HERITAGE
AUCTIONS
EUROPE

Beste liefhebber,

In uw handen heeft u de catalogus van de aankomende meiveiling van Heritage Auctions Europe, zoals elk half jaar een grote veiling met ruim 8800 (!) kavels, ingedeeld in losse nummers en grote(re) lots. Met veel plezier en enthousiasme heeft ons team deze vele duizenden kavels beschreven, gecatalogiseerd en gefotografeerd. En zoals altijd geldt: dank aan alle inzenders die dit mogelijk hebben gemaakt, zowel in Nederland als internationaal.

Zoals u inmiddels van ons gewend bent, gaan we ook deze veiling weer 6 volle dagen de spreekwoordelijke veilinghamer zwaaien, waarbij we ons best doen om al deze kavels van eigenaar te laten wisselen. We veilen uiteraard weer in ons eigen kantoor aan de Energieweg 7 te IJsselstein, van maandag 13 t/m zaterdag 18 mei. De kijkdagen beginnen maandag 6 mei en lopen dagelijks door t/m zaterdag 11 mei (ook open op Hemelvaartsdag, donderdag 9 mei). Daarbij zijn er twee avondsessies, nl. maandag 6 en woensdag 8 mei tot 21:00 uur. Wij adviseren u zoals altijd om ruimschoots gebruik te maken van deze dagen, bekijk alles uitgebreid om niets te missen.

Uiteraard staan alle lots (impressiefoto's) en losse nummers op onze website www.ha-europe.com. Tevens kunt u alle LOSSE nummers ook TIJDENS de veiling nog bekijken, tot ca. 100 nummers voor afslag. Voor de indeling van de veiling en de kijkdagen kijkt u in het overzicht op de volgende pagina's.

Wat bieden we deze keer zoal aan? Jawel, een Kwartje geslagen in 1891! Van de allerhoogste zeldzaamheid, ontbrekend in (vrijwel) alle grote collecties. Daarnaast veel andere goede stukken Koninkrijk zoals een 2½ Gulden 1840 Piedfort, Gouden Dukaat 1874, een Gouden Tientje 1895 over 1891 in MS62, een 's Rijks Munt-set (met 1 Cent, 5 Cent, 10 Cent en 25 Cent 1948 'Proef') in NGC slabs etc.etc. Verder mooi en gevarieerd VOC/Ned. Indië en Provinciaal met vele gewilde stukken. Bij de bankbiljetten goed vertegenwoordigd: Overzee en wereld, met een groot en gevarieerd aanbod. Bij de antieke munten naast een aantal mooie Aurei een hoofdstukje 'Architecture' en de imposante collectie van Marius Heemstra met als thema de 'Fiscus Iudaicus'. Kortom, voor iedereen wel wat te vinden, goed kijken!

Bij het doorbladeren van deze catalogus zal u de grote diversiteit opvallen van de aangeboden stukken en collecties. Mocht u zelf besluiten om (een deel van) uw collectie van de hand te doen of eens een goed gesprek te willen voeren over de aantrekkelijke condities van Heritage Auctions Europe, neem dan gerust contact met ons op. Uiteraard geldt dat ook voor inzendingen voor de veilingen van Heritage Auctions in de USA of Hong Kong, de grootste numismatische veilingen ter wereld.

Tot slot: zoals altijd kunt u weer op alle kavels live meebieden via internet. Na registratie op www.ha-europe.com kunt u inloggen en meebieden. Ook kunt u hier uw schriftelijke biedingen doorgeven. LET OP: bij het sluiten van de biedingen via onze website is het niet altijd zeker dat u op de veilingdag zelf de hoogste bieder bent, we moeten immers nog binnengekomen biedingen verwerken. De kans bestaat dus dat u alsnog overboden wordt zonder dat u daarvan op de hoogte wordt gesteld, houdt u daar rekening mee. Uw aanwezigheid tijdens de veilingdagen wordt uiteraard zeer gewaardeerd. Mocht u echter verhinderd zijn en kunt u niet via ons live computersysteem meebieden, dan voeren wij uw schriftelijke biedingen, zoals u dat van ons gewend bent, discreet en met zorg uit.

Wellicht tot ziens in IJsselstein en alvast heel veel succes op de veiling!

Dear collector,

Welcome to the May auction of Heritage Auctions Europe! With more than 8,800 lots, this has again become a great auction, which was worked on with great pleasure and expertise. From this place thanks to all contributors who made this possible, in the Netherlands and internationally.

Again we present a 6-day auction, due to the large number of lots, to be "hammered" in our office at the Energieweg 7 in IJsselstein (Netherlands), from Monday, May 13 to Saturday, May 18. The viewing days start on Monday May 6. Of course, all larger lots (impression photos) and single lots are to be found on our website www.ha-europe.com. You can also view all SINGLE lots during the auction, up to approx. 100 numbers before the auction. For details about the auction and the viewing days please have a look at the overview on the following pages.

As always you can participate in bidding for all lots live on the Internet. Your presence during the auction days is of course greatly appreciated. However, if you are unable to attend and cannot bid via our live computer system, we will handle your written bids discreetly and with care, as you have come to expect from us.

Hope to see you in IJsselstein and good luck at the auction!

With kind and numismatic regards,
Jacco Scheper and Huib Pelzer

Terms of Sale (Dutch)

Geldende bij de aankoop in veiling van roerende zaken.

Artikel 1 toepasselijkheid

1.1 Deze algemene voorwaarden zijn van toepassing op alle onderdelen van de relatie tussen de veilinghouder en de koper waaronder die betreffende koop, verkoop, bemiddeling, waardering, beoordeling, taxaties, catalogisering, bewaring en overige diensten. Onder koper wordt mede de aspirant koper verstaan die deelneemt aan de veiling ongeacht of deze in persoon biedt, per telefoon, door achterlating van een schriftelijke of mondelinge biedopdracht, elektronisch of door middel van het internet en ongeacht of een koopovereenkomst tot stand komt.
1.2 Afwijking van deze algemene voorwaarden is alleen mogelijk indien en voor zover uitdrukkelijk schriftelijk door de veilinghouder aanvaard.
1.3 De toepasselijkheid van de algemene voorwaarden wordt aan de veilingbezoekers kenbaar gemaakt door publicatie in de catalogus voorafgaande aan de veiling en/of mededeling voorafgaand aan de veiling en/of vermelding via internet/op de website van de veilinghouder. Een ieder die aan een veiling deelneemt geeft daardoor te kennen de toepasselijkheid van deze voorwaarden volledig te aanvaarden.

