultan Abdülhamid II, Emperor of the Ottomans, Caliph of the Faithful (1842 - 1918), was the 34th Sultan of the Ottoman Empire. He ruled from 31 August 1876 until 27 April 1909 and was succeeded by Mehmed V.

Much inspired by the first world time wristwatches introduced in the 1930s, reference 5110 was launched in year 2000 and was the first wristwatch with world time complication offered by Patek Philippe since 1965. Built with an ingenious push button to adjust the time zone, the present wristwatch is able to display the time of 24 cities.

With a strong and continuously growing popularity, reference 5110 was produced until 2006 and later replaced by reference 5130. Crafted out of an 18 karat gold case, the present wristwatch is offered in excellent condition and can be considered as a must have for *Patek Philippe* collectors.

SIGNED IWC, BIG PILOT MODEL, BEOBACHTUNGSUHR, REF. 431, MOVEMENT NO. 1'013'984, CASE NO. 1'033'574 AND 1'033'294, MANUFACTURED IN 1940

Mechanical jewelled gilt-finished lever movement, bimetallic compensation balance, micrometer regulator, inner antimagnetic case with antimagnetic stainless steel cover, black dial, luminous baton and Arabic numerals, green luminous hands, luminous sweep centre seconds, oversized circular case with engraved FL 23883 to the band, large crown, snap on back, *case, dial and movement signed* 55 mm. diam.

US\$20,000-30,000

AED73,000-110,000

With large wrist compass.

An example of the Big Pilot's watch is on permanent exhibition at the prestigious IWC Museum in Schaffhausen. The biggest IWC pilot's watch was supplied to the German Luftwaffe in 1940 in an edition of 1,000 examples. The big device constructed according to the criteria for observer's watches with the pocket watch caliber 52 T.S.C. is the biggest wristwatch ever built by IWC, with a case diameter of 55 mm., a height of 16.5 mm. and a weight of 183 grams. The extra long wrist strap with double bow and clasp clip makes it possible to wear the watch over a flying suit.

This movement was fitted with an indirect sweep center mechanism with hacking feature thanks to which the balance is stopped while the crown is pulled out, thus allowing setting of the time to the split second. The large size of the crown allows winding and setting even when wearing gloves.

The inside of the case backs were engraved with the following military markings:

B-Uhr (for Beobachtungs-Uhr or Navigation Watch) *Bauart* (manufacturer): *I.W.C., Werk Nr. 1013894* and *Anforderz. FL 23883* (classification number).

As of around 1937, watches used by the German Air Force were fitted with such a panel indicating manufacturer, serial number and a FI number. In order to disguise information regarding manufacturer and quantities produced, these indications were coded from 1941 onwards.

The watches were primary tested by the Deutsche Versuchsanstalt für Luftfahrt DVL (German Aviation Research Institute) and classified with a so-called FI-Number. The FI stands for flight and the first two digits, 22, for flight control; 23 stands for navigation and 25 for radio surveillance, followed by the three digits serial number given by the DVL.

For a description and illustration of the model supplied by IWC see *Military Timepieces* by Konrad Knirim, pp. 351 - 352 and *Die Fliegeruhren von IWC* by Rüdiger Bucher and Christian Pfeiffer-Belli, pp. 73 - 81.

Designed by Piquerez, the Camaro through its cushion-shaped case was the predecessor of the celebrated Monaco model. Launched in 1968, the present chronograph was manufactured until 1972 and came in various color combinations. Considered as a key chronograph of the firm, the Camaro's popularity continues to grow amongst collectors.

The present watch is an unusual example as it offers a dial configuration that presents a mistake: the dial reads "Oyster Perpetual" instead of "Oyster Perpetual Date". Examples of *Rolex* GMT watches with a mistaken dial, that eluded the very strict *Rolex* quality controls and made it to the market are exceedingly rare and obviously collectible.

The present watch is furthermore so-called "Fat Lady". Reference 16760 features an extra-thick case, some 1 mm. thicker than its successors, as well as a thicker bezel and crown guards. This has led collectors to affectionately nickname it the "Fat Lady". Reference 16760 is also the first GMT to be produced exclusively with a sapphire crystal.

Cornerstone of a serious Rolex collection, reference 6265 is distinguished by its metallic bezel with tachymeter scale, screw down chronograph buttons and caliber 727. Introduced to the market in the early 1970s with its peers 6263 and 6264, the present chronograph is part of the first Oyster versions of the celebrated Cosmograph model.

The present example is the most lavish iteration of the 6265 reference: in 18k gold with champagne dial, engine-turned subsidiary registers and gold bracelet.

The subtle layer of oxidation noticeable between the chronograph pushers and crown is the telltale mark of a watch which spent most of its life in a safety deposit box. Another testament to the care the present timepiece has seen throughout its life is the presence and extreme crispness of all the three stamps under the lugs. As it often happens with Rolex, the case back bears a different reference number than the case: 6263. This is because the specifications of the case back for the two references are exactly the same, and thus the company was inclined to mount whatever case back was available during final assembly. The stamp CRS stands for the case maker Charles-René Spielmann.

Launched in 1971, the Rolex Explorer II was initially developed for speleologists with the aim of enabling quick differentiation between diurnal and nocturnal time. Highly reliable and resistant, reference 1655 encompassed a fixed stainless steel bezel and a highly legible luminescent orange hand. Nicknamed "Freccione", translation for "The Arrow" in Italian, the present model rose to fame when actor Steve McQueen wore one during his lifetime, and has been in demand ever since.

