

WELCOME

When you purchase one of our airguns, think of it as a flexible platform designed to meet a variety of shooting needs instead of just a single airgun. With adjustable powerlevels, multiple barrel lengths and calibers, different valve configurations and adjustable butt plate system, shooters can quietly hunt small game, enjoy target practice in the backyard and even shoot indoors.

This year we add more capability to the Texan. With the addition of .357 and .308 calibers we add more flexibility to what has become the world's most powerful production air rifle. The .357 Texan will provide a long reaching and flat shooting rifle with the energy needed for predators or larger varmints. The .308 Texan will provide a long reaching decisive solution for smaller varmints.

The list of states allowing the use of large caliber airguns for taking predators and large game continues to grow. You can count on AirForce to provide hunters an effective means to take advantage of these rule changes. Feral hogs and other predators are encroaching closer to urban centers. Big bore airguns offer an alternative to firearms that are often too powerful to use in these areas.

AirForce Airguns is there to offer hunters and wildlife control personnel a reliable and effective alternative to control these wildlife nuisance and depredation problems.

BIG BORE

TEXAN[®]

World's Most Powerful Production Air Rifle

*Easy to operate
side lever action.*

*We also offer shooting kits to meet your specific shooting application.
Texan is available in Original Black.*

With the ability to launch .45 caliber projectiles at over 1000 feet per second and generating energy levels of over 500 foot pounds, the Texan takes its place as the World's most powerful production air rifle. Easy to load and simple to use, this Big Bore air rifle will let you focus on hunting with the knowledge you have enough power to get the job done. The addition of .357 and .308 calibers provides greater flexibility for predators, varmints, and other small to medium size game.

Energy..... Up to 500 foot pounds*

**Depending on caliber, pellet weight and power setting*

SURVIVAL
ESCAPE®

The Ultimate in Survival Air Rifles by Ton Jones

The Escape achieves the same high velocities as the Condor. It is geared for survival situations where it emphasizes lighter weight and a more compact package. The smaller air cylinder is lighter and easier to fill with a hand pump.

Escape is available in Original Black.
 We also offer shooting kits to meet your specific shooting application.

UTILITY
CONDOR™

The Preferred Choice For Long Range, Accurate
Small Game Hunting Or Pest Control

The Condor easily achieves 1250 feet per second in .22 caliber with lead pellets. The rifle is designed for small game hunting and is used by various military and law enforcement for pest control or special tactical applications.

Condor is available in blue, red, or Original Black.
We also offer shooting kits to meet your specific shooting application.

UTILITY
CONDORSS

The Seriously Quiet Choice for Small Game,
Pests and Long Distance Shooting

We also offer shooting kits to meet your specific shooting application.
CondorSS is available in blue, red, or Original Black.

The CondorSS combines the major attributes of the TalonSS' quiet operation and the Condor's high power levels. The Sound-Loc® technology and 18 inch barrel work in conjunction to offer most of the standard Condor's hunting and pest control capabilities at a dramatically reduced noise level.

EDGE

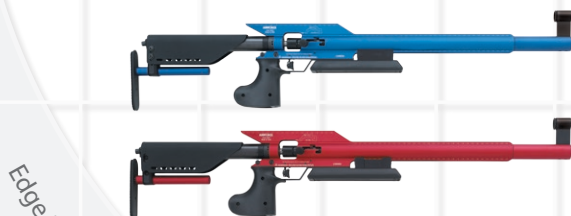

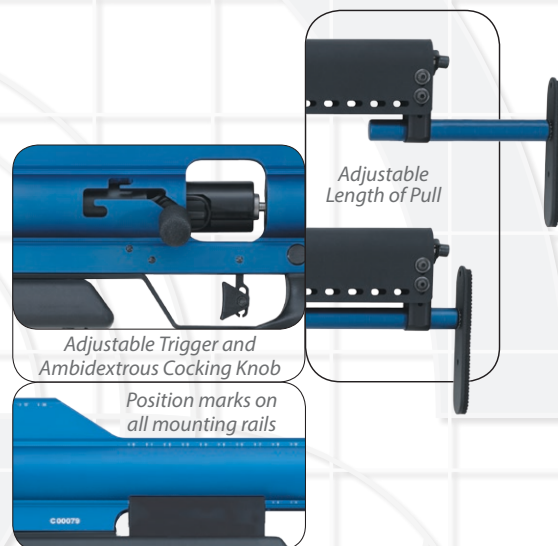

Impacting the World of Sporter Class Competition

Impacting the World of Sporter Class competition, the Edge has the look and feel of much more expensive precision class airguns but is approved for the Sporter Class and available at a Sporter price.

Edge's unique features include an ambidextrous cocking knob, regulated air system, adjustable length of pull, position marks on all mounting rails, cheek piece, and forearm with built in accessory rail.