Artikel 2 informatie-/onderzoeksplicht

2.1 Omschrijvingen in de catalogus en alle schriftelijke of mondelinge inlichtingen worden door de veilinghouder en zijn personeel naar beste weten verstrekt.
2.2 De koper dient vóór de koop de staat en de beschrijving van een voorwerp in de catalogus of kavellijst ten eigen genoegen nauwkeurig en deskundig te (laten) inspecteren en een eigen oordeel te vormen over de mate waarin het voorwerp overeenkomt met de beschrijving ervan en de koper dient waar redelijkerwijs nodig of gewenst onafhankelijk advies van deskundigen in te roepen, terwijl de koper niet op illustraties in de catalogus dient af te gaan. Indien in de catalogus bepaalde gebreken of onvolkomenheden zijn vermeld, beoogt dat een indicatie te zijn die niet uitputtend is en waaraan de koper geen rechten kan ontlenen.
2.3 De veilinghouder kan niet aansprakelijk gehouden worden voor de onjuistheid van de beschrijving in de catalogus of op andere wijze kenbaar gemaakt, van materialen zoals bijvoorbeeld houtsoorten, stoffen, legeringen, aardewerk, porselein en diamant, een en ander met uitzondering van edele metalen. De veilinghouder aanvaardt alleen aansprakelijkheid voor onjuiste omschrijvingen voor zover voorzien in artikel 6 van deze voorwaarden.

Artikel 3 bieden

3.1 De koper kan in persoon bieden, tevens accepteert de veilinghouder biedingen:
- Schriftelijk
- Telefonisch
- Fax
- E-mail
- Internet, zowel voor de veiling als via de LiveBid. Let op! LiveBid wordt belast met 3% extra commissie, zoals vermeldt in artikel 3.6.

Kavels worden toegewezen aan de hoogst biedende. Bij een gelijk bod van 2 schriftelijke bieders wordt het betreffende kavel toegewezen aan de bieder wiens bieding het eerst ontvangen is.
Internet, zowel voor de veiling als via de LiveBid. Let op! LiveBid wordt belast met 3% extra commissie, aankopen via Drouot, The Saleroom, Lot-tisimo, of Invaluable worden belast met 5% extra commissie, zoals vermeldt in artikel 3.6.
3.2 Schriftelijke biedopdrachten dienen ondubbelzinnig en duidelijk te zijn en naar het oordeel van de veilinghouder tijdig genoeg voor de aanvang van de veilingzitting door de veilinghouder te zijn ontvangen. Indien er meerdere schriftelijke biedopdrachten door de veilinghouder worden ontvangen waarbij de te bieden bedragen gelijk zijn en deze biedingen ter veiling de hoogste biedingen op het voorwerp zijn, wordt het voorwerp verkocht aan de persoon wiens bieding door de veilinghouder het eerst is ontvangen.
3.3 Biedopdrachten hoeven slechts te worden uitgevoerd indien de veilinghouder redelijkerwijs daartoe gelegenheid heeft en de veilinghouder heeft te allen tijde het recht van het voeren van een biedopdracht af te zien.
3.4 Indien koper telefonisch of -indien mogelijk- elektronisch of via internet wil bieden, dient dit uiterlijk 24 uur voor de veiling schriftelijk met de veilinghouder te worden overeengekomen. Afwijking van deze termijn kan alleen met uitdrukkelijke schriftelijke instemming van de veilinghouder.
3.5 De veilinghouder sluit steeds iedere aansprakelijkheid ter zake van het om welke redenen dan ook niet slagen van een telefonische bieding uit, evenals het om welke redenen dan ook niet slagen van een schriftelijke bieding, elektronische bieding of bieding door middel van het internet.
3.6 Alle biedingen zijn onderhevig aan een aankoopcommissie.
- Drieëntwintig procent (23%) commissie en €2 kavelgeld voor ieder gekocht kavel bij alle Postzegel- en Muntveilingen
- Vijfentwintig procent (25%) commissie en €2 kavelgeld voor ieder gekocht kavel bij alle Kunst en Curiosaveilingen

Kavels verkregen via LiveBid worden belast met 3% extra commissie.
Kavels verkregen via Drouot, The Saleroom, Lot-tisimo, of Invaluable worden belast met 5% extra commissie.

Artikel 4 totstandkoming koopovereenkomst

4.1 De koop komt tot stand bij definitieve toewijzing. Van definitieve toewijzing is sprake wanneer de veilinghouder het bod van de koper heeft geaccepteerd dan wel het voorwerp aan de koper heeft toegeslagen.
4.2 Alle voorwerpen worden verkocht in de toestand waarin zij zich op het ogenblik van toewijzing bevinden. Wezenlijke wijzigingen in de toestand die blijken na verschijning van de catalogus en/of het tonen op de kijkdagen en/of op het internet waaronder ernstige beschadiging of breuk, of herroeping van de omschrijving van een voorwerp in de catalogus en/of het internet zullen voorafgaand aan de verkoop worden medegedeeld. Na een dergelijke mededeling (bijvoorbeeld in een "sale room notice") kunnen aan de oude omschrijving geen rechten worden ontleend.

Artikel 5 verplichtingen koper

5.1 De koper dient zich op eerste verzoek van de veilinghouder te legitimeren.
5.2 De koper wordt geacht voor zichzelf te hebben gekocht en is aansprakelijk voor betaling zonder zich op een lastgever te kunnen beroepen.
5.3 De rechten en plichten uit hoofde van de koopovereenkomst en deze algemene voorwaarden komen uitsluitend toe aan de koper en kunnen door deze niet aan derden worden overgedragen.