With *Rolex* warranty dated 29 August 2001, blue lizard wallet, calendar card, fitted blue lizard presentation box and outer packaging.

Epitomizing the experimentalism of Rolex, the present timepiece is part of a collection nicknamed 'Beach', comprehending four possible dial variations (green chrysoprase agate, turquoise and yellow or pink mother-of-pearl), a lizard strap matching the color of the dial and presentation box.

With a dial made of turquoise, the present wristwatch is furthermore offered in excellent condition.

Offered here in excellent condition, the present wristwatches are fitted with a sodalite dial and set with brilliant-cut diamond numerals.

Highly coveted by collectors, hard-stone dials are known for their fragile nature and risk of breaking during assembling processes. For this specific reason, Rolex wristwatches with intact hard-stone dials are increasingly rare and sought-after timepieces.

REF. 116589
'HAUTE JOAILLERIE'

With the advent of the new millennium, Rolex decided to release a new version of their iconic Daytona chronograph. Introduced at the Basel fair in year 2000, the case had been redesigned with new glossy lugs and was manufactured with a bracelet with solid links. The chronograph was assembled with the new movement caliber 4130, which lead the sub-register for running seconds to move from 9 to 6 o'clock.

From a technical point of view, the new caliber maintains the COSC certification, has 44 rubies, a four-arms monometallic balance wheel made in Glucydur, micrometric "microstar" regulation featuring four elements screwed onto the balance wheel's ring, 28,000 alternations per hour, kif shock- absorbing device.

ROLEX
GMT MASTER II
REF.116758
'SARU'

Timepieces set with precious stones are amongst the rarest and most desirable watches crafted by Rolex. Modern interpretation of the widely acclaimed GMT-Master reference 16758 launched in 1979, the present wristwatches are also nicknamed "SARU" with reference to the diamond, sapphire and ruby setting, tribute to the colors of bakelite bezels of earlier models.

Through its astonishing gem setting, heritage and rarity, the present timepieces are set to follow the footsteps of the original "SARU" references and become collector's pieces.

The present watches are each set with 23 diamonds, 18 blue sapphires, 18 rubies on their bezel as well as 76 brilliant-cut diamonds on their case. They furthermore astound by their excellent overall condition

ENAMEL & WOOD MARQUETRY

NO. 03/20

Founded in 1847, the success of Cartier resides in their daring innovations and designs. Through the Cartier d'Art limited series, the manufacture was able to combine new materials such as marquetry wood, straw and enamel with innovative themes.

Fine example of the series, the present lot through its finely decorated 18 karat gold, enamel and diamond-set case will display the majestically engraved marquetry wood dial representing a parrot.

Numbered 3 of a limited edition of 20 examples only, the present wristwatch represents a rare opportunity for collectors of fine time pieces.

A. LANGE & SÖHNE

LANGE 1 'SOIRÉE'

Widely acclaimed within the watch community, the Lange 1 model set the brand towards the path of recovering its status as one of the world's leading watch company.

First introduced in 1994, the Lange 1 is the most recognizable model of the manufacture. Carefully crafted in order to show the world a timepiece with a truly unique identity, the model will tell time through its asymmetric dial and off-centered time display. In order to tell the date, A.Lange & Söhne's engineers adopted an outsize date indication inspired from the five-minute clock of the semper opera house in Dresden. Throughout the years, the Lange 1 has captivated numerous watch enthusiasts and reached a status that only very few watches have attained in such a small amount of time.

Created in 1931, the Jaeger-LeCoultre Reverso wristwatch was created at the request of British polo players in India. Due to the roughness of their sport, the wristwatch was created with a reversible head that could slide on its base and flip over on itself to give place to a metallic cover protecting the dial from impacts. Through its Art Deco design, the Reverso wristwatch established itself as one of Jaeger-LeCoultre's most successful timepieces.

François-Paul Journe was born in Marseille in 1957. He graduated from the Paris School of Watchmaking in 1976 and immediately joined forces with his uncle, a noted restorer of antique timepieces. Before creating his own complete line of wristwatches, Journe restored some of the world's most important historical timepieces, devised and built unique pocket watches to order and designed and made complications for prestigious watch brands.

In 1996, Journe established a workshop in Geneva, designing and making watch mechanisms for other brands. Three years later, in 1999, he launched his own watches under the label "F.P.Journe Invenit et Fecit".

With *F.P. Journe* undated Certificate of Authenticity, instruction manual, fitted presentation box and outer packaging.

The Octa Calendrier is the third complication to be integrated in the Octa automatic calibre. The integration of an annual retrograde calendar while maintaining the dimensions of the movement was another significant horological achievement. The instantaneously advancing day and month display is self-adjusting for months with 28, 30 and 31 days. The Octa annual calendar requires manual adjustment at the end of February only during the non-leap years.

F.P. JOURNE

OCTA CHRONOGRAPH

PLATINUM

With the Octa Chronographe, François-Paul Journe revolutionized the classical conception of a chronograph. Integrated within the Octa automatic winding calibre measuring 30 mm in diameter and 5.7 mm in thickness, the chronograph is housed in a space just 1 mm thick. This space is also occupied by the twin concentric large date display discs. To achieve such a performance, François-Paul Journe imagined flattening the usual column wheel to transform it into a cam wheel. This means it is the profiled rim instead of the column which actions the chronograph levers. A single sliding lever returns the chronograph seconds and minutes to zero by disengaging the brakes at the precise moment when it hits the specially profiled reset parts. These two innovations make it possible to reduce the mechanism to three levels. In this more compact version, the result is a sturdy movement ensuring long-term reliability.

