Reference

- > ARC200: Axion2

External Programming

All Presets can be prepared on the Axion2 and recalled by Control Systems. Templates can be selected and filled by any source. Simple and affordable, the Axion2 saves time and money by programming many presets which can be recalled by a third party controller.

Special tips

The Axion2 can be controlled by an external controller from CRESTRON®, AMX® or any other major control system.