Artikel 6 terugnameverplichting veilinghouder

6.1 Tenzij uitdrukkelijk voor bepaalde voorwerpen in de catalogus of kavellijst uitgesloten, is - onverminderd de artikelen 2 en 4.2 - de veilinghouder bereid een geveild voorwerp tegen gelijktijdige restitutie van de in rekening gebrachte koopprijs en veilingkosten terug te nemen, indien de koper binnen een periode van zes weken na de verkoop ten genoegen van de veilinghouder bewijst dat het geveilde zulke ernstige verborgen gebreken vertoont of de verstrekte omschrijving zo onjuist is, dat indien deze gebreken of de juiste omschrijving aan de koper op het ogenblik van toewijzing bekend waren geweest, hij van de koop zou hebben afgezien of slechts tegen een aanmerkelijk lagere prijs gekocht zou hebben. Dit geldt niet indien de gebreken alleen de conditie van het voorwerp betreffen (zoals bijvoorbeeld slijtage en restauraties).
6.2 De veilinghouder is niet bereid tot terugname indien de omschrijving in de catalogus voorafgaande aan of tijdens de veiling werd herroepen en de juiste omschrijving mondeling of schriftelijk aan het publiek werd medegedeeld.
6.3 De bereidheid tot terugname vervalt ook als de koper het geveilde niet kan teruggeven in dezelfde staat als waarin het zich bij toewijzing bevond, zulks ter beoordeling van de veilinghouder.

Artikel 7 rechten veilinghouder en veilingmeester

7.1 De veilinghouder en de veilingmeester die leiding geeft aan de veiling behouden zich de volgende rechten voor:
a. zonder opgave van redenen personen als bieder of koper te weigeren;
b. te allen tijde wijziging te brengen in de orde van verkoop;
c. voorwerpen te doen uitvallen of toe te voegen;
d. kopen te combineren of te splitsen;
e. kopen niet te gunnen of op te houden;
f. vergissingen bij biedingen en toewijzing te herstellen, of een koop ongedaan te maken zonder dat een bieder van vergissingen gebruik mag maken en zich in dat geval op een tot stand gekomen koopovereenkomst mag beroepen;
g. na toewijzing onmiddellijk gehele of gedeeltelijke betaling te vorderen, terwijl bij weigering of onmacht van betaling de veilinghouder en de veilingmeester het recht hebben de koopovereenkomst ongedaan te maken en daarna het betreffende voorwerp te herveilen en het bod van de nalatige bieder niet weer aan te nemen;
h. indien de koper weigert op eerste verzoek volledige naam en adres aan de veilinghouder bekend te maken en daarop betrekking hebbende legitimatie te tonen, de koopovereenkomst te ontbinden en te herveilen;
i. voorwerpen niet over te schrijven van de rekening van de oorspronkelijke koper op die van een ander;
j. gedurende de veiling geen voorwerpen af te geven;
k. namens kopers of verkopers biedingen uit te brengen;
l. voorwerpen waarover tijdens of kort na de veiling een geschil gerezen is, opnieuw in veiling te brengen, en een eventuele koopovereenkomst te ontbinden.

Artikel 8 betaling/eigendomsoverdracht

8.1 De betaling door de koper van de koopsom in Euro verhoogd met veilingkosten, andere kosten, waaronder indien van toepassing, het verschuldigd volgrecht, en eventuele BTW, één en ander als door de veilinghouder vast te stellen, moet vóór de aflevering van de gekochte voorwerpen plaatsvinden en binnen de door de veilinghouder te stellen termijn, zonder dat korting of verrekening is toegestaan, een en ander tenzij anders is overeengekomen.
8.2 Een beroep op de zogenaamde margeregeling kan uitsluitend worden gedaan indien vooraf aan de veiling aan alle ter zake geldende voorschriften is voldaan onder andere met betrekking tot de inkoopverklaring. Zulks ter uitsluitende beoordeling van de veilinghouder.
8.3 De eigendom van de voorwerpen gaat niet eerder over dan na volledige betaling van de koopsom en in geval van niet-tijdige betaling niet eerder dan na volledige betaling van de koopsom inclusief de in artikel 9 genoemde kosten.

Artikel 9 niet-tijdige betaling

9.1 Bij niet-tijdige betaling zal de veilinghouder aan de koper rente in rekening mogen brengen gelijk aan de wettelijke rente verhoogd met 3% dan wel – naar keuze van de veilinghouder – 1% per maand, te rekenen vanaf de datum waarop de betalingstermijn is verstreken. Tevens komen alle gerechtelijke en buitengerechtelijke kosten voor rekening van de nalatige koper, welke kosten worden begroot op 15% van de koopsom vermeerderd met de veilingkosten met een minimum van € 250 (zegge: tweehonderdvijftig Euro), onverminderd het recht om de werkelijke kosten te verhalen.
9.2 De veilinghouder heeft tevens het recht om, indien de koper de betalingstermijn overschrijdt en daardoor van rechtswege in verzuim is, de koopovereenkomst schriftelijk te ontbinden. Eventuele gedeeltelijke betalingen vervallen in geval van ontbinding bij wijze van vergoeding van schade aan de veilinghouder die tevens het recht heeft de volledige schade, zoals een mindere opbrengst, en kosten op de koper te verhalen en het geveilde onmiddellijk of later te herveilen of uit de hand te verkopen. De nalatige koper kan geen aanspraak maken op een eventuele meeropbrengst.

Artikel 10 ophaaltermijn

10.1 De koper is verplicht de gekochte voorwerpen tot zich te nemen en af te (laten) halen binnen de door de veilinghouder aan te geven termijn. Behoudens het recht van de veilinghouder een kortere of langere termijn aan te geven geldt als uiterlijke ophaaltermijn, een termijn van vijf werkdagen na de laatste veilingdag.
10.2 Bij nalatigheid van de koper het gekochte af te nemen en op te (laten) halen binnen de gestelde termijn is de koper van rechtswege in verzuim en is het gestelde in artikel 9 van overeenkomstige toepassing. Tevens heeft de veilinghouder het recht het gekochte voor rekening en risico van de koper in opslag te geven, waarbij vervoerskosten en het daaraan verbonden risico eveneens ten laste van de koper komen.