The Edge is the only regulated 3P Air Rifle Council approved Sporter Class Pre-Charged Pneumatic air rifle produced in the USA.

Edge is available in red or blue.

Edge Flexi-Weights

Edge Flexi-Weights are designed for maximum flexibility. Weights can be mounted anywhere on the frame or muzzle extension allowing dramatic adjustability of overall weight and balance point while still falling within Sporter Class weight limits.

- Single Weight with O-ring U1066
- Five Pack with O-rings U1067

ACCESSORIES

AIR TANKS

A Wide Variety of Air Tanks for the Full Range of Your Shooting Needs

- 1 **Edge Spare Tank Only U1070**
Edge spare tanks provide complete back up for the big match or extended shooting session.
- 2 **TalonP and Escape® Spin-Loc® Spare Tank U2083**
Equipped with pressure gauge and quick fill connection. Spin-Loc® System required.
- 3 **TalonP and Escape® Quick Detach Spare Tank U1082**
Use Quick Detach when a more compact package is needed.
- 4 **Spin-Loc® Spare Tanks**
Standard Tank U2084
Hi-Flo Tank U2085
Micro-Meter Tank U2086
Equipped with pressure gauge and quick fill connection. Spin-Loc® System required. High flo tank is standard with Condor rifle. May be used with Talon Series rifles with the addition of a striker weight. Micro-meter tanks allow the rifles to shoot at moderate velocities with very low air usage.
- 5 **Quick Detach Spare Tanks**
Standard Tank U1005
Hi-Flo Tank U1037
Micro-Meter Tank U1047
Use quick detach tanks when a more compact portable package is needed.
- 6 **Spin-Loc® Texan® Spare Tank U2089**
Equipped with pressure gauge and quick fill connection. Fits Texan™ only.

Want to extend target sessions? Get a Micro-Meter Tank for your AirForce Utility Rifle.

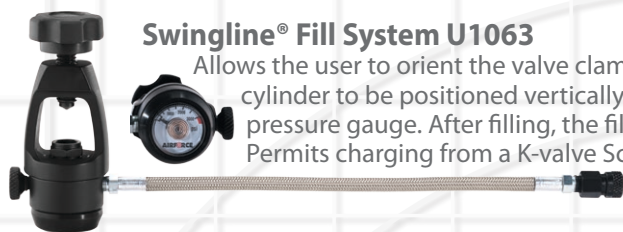

Edge Tank w/ Butt Stock Assembly U1069
Edge spare tank with butt stock and cheekpiece installed.

Protective Steel Valve Cap U1046
Protect the valve on your tank from dirt or damage when not attached to the air rifle. Utility Rifles Only.

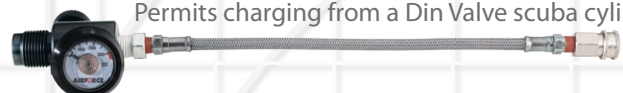

CHARGING

A Wide Selection of Charging Options

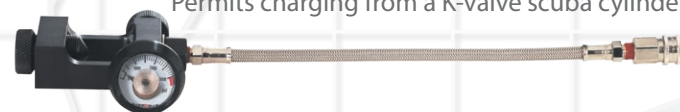

Swingline® Fill System U1063

Allows the user to orient the valve clamp, pressure gauge and fill line independently. It allows the scuba cylinder to be positioned vertically or horizontally and still enables easy access to the fill line or to view the pressure gauge. After filling, the fill line can be rotated close to the scuba cylinder for storage or transport. Permits charging from a K-valve Scuba cylinder. For use with Spin-Loc® air tanks.

Din Fill System with quick disconnect U1062

Permits charging from a Din Valve scuba cylinder. For use with Spin-Loc® air tanks.

K-Valve Fill System with quick disconnect U1061

Permits charging from a K-valve scuba cylinder. For use with Spin-Loc® air tanks.

K-Valve Fill System U1012

Permits charging from a K-valve Scuba cylinder. For use with quick- detach air tanks.

1/4 BSPP U1068 (fits existing U1012)

CO2 Adaptor U1050

CO2 adaptor adds the ability to use standard CO2 paintball tanks in place of the full power 3000 psi air tanks. Ideal for backyard plinking or indoor target shooting.

Din Fill System U1060

Permits charging from a Din Valve scuba cylinder. For use with quick- detach air tanks.

Hand Pump U1014

The High Pressure Hand Pump is an alternative to filling from a scuba tank. Hose with quick disconnect included.

Not sure which adaptors you need? Please visit our online FAQ at www.airforceairguns.com

Refill Adaptor Set U1010

1/8 inch BSPP male thread connection.

Refill Adaptor U1009

1/4 inch BSPP male thread connection.

Refill Adaptor U1013

Male fitting used with paintball quick disconnect.

