

2900 Programming System

- Supports Intel FPGAs, PLDs, PROMs, EPROMs, E/EPROMs, and Microcontrollers
- MatchBooks For Quick, Easy Handling of Delicate Packages
- 44 Universal Pin Drivers
- Easy Library Updates Via Diskette
- Parallel Test-Vector Application
- Computer Remote Control (CRC) Protocol For Custom Programmer Control
- CE Certified; The Only ISO-9001 Registered Programmer Vendor Available

Data I/O's 2900 Programming System provides advanced, universal device programming support. To ensure ultimate flexibility and convenience, the 2900 features universal pin-driver technology that automatically reconfigures the programming site for the device being programmed. Tasklink software is included as a standard accessory to provide convenient, PC-based programmer control. Data I/O's standard computer remote control (CRC) protocol is included so you can write your own custom driver program to control the programmer.

MICROCONTROLLERS SUPPORTED:

87C5x, 87C51Fx, 87C51Rx, 87L5x, 87L51Fx, 87251Sx, 87C196Kx; please call for more information as devices are continuously added