Artikel 11 onverkochte voorwerpen

11.1 Indien een voorwerp ter veiling onverkocht blijft, heeft de veilinghouder gedurende een periode van veertien dagen na de veiling het recht doch nimmer de plicht het onverkochte voorwerp alsnog te verkopen tenzij anders overeengekomen met de inbrenger.
11.2 De veilinghouder zal een dergelijke verkoop na veiling ("aftersale") alleen aangaan indien die verkoop kan geschieden voor een prijs die resulteert in een bedrag dat minimaal gelijk is aan de netto verkoopopbrengst waarop de verkoper recht zou hebben gehad indien het voorwerp voor de voor deze veiling geldende limiet zou zijn verkocht, zulks tenzij een andere regeling met verkoper wordt overeengekomen.
11.3 Een aankoop door een koper in de zin van dit artikel geldt als aankoop ter veiling waarop deze algemene voorwaarden onverkort van toepassing zullen zijn.

Artikel 12 aansprakelijkheid veilinghouder

12.1 De veilinghouder is nimmer aansprakelijk voor schade ontstaan aan schilderijlijsten, overige omlijstingen en al wat daarvan deel uitmaakt zoals glasplaten, passe-partouts etc., behoudens het geval dat de schade is veroorzaakt door opzet of bewuste roekeloosheid van de veilinghouder en/of door hem ingeschakelde hulppersonen of personeelsleden.
12.2 In geen geval is de veilinghouder aansprakelijk voor bedrijfs-, gevolg-, vermogens- en/of indirecte schade.
12.3 De veilinghouder is nimmer aansprakelijk voor enig ongeval of enige vorm van schade iemand overkomen in of nabij de gebouwen of terreinen waar gelegenheid is tot inbreng, opslag of bezichtiging, waar de veiling plaats heeft of waar de verkochte goederen worden afgehaald, behoudens het geval dat de schade is veroorzaakt door opzet of bewuste roekeloosheid van de veilinghouder en/of door hem ingeschakelde hulppersonen of personeelsleden en/of behoudens voor zover door een verzekering van de veilinghouder gedekt.
12.4 Het betreden van de gebouwen of terreinen geschiedt op eigen risico.

Artikel 13 foto's en illustraties

13.1 De veilinghouder is gerechtigd alle ter verkoop aangeboden voorwerpen te fotograferen, te illustreren of anderszins in beeld te brengen en af te (doen) beelden op welke wijze dan ook, zowel voor, tijdens als na de veiling, rekeninghoudende met geldende wettelijke bepalingen. De veilinghouder behoudt het auteursrecht op al deze afbeeldingen.

Artikel 14 diversen

14.1 Nietigheid, vernietiging of onverbindendheid van één der bepalingen van deze algemene voorwaarden laat de geldigheid van de overige bepalingen onverlet. In het geval één of meer bepalingen nietig, vernietigd of onverbindend zijn, worden tussen koper en veilinghouder vervangende bepalingen overeengekomen die wel geldig zijn en die het meest de inhoud en strekking van de nietige, vernietigde of onverbindend gebleken bepaling(en) benaderen.
14.2 Op deze algemene voorwaarden is uitsluitend Nederlands recht van toepassing.
14.3 Alle geschillen ter zake van, voortvloeiende uit of verbandhoudende met een tussen de veilinghouder en de koper gesloten koopovereenkomst, de totstandkoming van een koopovereenkomst of deze algemene voorwaarden worden uitsluitend ter beslechting voorgelegd aan de bevoegde rechter van de woonplaats of plaats van vestiging van de veilinghouder, tenzij uit de wet anders voortvloeit behoudens het recht van de veilinghouder om het geschil aanhangig te maken bij de bevoegde rechter van de woonplaats van de koper.

Extract of the conditions of sale

The auction sale occurs by upward bidding in euro. To the hammer price a buyer's premium will be added of 23% and 2 euro for every bought lot. Purchases via the livebid system have an alternate buyer's premium of 26% and 2 euro for every bought lot.

Lots are assigned to the highest bidder. In case of two even bids the concerning lot will be assigned to the first bidder. Bidders can submit postal bids at www.ha-europe.com.
Please notice: no bids below the starting price will be accepted!

The auction sale takes place with increasing steps as follows: up to 40 euro with 2 or 3 euro, from 40 to 100 euro with 5 euro, from 100 to 300 euro with 10 euro, from 300 to 500 euro with 20 euro, and from 500 to 1000 with 50 euro and above 1000 euro with 100 euro.
The auctioneer has the right to deviate from these amounts. Starting prices in the catalogue described as 'bod' have a minimum of 5 euro. Bids under the starting price are not accepted.

During and after the auction lots bought can be taken along by the purchaser. This is possible after direct payment (cash or bank) or after permission of the auctioneer to wire the amount within an agreed period. Payment with creditcard is also possible, the auctioneer will charge 5% extra to the invoice due to bankcosts. Cheques are not accepted. Every bidder is considered to buy for him- or herself and can never be entitled 'in-betweens' without responsibility.

Purchases will not be shipped before the invoice is paid in full. Heritage Auctions Europe (HAE) takes no responsibilities for bank or wire transfer surcharges (which some banks charge).

A minimum of 30 euro will be charged for shipping costs. Heritage Auctions Europe is free to raise these costs if the actual shipping costs are higher than invoiced. We attempt to ship as quickly as possible, but operate a queue system with purchases shipped in order of payment. Buyers will receive a tracking number once the package is ready to be shipped out.
We reserve the right to decline to ship lots deemed too fragile, heavy or large for postal services. Every effort is made to pack securely but we are not a professional shipping company. Our services are used at the buyers risk and we cannot be held responsible for damage in transit.

Ownership of the lots remains with the seller until payment has been done in full. Buyer's risk is valid from the moment of knock-down.

All lots are sold as viewed. Authenticity of every single lot (or lots with no more than 2 pieces) is guaranteed.