ACCESSORIES

SIGHTING

Sighting and Mounting Accessories for Your AirForce Airgun

TS1 Adaptive Airgun Sight U1057

TS1 is a universal diopter target sight designed for the EDGE 10 meter 3-Position sporter class target rifle. The sight is adaptable to most airguns with its standard 11mm dovetail-mounting base.

Sighting adjustment is performed with large 1/8 minute click adjustment knobs that may be reset to zero.

Sight can be removed from mounting base and clamped into any 1" scope ring. The sight aperture uses the standard European metric thread so adjustable apertures may also be used.

Universal Front Sight U1058

Front Sight with a huge range of vertical adjustment. Mounts to most airgun dovetail grooves. Features a floating aiming point preferred by Olympic shooters.

Target Sight Set U1056

Includes U1057 and U1058

4-16x50 Scope U1035 • 3-9x50 Scope U1036

Features include fully multi coated optics for maximum light transmission, locking target knobs with crisp quarter-minute clicks, objective lens adjusts down to 10 yards, red, green, and blue lit mil-dot reticle, and heavy construction for use on PCP and Spring guns.

4x32 Scope U1098

Comes with fully multi coated optics for maximum light transmission, covered knobs with crisp quarter-minute clicks, duplex reticle, and heavy construction for use on PCP and Spring guns.

Dovetail to Picatinny/Weaver Adaptor U1075

Dovetail mount accepts Picatinny/Weaver style rings and accessories. Use alone or in sets depending on mounting requirements.

Tri-Rail Scope Base U1039

The Tri-Rail mount offers dovetail-mounting surfaces on three sides and raises the sight line so standard scope rings may be used.

Fiber Optic Open Sight U1011

Fiber Optic Open Sight allow the shooter to quickly switch from open sights to other sighting systems including optical, red dot, laser, or night vision.

High 1" Rings U1038

Rings with an advanced dual position clamping system, threaded recoil stop, and 4 screw wraparound ring caps are for use with AirForce and most other PCP and Spring air guns.

Medium 1" Rings U1018

All of our Air Rifles are offered as Shooting Kits with Optics and Mounting.

SHOOTING

The Essentials for The Optimal Airgunning Experience

Bipod U1006

The new tilt bipod features a new friction lock lever and the ability to mount to the top or bottom of the rifle.

Pistol Shoulder Stock U1081

Easily attaches to TalonP and Escape tanks.

Adds 1/4" to 4-3/4" to length of pull.

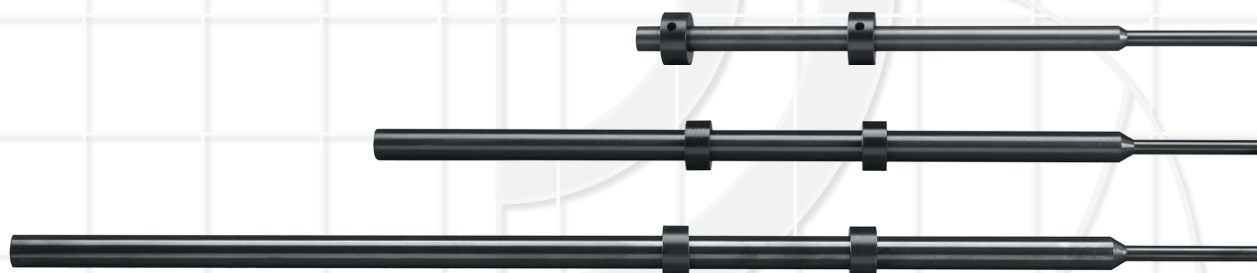

Thumbhole/Accessory Bar U1015

Provides additional support for the buttplate & provides additional accessory mounting points.

Sling Swivel Stud Set U1007

Allows the shooter to quickly mount a sling to the top or bottom of the rifle.

Lothar Walther Barrels

Interchangeable barrels in a variety of lengths are available in .177, .20, .22 and .25 cal.

24" 16mm Lothar Walther Barrel .25 U1073 • .22 U1032 • .177 U1033 • .20 U1053

18" 16mm Lothar Walther Barrel .25 U1072 • .22 U1030 • .177 U1031 • .20 U1052

18" 12mm Lothar Walther Barrel .25 U1095 • .22 U1094 • .177 U1097 • .20 U1096

12" 12mm Lothar Walther Barrel .25 U1071 • .22 U1028 • .177 U1029 • .20 U1051

Check out our AirForce Airgun Believer Gear at www.airforceairguns.com

Sound-Loc® Kit

U1087 for .177 Only
U1088 for .20, .22, .25

Advanced Airgun Noise Reduction System Kit for earlier TalonSS rifles.

AirForce Hat U1048

Three color embroidered cotton chino hat with cloth Velcro adjustment.