It is fitted with flyback and reset functions and a 60 minutes counter, the date is shown by large, separate numerals, according to a patented display mode.

Furthermore, the model is not in production anymore.

Born in La Chaux-de-fonds, Switzerland, Pierre Jaquet Droz quickly took strong interest in precision mechanics and decided to apply his skills to high-end horology. Master-watchmaker, Jaquet Droz was also an acute businessman and began developing a network enabling him to promote his pieces globally in countries such as the United Kingdom, Spain or China.

Now owned by the Swatch Group, the manufacture has stayed true to its origins and continues to create high-end and complicated pieces inspired from the rich history and tradition established by its founder.

Created in 1845 by Ferdinand A. Lange, the German manufacture based in Saxony encountered many challenges throughout its history. Built with the vision of producing the most technical and sought-after timepieces, the company's activity was hindered due to bombings of the Second World War and the political instability that later followed in the region.

Attached to his watchmaking legacy, Walter Lange saw the opportunity to revive his ancestor's company after the fall of the Berlin Wall in 1989. He therefore re-established a manufacture in Glashütte and was able to offer his first timepiece by 1994.

REF. 5050J

PATEK PHILIPPE
GENEVE

Introduced at the Basel fair in 1993, reference 5050 was the first Patek Philippe wristwatch manufactured in series to feature a retrograde date.

First available with a silvered dial with applied Roman numerals, an aperture for the phases of the moon and outer railway minute divisions, growing demand from clients lead Patek Philippe to introduce a second series of the reference. The second version, such as the present timepiece, featured applied baton indexes, a modified moon phase display in form of a subsidiary dial, outer beady minute divisions and the addition of the designation "Automatic". The third series was crafted with applied Roman numerals, pearled minute divisions and a moon-phase aperture.

Discontinued in 2002, reference 5050 is highly sought-after and considered as a modern classic. The present timepiece is furthermore offered in excellent condition and with all its accessories.

Reference 5050

Launched in 2012 at Baselworld, reference 5235 by Patek Philippe is the first modern annual calendar wristwatch of the firm produced with a regulator dial. Initially found in watchmaker workshops, regulator dials allow more accuracy than conventional timepieces as the hour and minute hands do not share the central pinion position on the dial but are independently placed.

Considered as one of the most significant technical innovations in Patek Philippe's history, the present reference is further more offered in pristine conditions with all its accessories.

It takes much more than a cursory glance at Patek Philippe's debut showpiece for Basel 2003 to realize that reference 5101 is a highly complicated wristwatch. In fact it is the first timepiece that combines two complications which are very difficult to accommodate in the confined space of a rectangular movement: two tandem mainspring barrels with 240 hours of energy storage capacity and a tourbillon precision regulator composed of 72 individual parts.

Characteristic for Patek Philippe, hardly any signs on the outside of the piece would reveal the complexity of its inner workings. Understated elegance has always been a hallmark of Patek Philippe but the tourbillon cage is in fact concealed for a very practical reason - the oil used to lubricate the mechanism is sensitive to ultraviolet rays and would decompose if exposed to daylight, thus losing its beneficial tribological properties. As extremely stringent standards are imposed on all Patek Philippe movements and even more so on tourbillon pieces, the present timepiece is stamped with the Geneva Seal.

Offered here in excellent condition, reference 5101 in pink gold was made in approximately 100 pieces.

IMPORTANT NOTICES AND EXPLANATION OF CATALOGUING PRACTICE

IMPORTANT NOTICES

CHRISTIE'S INTEREST IN PROPERTY CONSIGNED FOR AUCTION

From time to time, Christie's may offer a lot which it owns in whole or in part. Such property is identified in the catalogue with the symbol Δ next to its lot number.

On occasion, Christie's has a direct financial interest in lots consigned for sale, which may include guaranteeing a minimum price or making an advance to the consignor that is secured solely by consigned property. Such property is identified in the catalogue with the symbol \circ next to the lot number. This symbol will be used both in cases where Christie's holds the financial interest on its own, and in cases where Christie's has financed all or part of such interest through third parties. When a third party agrees to finance all or part of Christie's interest in a lot, it takes on all or part of the risk of the lot not being sold, and will be remunerated in exchange for accepting this risk. The third party may also bid for the lot. Where it does so, and is the successful bidder, the remuneration may be netted against the final purchase price. If the lot is not sold, the third party may incur a loss. Where Christie's has an ownership or financial interest in every lot in the catalogue, Christie's will not designate each lot with a symbol, but will state its interest at the front of the catalogue.

In this catalogue, if property has $\circ \blacklozenge$ next to the lot number, Christie's guarantee of a minimum price has been fully financed through third parties.

ALL DIMENSIONS AND WEIGHTS ARE APPROXIMATE ONLY

CONDITION REPORTS

Christie's catalogues include references to condition only in descriptions of multiple works (such as prints, books and wine). For all other property, only alterations or replacement components are listed. Please contact the Specialist Department for a condition report on a particular lot.

Condition reports are provided as a service to interested clients. Prospective buyers should note that descriptions of property are not warranties and that each lot is sold "as is".

LOTS OFFERED WITHOUT RESERVE

Please note that all lots highlighted with red titles in this sale are offered 'Without Reserve'. These items will be sold to the highest bidder, regardless of the pre-sale estimate printed in the catalogue. We hope that you will find this visual presentation helpful.