All disputes during or after the auction are decided by a present supervisor. All parties are subject to his/her pronouncement. Any disputes followed by legal actions will be handled according to the conditions as deposited at the Court of Law in Utrecht under no. 383/1999 (15/11/1999). Only the Dutch text of conditions of sale is in force.

According to Dutch taxlaw your VAT-number will NOT exclude VAT. All prices are reserve prices.

CONDITIONS

Onthul de ware schoonheid *van uw munten*

Verzamelmunten kunnen beschadigd raken en het uiterlijk kan veranderen als ze niet goed worden bewaard en verpakt. Ook kunnen ze beschadigd raken door het milieu en de omgeving, verkeerd gebruik en veranderingen in de natuur. Vervuiling op oppervlakken zoals PVC en andere resten, vuil, aanslag, vlekken en afzetting kunnen het uiterlijk minder mooi maken en kunnen munten zelfs permanent beschadigen.

NCS heeft een professionele aanpak van numismatische conservatie ontwikkeld en kan deze schadelijke deeltjes verwijderen, waardoor het uiterlijk van een munt aanzienlijk kan worden verbeterd.

NCS, dat door het Smithsonian Instituut wordt gezien als een autoriteit op het gebied van conservering, heeft de expertise en ervaring om het oorspronkelijke uiterlijk van uw munt terug te brengen en de ware schoonheid ervan te onthullen.

Wat kan professionele conservatie door NCS doen voor mijn munten?

Alle soorten munten zijn onderhevig aan oppervlakkige vervuiling en negatieve reacties op de omgeving. In veel gevallen worden munten bewaard of verkocht in zachte plastic mapjes of muntverpakkingen die polyvinylchloride (PVC) bevatten, chemicaliën die langzaam inwerken op de oppervlakte van een munt. PVC en andere resten leiden uiteindelijk tot permanente schade.

Door bepaalde problemen komen munten niet langer in aanmerking voor beoordeling door Numismatic Guaranty Corporation (NGC), een onafhankelijk partner van NCS, als ze niet eerst professioneel worden geconserveerd. Na conservatie door NCS kunnen munten aan NGC worden overgedragen voor certificering. Hierna worden ze, afhankelijk van de staat van het oppervlak, numeriek op kwaliteit ingedeeld of door NGC Details op kwaliteit ingedeeld.

Hieronder volgen enkele voorbeelden van professionele conservatie door NCS.

Het ontstaan
Op 23 november 1890 overleed Koning Willem III op Paleis het Loo te Apeldoorn. Het koningschap ging over op de tienjarige Wilhelmina, waarvoor haar moeder Emma op 8 december 1890 tot regentes werd benoemd. Reeds op 29 november ontving het Muntcollege opdracht van de Minister van Financiën om een voorstel te doen voor een nieuwe beeldenaar en tevens een inschatting te maken van de tijdsduur waarmee de eerste muntslag aan kon vangen. Het Muntcollege ging voortvarend te werk: in mei 1891 ontving zij een gipsmodel vervaardigd door de beeldhouwer en medaileur Ludwig Jünger (1856-1906). Jüngers ontwerp beeldt de jeugdige Koningin af met een parelketting als teken van Koninklijke waardigheid, hij ontving voor zijn werk een bedrag van 300 Gulden. Willem Jacobus Schammer (1849-1893) werd in zijn functie als Hulpstempelsnijder bij ’s Rijks Munt opgedragen tot het snijden van de stempels naar dit gipsportret. Schammer sneed allereerst de stempels voor het Gouden Tientje, daarna voor de zilveren pasmunt. Zoals gebruikelijk werden van deze stempels afslagen vervaardigd. In het 41e Verslag van het Muntcollege over 1891 lezen wij hierover het volgende: ‘...afslagen dier stempels werden in het najaar door den Minister van Financiën aan Hare Majesteit de Koningin-Regentes aangeboden, die nog voor het einde van het jaar Hare Hooge goedkeuring aan den nieuwen beeldenaar verleende.’

358 *300000*

De opdracht tot het vervaardigen van een nieuw stempel voor het Guldenstuk werd op 17 december 1891 gegeven, de stempels zouden pas eind maart 1892 gereed komen. Hierin ligt de reden dat er geen Guldens met het jaartal 1891 zijn aangemunt.

Zeldzaamheid
Het kwartje 1891 wordt met recht beschouwd als hét topstuk binnen de ‘Koninkrijksmunten’. Uit een oplage van twee exemplaren is het hier door ons aangeboden stuk het enige beschikbare op de vrije markt. Het andere exemplaar bevindt zich in de Nationale Numismatische Collectie (inventarisnummer HNM-05789) in De Nederlandsche Bank.

Andere grote rariteiten binnen de Koninkrijksmunten zijn qua zeldzaamheid niet te vergelijken met dit kwartje. Van zowel de Cent 1817 (Koning Willem I), de Gulden 1840 (Koning Willem II) alsmede de Gulden 1867 (Koning Willem III) wordt in de hedendaagse literatuur vermeld dat zij zijn geslagen in een oplage van enkele (proef)stukken. Ondanks hun relatieve zeldzaamheid worden deze met enige regelmaat op de markt aangetroffen, het kwartje 1891 kende daarentegen in de afgelopen eeuw slechts vier eigenaren. Verzamelaars stellen vaak vast dat hun collectie ‘Wilhelmina’ compleet is wanneer zij het zeldzame Gouden Tientje 1892, de 2 ½ Cent 1942 en het Dubbeltje 1944 Denver hebben weten te bemachtigen, het is echter dit Kwartje 1891 dat als enige munt hun collectie daadwerkelijk kan bekronen.

Het kwartje 1891 ontbrak in vrijwel alle belangrijke verzamelingen op het gebied van de Koninkrijksmunten. Zo konden verzamelaars als Joop Berkman en Lodewijk S. Beuth hun hand er niet op leggen. Ook Koning Faroek van Egypte, de grootste verzamelaar ooit van munten wereldwijd, heeft deze ‘Koningin onder de munten’ niet weten te bemachtigen.

