

Technical Publication Change Instructions

Updated replacement pages and/or drawings are attached to this Technical Publication Change Instructions. Please follow the directions under **Publication Update Requirements** and replace corresponding pages with the attached pages provided. Failure to make these replacements may result in loss of product efficiency and possible failure. Please note that page numbers no longer have alpha suffixes, and now the revision level on newer publications adds a numerated suffix denoting its difference from the core revision. Most specific changes are identified by change bars in the corresponding margins. A replacement page with no numerated suffix means a change has not occurred, but the page is included because its page is double-sided.

Replacement pages will become standard pages at the next printing cycle. The Front Matter (excluding Cover page), Table of Contents, List of Illustrations and Tables, Preface (in most cases) and Index will be updated at this cycle. For record purposes you are encouraged to retain this TPCI as a permanent part of the publication. Record changes in your publication's Preface section (Under newer Giga-tronics publications, "Record of Publication Changes", in older, "Record of Manual Changes").

Publication	Former P/N, Revision & Date	Updated P/N, Revision & Date
Series 12000A Microwave Synthesizers Operation Manual	31231, Rev. G1, November 2002	31231, Rev. J, October 2003

Publication Update Requirements				
Change Originator			Replace Old Page(s)/ Add New Page(s)	Remarks