REGARDING THE EXPORT OF WATCH BANDS INCORPORATING MATERIALS FROM ENDANGERED SPECIES

Many of the watches offered for sale in this catalogue are pictured with straps made of endangered or protected animal materials such as alligator or crocodile. These lots are marked with the symbol \sim in the catalogue. These endangered species straps are shown for display purposes only and are not for sale. Christie's will remove and retain the strap prior to shipment from the sale site. At some sale sites, Christie's may at its discretion make the displayed endangered species strap available to the buyer of the lot free of charge if collected in person from the sale site within 1 year of the date of the sale. Please check with the department for details on a particular lot.

For all symbols and other markings, please note that lots are marked as a convenience to you, but we do not accept liability for errors or for failing to mark lots.

PROPERTY INCORPORATING MATERIALS FROM ENDANGERED AND OTHER PROTECTED SPECIES

Property made of or incorporating (irrespective of percentage) endangered and other protected species of wildlife are marked with the symbol \sim in the catalogue. Such material includes, among other things, ivory, tortoiseshell, crocodile skin, rhinoceros horn, whale bone and certain species of coral, together with Brazilian rosewood. Prospective purchasers are advised that several countries prohibit altogether the importation of property containing such materials, and that other countries require a permit (e.g., a CITES permit) from the relevant regulatory agencies in the countries of exportation as well as importation. Accordingly, clients should familiarise themselves with the relevant customs laws and regulations prior to bidding on any property with wildlife material if they intend to import the property into another country. Please note that it is the client's responsibility to determine and satisfy the requirements of any applicable laws or regulations applying to the export or import of property containing endangered and other protected wildlife material. The inability of a client to export or import property containing endangered and other protected wildlife material is not a basis for cancellation or rescission of the sale. Please note also that lots containing potentially regulated wildlife material are marked as a convenience to our clients, but Christie's does not accept liability for errors or for failing to mark lots containing protected or regulated species.

RECENT CHANGES TO IMPORTS OF ELEPHANT IVORY AND OTHER WILDLIFE MATERIAL INTO THE USA

The USA has recently changed its policy on the import of property made of or containing elephant ivory. Only Asian Elephant ivory may be imported into the USA, and imports must be accompanied by DNA analysis and confirmation the object is more than 100 years old. We have not obtained a DNA analysis on any lot prior to sale and cannot indicate whether the elephant ivory in a particular lot is African or Asian elephant. Buyers purchase these lots at their own risk and will be responsible for the costs of obtaining any DNA analysis or other report required in connection with their proposed import of such property into the USA.

The USA is also currently requiring all imports of property made of or containing wildlife material to be accompanied by a scientific confirmation of species and in some cases an additional confirmation of age. We have not obtained such confirmations prior to sale (unless specifically indicated) and buyers will be responsible for the costs of any such additional confirmations or opinions required for their proposed import into the USA.

A buyer's inability to export or import any lot containing elephant ivory or other wildlife material is not a basis for cancelling the purchase.

TO PROSPECTIVE BUYERS OF CLOCKS AND WATCHES

The description of the condition of clocks and watches in this catalogue, including references to defects and repairs, is provided as a service to prospective buyers, but such description is not necessarily complete. While Christie's will furnish a condition report on any lot to a prospective purchaser upon request, any such report may also be incomplete and may not specify all mechanical replacements or defects. Accordingly, all clocks and watches should be viewed personally by prospective buyers to evaluate the condition of the property offered for sale. All lots are sold "as is," and the absence of any reference to the condition of a clock or watch does not imply that the lot is in good condition and without defects, repairs or restorations. Virtually all clocks and watches have been repaired in the course of their normal useful lifetime and may now incorporate parts not original to them. Furthermore, Christie's makes no representation or warranty that any clock or watch is in working order.

Watches are not always illustrated life size, buyers should refer to the catalogue description for the dimensions of each watch.

It should be noted that most wristwatches with water-resistant cases have been opened to identify type and quality of movement. It cannot be assumed that the watches are still waterproof and purchasers are advised to have the watches checked by a competent watch-maker before use.

Please note that gold of less than 18ct. does not qualify in all countries as 'gold' and may be refused import. Christie's cannot accept liability if import is refused.

Please note that all Rolex watches in the Christie's sale catalogue are sold as viewed and that Christie's cannot guarantee the authenticity of any individual component part of these Rolex watches. The bracelets described as "associated" are not part of the original piece and may not be authentic.

Prospective buyers should satisfy themselves by personal inspection as to the condition of each Lot. Condition reports can be requested from Christie's and are given 'without prejudice' in accordance with the terms of the conditions of sale and limited warranty printed in the back of the catalogue. Nevertheless, such reports are for general guidance only and will not specify all mechanical replacements or imperfections. Such reports will, of necessity, be subjective. Buyers are advised that certificates are not available unless otherwise stated.

As collectors' watches often contain extremely fine and complex mechanisms, buyers should be aware that a general service, change of battery or further repair work, for which the buyer is solely responsible, may be necessary.

BUYING AT CHRISTIE'S

CONDITIONS OF SALE

Christie's Conditions of Sale and Limited Warranty are set out later in this catalogue. Bidders are strongly encouraged to read these as they set out the terms on which property is bought at auction.

ESTIMATES

Estimates are based upon prices recently paid at auction for comparable property, condition, rarity, quality and provenance. Estimates are subject to revision. Buyers should not rely upon estimates as a representation or prediction of actual selling prices. Estimates do not include the buyer's premium. Where "Estimate on Request" appears, please contact the Specialist Department for further information.

RESERVES

The reserve is the confidential minimum price the consignor will accept and will not exceed the low pre-sale estimate. Lots that are not subject to a reserve are highlighted with red titles in this sale.