Wanneer u zich de nieuwe eigenaar van deze legendarische munt mag noemen treedt u niet alleen in de voetsporen van de allerbelangwekkendste collectioneurs van de afgelopen eeuw, te weten: Dhr. W. Coenen, Virgil M. Brand en Philip Ferrari de La Renotière, maar ook in die van de oorspronkelijke Muntmeester H.L.A. van den Wall Bake, onder wiens autoriteit deze munt is geslagen.

Men kan dan ook enkel concluderen dat zich hier een werkelijk unieke kans voordoet om uw Wilhelmina-collectie daadwerkelijk te complementeren. Wij verwachten veel interesse in dit stuk en wensen alle gegadigden een goede veiling en veel succes toe.

Historical background

On November 23, 1890, King William III died at Paleis het Loo in Apeldoorn. The kingship passed to the only ten-year-old Princess Wilhelmina, for whom her mother Emma was appointed Regent on December 8, 1890. On November 29, the 'Muntcollege' (Board of the Mint) received an order from the Minister of Finance to make a design proposal for the coinage and, at the same time, estimate the timeframe in which the minting process could start. The Muntcollege decided quickly: in May 1891 it received a plaster model made by the sculptor and medallist Ludwig Jünger (1856-1906). Jünger's design depicts the youthful Queen with a pearl necklace as a sign of royal dignity; he received a sum of 300 Guilders for his work. Willem Jacobus Schammer (1849-1893), in his position as Assistant Engraver, at 's Rijks Munt, was commissioned to cut the dies after this plaster portrait. Schammer started his work with the dies for the Gold Ten Gulden coin, then worked on the dies for the smaller denominations. As usual, only a few proof pieces were struck from these dies. In the 41st Report of the Mint Board for 1891 we read the following: '...proofs were presented in the autumn by the Minister of Finance to Her Majesty the Queen Regent, who granted Her High Approval of the new design before the end of the year'.

The order for the manufacture of a new dies for the Gulden was given on December 17, 1891; they would not be completed until the end of March 1892. Herein lies the reason that no Guldens depicting the date 1891 were minted.

Rarity

The 1891 quarter is rightly considered the 'masterpiece' within the Dutch Kingdom numismatics. From a mintage of only two pieces, the specimen we offer today is the only one available on the private market. The other coin is incorporated into the National Numismatic Collection (inventory number HNM-05789) at De Nederlandsche Bank.

Other major rarities within the Kingdom coins are not comparable to this quarter in terms of rarity. Of the Cent 1817 (King William I), the Gulden 1840 (King William II) and the Gulden 1867 (King William III), contemporary literature mentions that the mintage is estimated at a few (proof) pieces. Despite their relative rarity, they are found on the market with some regularity; by contrast, this 1891 quarter had only four owners in the past century. Collectors often conclude that their Queen Wilhelmina collection is considered complete when they have managed to acquire the rare 10 Gulden 1892, the 1942 2 ½ Cent and the 1944 Denver Dime, however, it is this 1891 Quarter that is the only coin that can truly crown their collection.

The 1891 quarter was missing from almost all major collections consisting of the Dutch Kingdom coins, collectors such as Joop Berkman and Lodewijk S. Beuth could not obtain it. Even King Farouk of Egypt was unable to possess this 'Queen' amongst Dutch coins.

When you may call yourself the new owner of this legendary coin, you will not only follow in the footsteps of the most important collectors of the past century, namely: Mr. W. Coenen, Virgil M. Brand and Philip Ferrari de La Renotière, but also in those of the original Mint Master, H.L.A. van den Wall Bake, under whose authority this coin was struck.

Therefore, we can only conclude that a truly unique opportunity arises as to complete your Wilhelmina collection. We expect enormous interest in this piece and we wish all interested parties a successful auction!

	Batavia	
📷 *638*	Batavia, Pitje (0.94 g,), 1744, Obv.: VOC-monogram / AO 1744 / Rev.: Blank. Slightly excentrically holed. These coins were produced in Batavia, made of lead and tin in approximately equal quantity. They were put into circulation on 14 February 1744, to the value of ¼ doit or 1/16 stiver and declared current in Batavia and on Java. The production was farmed out by auction to the Shahbandars. The Shahbandar (Persian, lit. "harbourmaster") was in charge of the traders and the collection of taxes. Provenance: recovered from recent dredging of canals in Jakarta -XF for issue and the best available state of preservation - very rare. 📷 *642*	Copper tang or Larijn (Passon 4.1; Scho. 20b) (6.36 g.), ND (1660), length 31.0 mm, width 9.0 mm., at either end stamped with a sword with laurel wreath (Coat of Arms of Batavia) and folded once over. Owing to the shortage of coins of small denomination, which had led to great disturbances and troubles, and in order to accommodate the indigenous population, the Batavian Government by a Res. of Nov. 9, 1658, decided to prepare at Batavia copper "Tangen" of the same shape as those on the coast of India, Ceylon, Coromandel, Bengal and Aracan, having at either end a small mark to prevent them from being shortened, and to declare them current at the rate of an "Oortje" (2 Doits). In due course the mintmaster for the production of these emergency pieces, found the copper at hand so hard that it was impracticable for the purpose and it was therefore decided that further issues should be made from tin. 722	VOC-period tin medal or token (31.41 g.). (ZENO 329952) Within inner circle: Palm tree in centre and a prominent O to left. Around: IAVANEN - 1730 / rev.: blank. Purpose of this token is still unknown. Suggestions have been made to be a token for sugar plantation workers. “O” possibly “Oost”. The medal or token has been retrieved during dredging works of the canals in the old city of former Batavia, presently Jakarta. So far unreported and therefore an extremely rare object. gVF	*150*
723	Pitje 1744 struck at Batavia, (Scho. - / N.-VdCh. - / Millies -; Passon 18.1) – 1.15 g. – VZ VOC-monogram / AO 1744 / KZ blank – ZF / RRRR / Extremely Rare - These coins were struck at VOC workshop in Batavia from a lead-tin alloy of about equal parts, and declared current in Batavia and Java by the resolution of 14 february 1744. Untill the publication of the catalgue by Passon this issue remained missing in the standard reference works on the VOC-coinage. Due to recent dredging works of the canals in the centre of city of Jakarta (former Batavia) a few more specimen surfaced, nevertheless well preserved specimen still remain extremely rare. gVF for issue. 724	AV Ducat, Westfrisia, 1754 with c/m ‘Java’ (Passon 19.3 R4 / Scho. 438h; Fr. 7) - 3.40 gram - In 1753 it was resolved that 11,450 milled Ducats, struck at the various provincial mints in the Netherlands, which had just arrived at Batavia for local use be counterstamped with the word ‘Djawa’ in Arabic characters, to the left of the night. The rating was Fl.6:12:-., while the Ducats not thus stamped circulated at Fl.6:-:- to prevent export and import by private individuals. From the Placard of 8 January 1760 it appears that Ducats with a false countermark had also been brought in circulation. By order of the home authorities of the Company the stamping of the Ducats was stopped in 1761 - VF - despite being slightly buckled and pierced, still extremely rare with an original countermark.	*750*