BUYER'S PREMIUM

Christie's charges a premium to the buyer on the final bid price of each lot sold at the following rates: 2.5% of the final bid price of each lot up to and including US\$100,000, 20% of the final bid price of each lot above US\$100,000 and up to and including US\$2,000,000 and 12% of the excess of the hammer price above US\$2,000,000. For all lots, taxes are payable on the premium at the applicable rate.

PRE-AUCTION VIEWING

Pre-auction viewings are open to the public free of charge. Christie's specialists are available to give advice and condition reports at viewings or by appointment.

BIDDER REGISTRATION

Prospective buyers who have not previously bid or consigned with Christie's should bring:

- Individuals: government-issued photo identification (such as a driving licence, national identity card, or passport) and, if not shown on the ID document, proof of current address, for example a utility bill or bank statement.
- Corporate clients: copy of the certificate of incorporation details of corporate address if not included on certificate of incorporation and documentary proof of directors and beneficial owners. For any bidder who is not a director or beneficial owner of the company, a letter from the Company confirming that he/she is authorised to act together with photo ID will be required.
- For other business structures such as trusts, offshore companies or partnerships, please contact Christie's Credit Department at +971(0)4 425 5647 for advice on the information you should supply.
- A financial reference in the form of a recent bank statement or a reference from your bank. Christie's can supply a form of wording for the bank reference if necessary.

Persons registering to bid on behalf of someone who has not previously bid or consigned with Christie's should bring identification documents not only for themselves but also for the party on whose behalf they are bidding, together with a signed letter of authorisation from that party.

To allow sufficient time to process the information, new clients are encouraged to register at least 48 hours in advance of a sale.

Prospective buyers should register for a numbered bidding paddle at least 30 minutes before the auction. Clients who have not made a purchase from any Christie's office within the last one year and those wishing to spend more than on previous occasions, will be asked to supply a new bank reference. For assistance with references, please contact Christie's Credit Department at +971(0)4 319 8115 from 13-17 March 2016 or +971(0)4 425 5647. We may at our option ask you for a financial reference or a deposit as a condition of allowing you to bid.

REGISTERING TO BID ON SOMEONE ELSE'S BEHALF

Persons bidding on behalf of an existing client should bring a signed letter from the client authorising the bidder to act on the client's behalf. Please note that Christie's does not accept payments from third parties. Christie's can only accept payment from the client, and not from the person bidding on their behalf.

BIDDING

The auctioneer accepts bids from those present in the saleroom, from telephone bidders, or by absentee written bids left with Christie's in advance of the auction. The auctioneer may also execute bids on behalf of the seller up to the amount of the reserve. The auctioneer will not specifically identify bids placed on behalf of the seller. Under no circumstances will the auctioneer place any bid on behalf of the seller at or above the reserve. Bid steps are shown on the Absentee Bid Form at the back of this catalogue.

ABSENTEE BIDS

Christie's staff will attempt to execute an absentee bid at the lowest possible price taking into account the reserve price. Absentee bids submitted on "no reserve" lots will, in the absence of a higher bid, be executed at approximately 50% of the low pre sale estimate or at the amount of the bid if it is less than 50% of the low pre-sale estimate. The auctioneer may execute absentee bids directly from the rostrum, clearly identifying these as "absentee bids," "book bids," "order bids" or "commission bids." Absentee Bids Forms are available in this catalogue, at any Christie's location or online at christies.com.

TELEPHONE BIDS

Telephone bids will be accepted for lots with low-end estimates of US\$1,500 and above, where arrangements are made no later than 24 hours prior to the sale and only if the capacity of our pool of staff telephone bidders allows. Arrangements to bid in languages other than English must be made well in advance of the sale date.

Telephone bids may be recorded. By bidding on the telephone, prospective purchasers consent to the recording of their conversations.

Christie's offers all absentee and telephone bidding services as a convenience to our clients, but will not be responsible for errors or failures to execute bids.

SUCCESSFUL BIDS

While invoices are sent out by mail after the auction, we do not accept responsibility for notifying you of the result of your bids. Buyers are requested to contact us by telephone or in person as soon as possible after the sale to obtain details of the outcome of their bids to avoid incurring unnecessary storage charges. Successful bidders will pay the price of the final bid plus premium plus any applicable taxes.

PAYMENT

Buyers are expected to make payment for purchases immediately after the auction. To avoid delivery delays, prospective buyers are encouraged to supply bank or other suitable references before the auction.

Please note that we will only accept payment from the registered bidder. Once issued, we cannot change the buyer's name on an invoice or re-issue the invoice in a different name. You must pay immediately even if you want to export the lot and you need an export licence.

Lots purchased in Dubai may be paid for in the following ways: wire transfer, credit card: Visa and MasterCard & American Express only (up to \$50,000), cash (in US currency up to \$7,500 (subject to conditions)), money orders (in US currency up to \$7,500 per annum), banker's draft (subject to conditions) and cheque. IMPORT DUTY

BUYERS RESIDENT IN GCC

★

Buyers of imported objects collected or shipped within the GCC (Bahrain, Kuwait, Oman, Qatar, Saudi Arabia, UAE) are subject to a 5% import duty on the low estimate (identified by the symbol ★ in the catalogue). For GCC buyers, please note that duty is paid at origin (In Dubai) and not in the importing country. As such, duty paid in Dubai is treated as final duty payment as per GCC's custom laws. It is the buyers' responsibility to ascertain and pay all taxes due. For more information, please contact Buyer Payments at +971 (0)4 425 5647.

NON-GCC RESIDENT BUYERS

For non-GCC buyers, import duty will not apply provided that shipment/delivery is arranged through Christie's shipper. Christie's cannot guarantee that import duty will not be levied should clients choose to arrange delivery through their own carriers.