C/m and host coin gF-VF, RRRR - of great rarity. Rf.: KM.—. Scho. 454; Fonrobert 366; Bucknill 48-56. Note: A Resolution or Placard by which this type of countermarked coin was put into circulation is not known, but in a Resolution of Oct. 2, 1758, it is declared that the stamp for the Persian Rupees was no longer in use. We know of a decision of 1760 to withdraw all countermarked Batavian, Surat and Persian Rupees for 30 Stivers a piece and reissue them at a rate of 27 Stivers. 1007	Kingdom of Srivijaya, c. 680-1250, debased AR coins (5) and similar copper issues (5). Such coinage was used in the Malay archipelago between the ninth to thirteenth centuries. Presumably first developed in Java during the Śailendra period before spreading to various locations such as Sumatra and Malay Peninsula. Commonly referred in literature as “sandalwood flower coins” based its reverse design, or “mā coins” based on its observe design. Often inaccurately referred as Majapahit coin, even though common use of this coin predates the founding of Majapahit empire in AD 1293. 1044	AV pagoda (3.39 g.) (Scho. 1259; Passon 48.1) Obv. Rather crude standing Vishnu / rev.: convex and granulated surface. llikely struck at Tuticorin or Colombo during 1760-1794. From about 1760 Porto Novo Pagodas of the new Negapatnam die (1747 issue) were struck at Tuticorin. (weight 3.406 g., fineness 0,800). These issues probably can't be distinguished from the Negapatnam issues. The fineness, as in Negapatnam, was decreased in 1767 to 0,769. During the period of the Anglo-Dutch war, the mint for precious metals was shifted from Tuticorin to Colombo (1780-1786). During this period Porto Novo Pagodas, with a fineness of 0,625, were struck at Colombo. After the mint at Tuticorin was re-established again (August 1786), the minting of Pagodas seems to have continued till the closure of the mint in 1794. The low gold content indicates that this coin may have been struck at Colombo or during the period 1786-1794 at Tuticorin. Other than by the gold contents, there is no way to distinguish between the issues of either Negapatnam, Tuticorin or Colombo. aXF	150

1052	AE 4 ¾ Stiver or ½ larin (62,21 g; 75.7 x 27.25 x 8.0stiver mm). Colombo, ND (1785). (Scho. 1295a; Passon 53.10) It was decided by a Res. of Colombo dated 1785 Oct. 20, to strike half copper larins in the shape of small bars with two round countermarks on either end and declare them current at the rate of 4 ¾ Indian stivers or half larin, because the rate of the silver larin in 1785 was 9½ stivers. This is the reason for this rather odd denomination and for this reason also one of the most commonly imitated VOC-coin of Ceylon. Genuine examples therefore are rarely offered for sale. The collection of Marius Heemstra

The next session presents the collection of Roman and provincial silver and bronze coins that Marius Heemstra built up during the writing of his dissertation on the Fiscus Iudaicus. The emphasis is on coins from Domitian and Nerva, but other emperors are also represented. Provincial coins that were used in, e.g., Egypt to pay for the Jewish tax, are part of this collection. This tax was introduced by the emperor Vespasian after the Jewish Temple in Jerusalem had been destroyed. Heemstra's study centers around the measures that Nerva took concerning the problems caused by the rigorous levying of the Jewish tax by the emperor Domitian. One of the first coins that Nerva issued in 96 CE was his famous sestertius claiming that he solved these problems: Fisci Iudaici Calumnia Sublata. Two of these coins, a beautiful specimen from 96CE and another one from 97CE, are on offer here. At buyer's request, some coins can come with previous purchase invoices.

After triumphing in Judaea, Vespasian imposed a particular levy known as the Fiscus Iudaicus. Originally, this tax, equivalent to a half shekel (or two drachms), was obligatory for all Jewish men annually contributing to the Temple in Jerusalem. However, it was broadened to encompass all Jews across the Empire, regardless of age. The funds collected were redirected to the Temple of Jupiter Capitolinus in Rome, adding insult to injury by not only requiring payment to Rome for the privilege of worship but also diverting former Temple funds to pagan purposes. Despite its contentious nature, this tax became a vital revenue stream for the Flavians. Domitian's strict enforcement led to many Jews hiding their identity to evade payment, prompting the emperor to vigorously pursue potential evaders publicly. Suetonius recounts an incident where an elderly man was subjected to a humiliating examination to ascertain his Jewish identity. Nerva later mitigated the tax's hardships by addressing its abuses and easing collection requirements, as reported by Dio Cassius, for those who maintained their traditional customs.	4000