UAE SOURCED OBJECTS (GATE PASS LOTS)

All objects offered for sale and identified without the symbol ★ in the catalogue are duty exempt if bought by and shipped to UAE residents.

In any case, property sold at auction may be subject to import restrictions/taxes of foreign countries. It is the buyers' responsibility to obtain any relevant import licenses into the buyers' own countries of residence and settle any taxes

IMPORT PERMITS

Property sold at auction may be subject to import restrictions of foreign countries. It is the buyer's sole responsibility to obtain any relevant import license. The denial of any license or any delay in obtaining licenses shall neither justify the rescission of any sale nor any delay in making full payment for the lot.

Upon request, Christie's will assist the buyer in submitting applications to obtain the appropriate licenses. However, Christie's cannot ensure that a license will be obtained. Local laws may prohibit the import of some property and/or may prohibit the resale of some property in the country of importation. No such restriction shall justify the rescission of any sale or delay in making full payment for the lot.

CONDITIONS OF SALE

These Conditions of Sale and the Important Notices and Explanation of Cataloguing Practice set out the terms governing the legal relationship of Christie's and the seller with the buyer. You should read them carefully before bidding.

1. CHRISTIE'S AS AGENT

Except as otherwise stated Christie's acts as agent for the seller. The contract for the sale of the property is therefore made between the seller and the buyer.

2. CATALOGUE DESCRIPTIONS AND CONDITION

Lots are sold as described and otherwise in the condition they are in at the time of the sale, on the following basis.

(a) Condition

The nature of the lots sold in our auctions is such that they will rarely be in perfect condition, and are likely, due to their nature and age, to show signs of wear and tear, damage, other imperfections, restoration or repair. Any reference to condition in a catalogue entry will not amount to a full description of condition. Condition reports are usually available on request, and will supplement the catalogue description. In describing lots, our staff assess the condition in a manner appropriate to the estimated value of the item and the nature of the auction in which it is included. Any statement as to the physical nature or condition of a lot, in a catalogue, condition report or otherwise, is given honestly and with appropriate care. However, Christie's staff are not professional restorers or trained conservators and accordingly any such statement will not be exhaustive. We therefore recommend that you always view property personally, and, particularly in the case of any items of significant value, that you instruct your own restorer or other professional adviser to report to you in advance of bidding.

(b) Cataloguing Practice

Our cataloguing practice is explained in the Important Notices and Explanation of Cataloguing Practice, which appear after the catalogue entries.

(c) Attribution etc

Any statements made by Christie's about any lot, whether orally or in writing, concerning attribution to, for example, an artist, school, or country of origin, or history or provenance, or any date or period, are expressions of our opinion or belief. Our opinions and beliefs have been formed honestly and in accordance with the standard of care reasonably to be expected of an auction house of Christie's standing, due regard having been had to the estimated value of the item and the nature of the auction in which it is included. It must be clearly understood, however, that, due to the nature of the auction process, we are unable to carry out exhaustive research of the kind undertaken by professional historians and scholars, and also that, as research develops and scholarship and expertise evolve, opinions on these matters may change. We therefore recommend that, particularly in the case of any item of significant value, you seek advice on such matters from your own professional advisers.

(d) Estimates

Estimates of the selling price should not be relied on as a statement that this is the price at which the item will sell or its value for any other purpose.

(e) Fitness for Purpose

Lots sold are enormously varied in terms of age, category and condition, and may be purchased for a variety of purposes. Unless otherwise specifically agreed, no promise is made that a lot is fit for any particular purpose.

3. AT THE SALE

(a) Refusal of admission

Christie's has the right, at our complete discretion, to refuse admission to the premises or participation in any auction and to reject any bid.

(b) Registration before bidding

Prospective buyers must complete and sign a registration form with his or her name and permanent address, and provide identification before bidding. We may require the production of bank details from which payment will be made or other financial references.

(c) Bidding as principal

When making a bid, a bidder is accepting personal liability to pay the purchase price, including the buyer's premium and any applicable taxes, plus all other applicable charges, unless it has been explicitly agreed in writing with Christie's before the commencement of the sale that the bidder is acting as agent on behalf of an identified third party acceptable to Christie's, and that Christie's will only look to the principal for payment.

(d) Absentee bids

We will use reasonable efforts to carry out written bids delivered to us prior to the sale for the convenience of clients who are not present at the auction in person, by an agent or by telephone. Bids must be placed in the currency of the place of the sale. Please refer to the catalogue for the Absentee Bids Form. If we receive written bids on a particular lot for identical amounts, and at the auction these are the highest bids on the lot, it will be sold to the person whose written bid was received and accepted first. Execution of written bids is a free service undertaken subject to other commitments at the time of the sale and provided that we have exercised reasonable care in the handling of written bids, the volume of goods is such that we cannot accept liability in any individual instance for failing to execute a written bid or for errors and omissions in connection with it arising from circumstances beyond our reasonable control.

(e) Telephone bids

If a prospective buyer makes arrangements with us prior to the commencement of the sale we will use reasonable efforts to contact them to enable them to participate in the bidding by telephone but we do not accept liability for failure to do so or for errors and omissions in connection with telephone bidding arising from circumstances beyond our reasonable control.

(f) Currency converter

At some auctions a currency converter may be operated. Errors may occur in the operation of the currency converter. Where these arise from circumstances beyond our reasonable control we do not accept liability to bidders who follow the currency converter rather than the actual bidding in the saleroom.

(g) Video or digital images

At some auctions there may be a video or digital screen. Errors may occur in its operation and in the quality of the image. We do not accept liability for such errors where they arise for reasons beyond our reasonable control.

(h) Reserves

Unless otherwise indicated, all lots are offered subject to a reserve, which is the confidential minimum price below which the lot will not be sold. The reserve will not exceed the low estimate printed in the catalogue. Lots that are not subject to a reserve are highlighted with red titles in this sale. The auctioneer may open the bidding on any lot below the reserve by placing a bid on behalf of the seller. The auctioneer may continue to bid on behalf of the seller up to the amount of the reserve, either by placing consecutive bids or by placing bids in response to other bidders.

(i) Auctioneer's discretion

The auctioneer has the right to exercise reasonable discretion in refusing any bid, advancing the bidding in such a manner as he may decide, withdrawing or dividing any lot, combining any two or more lots and, in the case of error or dispute, and whether during or after the sale, determining the successful bidder, continuing the bidding, cancelling the sale or reoffering and reselling the item in dispute. If any dispute arises after the sale, then, in the absence of any evidence to the contrary the sale record maintained by the auctioneer will be conclusive.

(j) Successful bid and passing of risk

Subject to the auctioneer's reasonable discretion, the highest bidder accepted by the auctioneer will be the buyer and the striking of his hammer marks the acceptance of the highest bid and the conclusion of a contract for sale between the seller and the buyer. Risk and responsibility for the lot (including frames or glass where relevant) passes to the buyer at the expiration of seven calendar days from the date of the sale or on collection by the buyer if earlier.

4. AFTER THE SALE

(a) Buyer's premium

Christie's charges a premium to the buyer on the final bid price of each lot sold at the following rates: 25% of the final bid price of each lot up to and including US\$100,000, 20% of the final bid price of each lot above US\$100,000 and up to and including US\$2,000,000 and 12% of the excess of the hammer price above US\$2,000,000. For all lots, taxes are payable on the premium at the applicable rate.

(b) Payment and ownership

The buyer must pay the full amount due (comprising the hammer price, buyer's premium and any applicable taxes) immediately after the sale.

The buyer will not acquire title to the lot until all amounts due to us from the buyer have been received by us in good cleared funds even in circumstances where we have released the lot to the buyer.

(c) Collection of purchases

We shall be entitled to retain items sold until all amounts due to us, or to Christie's International plc, or to any of its affiliates, subsidiaries or parent companies worldwide, have been received in full in good cleared funds or until the buyer has performed any other outstanding obligations as we, in our sole discretion, shall require, including, for the avoidance of doubt, competing any anti-money laundering or anti-terrorism financing checks we may require to our satisfaction. In the event a buyer fails to complete any anti-money laundering or anti-terrorism financing checks to our satisfaction, Christie's shall be entitled to cancel the sale and to take any other actions that are required or permitted under applicable law. Subject to this, the buyer shall collect purchased lots within two calendar days from the sale unless otherwise agreed between us and the buyer.

(d) Packing, handling and shipping

Although we shall use reasonable efforts to take care when handling, packing and shipping a purchased lot and in selecting third parties for these purposes, we are not responsible for the acts or omissions of any such third parties. Similarly, where we suggest other handlers, packers or carriers if so requested, we are not responsible to any person to whom we have made a recommendation for the acts or omissions of the third party concerned.

(e) Remedies for non payment

If the buyer fails to make payment in full in good cleared funds within 7 days after the sale, we shall have the right to exercise a number of legal rights and remedies. These include, but are not limited to, the following:

- (i) to hold the defaulting buyer liable for the total amount due and to commence legal proceedings for its recovery together with interest, legal fees and costs to the fullest extent permitted under applicable law;
- (ii) to cancel the sale;
- (iii) to resell the property publicly or privately on such terms as we shall think fit;
- (iv) to pay the seller an amount up to the net proceeds payable in respect of the amount bid by the defaulting buyer;
- (v) to set off against any amounts which we, or Christie's International plc, or any of its affiliates, subsidiaries or parent companies worldwide, may owe the buyer in any other transactions, the outstanding amount remaining unpaid by the buyer;
- (vi) where several amounts are owed by the buyer to us, or to Christie's International plc, or to any of its affiliates, subsidiaries or parent companies worldwide, in respect of different transactions, to apply any amount paid to discharge any amount owed in respect of any particular transaction, whether or not the buyer so directs;
- (vii) to reject at any future auction any bids made by or on behalf of the buyer or to obtain a deposit from the buyer before accepting any bids;
- (viii) to exercise all the rights and remedies of a person holding security over any property in our possession owned by the buyer, whether by way of pledge, security interest or in any other way, to the fullest extent permitted by the law of the place where such property is located. The buyer will be deemed to have granted such security to us and we may retain such property as collateral security for such buyer's obligations to us;
- (ix) to take such other action as we deem necessary or appropriate.

If we resell the property under paragraph (iv) above, the defaulting buyer shall be liable for payment of any deficiency between the total amount originally due to us and the price obtained upon resale as well as for all reasonable costs, expenses, damages, legal fees and commissions and premiums of whatever kind associated with both sales or otherwise arising from the default. If we pay any amount to the seller under paragraph (v) above, the buyer acknowledges that Christie's shall have all of the rights of the seller, however arising, to pursue the buyer for such amount.

(f) Selling Property at Christie's

In addition to expenses such as transport, all consignors pay a commission according to a fixed scale of charges based upon the value of the property sold by the consignor at Christie's in a calendar year. Commissions are charged on a sale by sale basis.