4004	With Cleopatra - AR Denarius (moving military mint, 32 BC, 3.29g) - CLEOPATRAE REGINAE REGVM FILIORVM REGVM Draped and diademed bust of Cleopatra right / ANTONI ARMENIA DEVICTA Head of Marcus Antonius right, Armenian tiara behind (Crawford 543/1 / Sydenham 1210) - a very rare specimen, several banker's marks, F/VF. Found in Odijk, The Netherlands, januari 2022 (PAN registered) As the struggle between Marcus Antonius and Octavianus dragged on in the 30s BC, the geographical and political lines became ever more defined. Antonius had become entrenched in the Eastern Mediterranean, and in doing so had allied himself with Cleopatra VII, queen of Egypt, whose original supporter in Rome, Julius Caesar, had been murdered years before. She had his son, Caesarion, at her side, but she needed an ally like Antonius if she hoped to preserve Egypt from the ever-widening grasp of Rome. Importantly, Antonius was easier to manipulate than Octavianus, who had no sympathy for Cleopatra's motives. Although this woman of blinding intellect may have found her marriage to Antonius a degrading experience, personally, she was crafty enough to realise it was her only chance at survival. Hence, she was probably eager to issue dual-portrait coins, such as the denarius offered here. Little more indication is necessary to recognise that Cleopatra had effectively dominated her husband, the Roman warlord Antonius.	*1000*

6999	Replica of a 14th cent. AR 50 Liang (Tael) tax Sycee of the Xingguo circuit (administrative division) of the Yuan Dynasty - weight 1834 g., size approx. 145 x 90 x 35 mm. - Inscriptions: (vertically right to left) •5th year of the "zhi-yuan"-period (=1339). Silversmiths (or assayers) Chen De and Peng Xiang • Mineral tax with weight 50 liang of white sterling silver, produced in Xingguo Circuit •Controller's Office, Chief Manager Shen Yazhong •Darugachi Jia Yi ("darugachi" – representative of the Mongol authorities, appointed to control the activities of non-Mongol officials) The Xingguo Circuit ("Xingguo Lu") was established in 1277 AD, during the first "zhi-yuan"-period. A sycee dated 5th year of the "zhi-yuan"-period should have been cast in the second period, i.e. in 1339 AD. Not many original cast tax ingots have survived. Of the Xingguo circuit mineral tax sycee only a handful and with the year name is even more rare (In 2011 such an original specimen was sold for approx. 47,800 US$). Although this item being a replica, it provides an insight into the Yuan Dynasty financial and taxation history and is still a physical historical and cultural relic for those who can't afford an original	*1000*

7538	India, Punjab, AV Budkee (2.75 g.), imitation of Dutch ducat, legend ending with TOA ‘1777’, possibly fancy date and struck later. Presumably ex mount, which has been cut off, otherwise VF+ Historical note: For the earlier part of the 18th century ducats exported by Russia to Central Asia, must have been original Dutch ducats, however from 1768 the Russians started to strike huge quantities of extremely precise imitations themselves at their mint at St. Petersburg. Despite a formal diplomatic protest to the Russian court in 1849, asking them to stop minting the imitations, the counter-feitng by the Russians still continued untill the 1870’s, after which date the supply soon dried-up. The Russian imitations, however, remained still much in demand in the trade with Central Asia and Northern India, so that they got soon imitated. Particular the heroic image of the knight in armour on ducat, with sword and bundle of arrows, appealed particular to the martial Sikh population of the Punjab and therefore were imitated in continuity. Those imitations were particularly used in the Punjab for trade, jewelry and payment to soldiers. 8200	AR ingot (92.02 g., size 68x18x12-7 mm.), countermark of a stylized toughra, which has been attributed to Osman II bin Ahmed (AH1027-1031), fineness aprox. 0,750, which coincides with the contemporary Dutch provincial lion daalder (leeuwendaalder, 27.68 g., fineness 0,750) which was a major trade coin during the 17th cent in the Levant. The lion daalder also circulated in Russia where it was known as 'levok'. The provenance of this ingot also points into that direction, as it was first reported from the Ukraine and it may therefore been made for the Ottoman trade with Russia. No other Ottoman ingots have, as far as we know, survived. Garo Kürkman: Ottoman Silver marks (1996) mentions on pag. 69 of his book "Since ancient times precious metals have been used both as currency and to make jewellery and valuable objects. Marks authenticating the fineness of ingots in the form of bars or rods have been used in various countries. However, I have been able to discover no Ottoman Turkish examples, and it seems that all of them must have been coined." With his note he illustrates two ingots (fig. #143 Stamped ingots found in a Mongolian tomb. Weights 94.27 g. & 91.55 g.), from an article by Alfred Von Sallet: 'Zeitschrift für Numismatik', Berlin 1887, p.26-27. The Ottoman ingot concerned is about of the same weight as those mentioned above, which Von Sallet describes as: "Diese Stücke gehören in die Reihe der in grösserer Anzahl erhaltenen mittelalterlichen russischen Werthstücke, nach ihrem Gewicht: Grivna, Rubel oder Poltina, halber Rubel genannt." Of the highest rarity, so far unreported and possibly unique Ottoman AR ingot (ZENO 230191)	*2000*

8247	20 Dollars 1885, Philadelphia mint - Liberty head (KM74.3, Fr.177) - Obv: Liberty Head / Rev: Eagle and shield - Gold, very low mintage of only 751 pcs. - NGC AU55 (6643000-001) Always near the top of the wantlist for collectors of rare date gold as well as date-and-mint double eagle specialists, the 1885 twenty trails only the 1882 issue and the 1861 Paquet as the lowest-mintage double eagles meant for circulation. (Some people argue the Paquet should not be considered, but despite most of the pieces being withdrawn and melted, it was certainly a circulation strike.) In any case, the minuscule 751 pieces minted has forever labeled the 1885 twenty as an absolutely rare coin. Probably no more than 100 examples remain from the original mintage in all conditions. Most are heavily bagmarked even when in Mint State. Most, too, are prooflike since they are, by definition, all “early strikes.” The present example qualifies on both counts, with prooflike surfaces providing flash and eye appeal, although light abrasions are scattered across the surfaces. The strike is bold and full, The fields show light chatter but virtually no heavy marks. Sharp luster remains across the surfaces. The orange-gold patina suggests this coin is in its natural state as minted, confirmed by the plentiful mint bloom that shines through on obverse and reverse. As always, this rare issue will inspire spirited bidding among gold specialists and double eagle aficionados	*30000*