5. LIMITED WARRANTY

In addition to Christie's liability to buyers set out in clause 2 of these Conditions, but subject to the terms and conditions of this paragraph, Christie's warrants for a period of five years from the date of the sale that any property described in headings printed in UPPER CASE TYPE (i.e. headings having all capital-letter type) in this catalogue (as such description may be amended by any saleroom notice or announcement) which is stated without qualification to be the work of a named author or authorship, is authentic and not a forgery. The term "author" or "authorship" refers to the creator of the property or to the period, culture, source or origin, as the case may be, with which the creation of such property is identified in the UPPER CASE description of the property in this catalogue. Only UPPER CASE TYPE headings of lots in this catalogue indicate what is being warranted by Christie's. Christie's warranty does not apply to supplemental material which appears below the UPPER CASE TYPE headings of each lot and Christie's is not responsible for any errors or omissions in such material. The terms used in the headings are further explained in Important Notices and Explanation of Cataloguing Practice. The warranty does not apply to any heading which is stated to represent a qualified opinion. The warranty is subject to the following:

- (i) It does not apply where (a) the catalogue description or saleroom notice corresponded to the generally accepted opinion of scholars or experts at the date of the sale or fairly indicated that there was a conflict of opinions; or (b) correct identification of a lot can be demonstrated only by means of either a scientific process not generally accepted for use until after publication of the catalogue or a process which at the date of publication of the catalogue was unreasonably expensive or impractical or likely to have caused damage to the property.
- (ii) The benefits of the warranty are not assignable and shall apply only to the original buyer of the lot as shown on the invoice originally issued by Christie's when the lot was sold at auction.
- (iii) The original buyer must have remained the owner of the lot without disposing of any interest in it to any third party.
- (iv) The buyer's sole and exclusive remedy against Christie's and the seller, in place of any other remedy which might be available, is the cancellation of the sale and the refund of the original purchase price paid for the lot. Neither Christie's nor the seller will be liable for any special, incidental or consequential damages including, without limitation, loss of profits nor for interest.

- (v) The buyer must give written notice of claim to us within five years from the date of the auction. It is Christie's general policy, and Christie's shall have the right, to require the buyer to obtain the written opinions of two recognised experts in the field, mutually acceptable to Christie's and the buyer, before Christie's decides whether or not to cancel the sale under the warranty.
- (vi) The buyer must return the lot to the Christie's saleroom at which it was purchased in the same condition as at the time of the sale.

6. COPYRIGHT

The copyright in all images, illustrations and written material produced by or for Christie's relating to a lot including the contents of this catalogue, is and shall remain at all times the property of Christie's and shall not be used by the buyer, nor by anyone else, without our prior written consent. Christie's and the seller make no representation or warranty that the buyer of a property will acquire any copyright or other reproduction rights in it.

7. SEVERABILITY

If any part of these Conditions of Sale is found by any court to be invalid, illegal or unenforceable, that part shall be discounted and the rest of the conditions shall continue to be valid to the fullest extent permitted by law.

8. LAW AND JURISDICTION

Any dispute arising out of or in connection with these Conditions of Sale, including any question regarding its existence, validity or termination, shall at Christie's sole option: (i) be subject to the non exclusive jurisdiction of the Courts of the Dubai International Financial Centre ("DIFC") and the Buyer irrevocably submits to the jurisdiction of the DIFC Courts and waives any objection it may have to disputes arising out of or in connection with this contract being heard in the DIFC Courts on the grounds that it is an inconvenient forum (forum non conveniens); or, at Christie's sole option (ii) be referred to arbitration under the Arbitration Rules of the DIFC-LCIA Arbitration Centre, which Rules are deemed to be incorporated by reference into this clause. The seat, or legal place, of arbitration shall be the DIFC. The language to be used in the arbitration shall be English. The governing law of the contract shall be the substantive law of England and Wales.

[Please note an Arabic version of the Conditions of Sale is available upon request].

Please also refer to the information contained in Buying at Christie's.

I request Christie's to bid on the following lots up to the maximum price I have indicated for each lot. I understand that if my bid is successful, the purchase price will be the sum of my final bid plus a buyer's premium of 25% of the final bid price of each lot up to and including US\$100,000, 20% of the excess of the hammer price above US\$100,000 and up to and including US\$2,000,000 and 12% of the excess of the hammer price above US\$2,000,000, together with any VAT chargeable on the final bid and the buyer's premium. VAT is chargeable on the purchase price of daggered (†) lots, and for buyers outside the EU on (o) lots, at the standard rate. VAT is chargeable on the purchase price of starred (*) lots at the reduced rate. I understand that Christie's provides the service of executing absentee bids for the convenience of clients and that Christie's is not responsible for failing to execute bids or for errors relating to execution of bids. On my behalf, Christie's will try to purchase these lots for the lowest possible price, taking into account the reserve and other bids. Absentee bids submitted on "no reserve" lots will, in the absence of a higher bid, be executed at approximately 50% of the low pre-sale estimate or at the amount of the bid if it is less than 50% of the low pre-sale estimate.

If identical absentee bids are received for the same lot, the written bid received first by Christie's will take precedence. Please contact the Bid Department at least 24 hours in advance of the sale to make arrangements for telephone bidding. All bids are subject to the terms of the Conditions of Sale and Limited Warranty printed in each Christie's catalogue.

Absentee bids must be placed in US Dollars and received at least 24 hours before the auction begins.

Christie's will confirm all bids received by fax by return fax. If you have not received confirmation within one business day, please contact the Bid Department. Tel: +44 (0)20 7389 2658 Fax: +44 (0)20 7930 8870 on-line www.christies.com
