About This Document.....	1
1 Safety Precautions.....	1-1
1.1 General Instructions.....	1-2
1.2 Symbols.....	1-2
1.3 Toxic Articles.....	1-3
1.4 Electric Safety.....	1-4
1.5 ESD Protection.....	1-6
1.6 Microwaves and Magnetic Fields.....	1-8
1.7 Laser.....	1-8
1.8 High Temperature.....	1-8
1.9 Aloft Work.....	1-8
1.10 Others.....	1-11
2 Introduction to the BTS3012 Site.....	2-1
3 Equipment Room.....	3-1
3.1 Requirements for the Site Selection.....	3-2
3.2 Space and Location Requirements of the BTS3012.....	3-3
3.3 Requirements for the Construction of the Equipment Room.....	3-6
3.4 Requirements for the Working Environment.....	3-11
4 Power System.....	4-1
4.1 Requirments for the Input Power.....	4-2
4.2 Requirements for the Power Supply System.....	4-2
4.3 Requirements for the Configuration of the High-Frequency Switch Rectifier.....	4-3
5 Lightning Protection and Grounding System.....	5-1
5.1 Requirements for the Lightning Protection and Grounding System.....	5-3
5.2 Underground Grounding System of the Equipment Room.....	5-4
5.3 Lightning Protection and Grounding of the Equipment Room.....	5-6
5.4 Outdoor Part of the Lightning Protection and Grounding System.....	5-10
5.5 Lightning Protection and Grounding of the Base Station.....	5-12
5.6 Lightning Protection and Grounding of the Power Supply System.....	5-12
5.7 Requirements for the Lightning Protection and Grounding of Signal Cables.....	5-14
5.8 Requirements for the Lightning Protection and Grounding of Feeders.....	5-15

5.9 Lightning Protection and Grounding of Other Equipment.....	5-17
6 Accessories.....	6-1
6.1 Installing the Cabling Rack and Cabling Trough.....	6-2
6.2 Installing the Grounding Bar.....	6-2
6.3 Preparing the Transmission Devices and the DDF.....	6-3
6.4 Satellite Antenna System Installation Preparations.....	6-4
6.5 Antenna System Installation Preparations.....	6-6
6.6 Feeder Windows.....	6-8
7 Checklist for Site Preparations.....	7-1

Figures

Figure 1-1 Putting on an ESD wrist strap.....	1-7
Figure 1-2 Fully unfolded A-shaped ladder.....	1-9
Figure 1-3 Ladder slant.....	1-10
Figure 1-4 Using the long ladder in a safe way.....	1-10
Figure 1-5 Ladder with its top end one meter above the eave.....	1-11
Figure 1-6 Hoisting a heavy object.....	1-12
Figure 1-7 Laying down and placing upright the cabinet.....	1-12
Figure 3-1 Installation of a single BTS3012 cabinet with base A (in mm).....	3-3
Figure 3-2 Installation of a single BTS3012 cabinet with base B (in mm).....	3-4
Figure 3-3 Installation of multiple BTS3012 cabinets with base A (in mm).....	3-4
Figure 3-4 Installation of multiple BTS3012 cabinets with base B (in mm).....	3-5
Figure 3-5 Installation of the BTS3012 and BTS312 cabinets with base A (in mm).....	3-5
Figure 3-6 Installation of the BTS3012 and BTS312 cabinets with base B (in mm).....	3-6
Figure 5-1 Grounding grids.....	5-4
Figure 5-2 Underground grounding system.....	5-5
Figure 5-3 Grounding system of the equipment room.....	5-6
Figure 5-4 Parallel earth electrode set constituted by four steel pipes.....	5-8
Figure 5-5 Connection of vertical grounding poles of the earth electrode set.....	5-9
Figure 5-6 Outdoor grounding of the building and steel tower.....	5-11
Figure 5-7 Installation position of the antenna.....	5-16
Figure 6-1 Indoor grounding bar.....	6-3
Figure 6-2 Installing a grounding bar on the wall.....	6-3
Figure 6-3 Dimension of the 12-hole feeder window.....	6-5
Figure 6-4 Structure of the 12-hole feeder window.....	6-6
Figure 6-5 Dimensions of the 12-hole feeder window.....	6-7
Figure 6-6 Structure of the 12-hole feeder window.....	6-8
Figure 6-7 Dimensions of a feeder window with 12 holes.....	6-9
Figure 6-8 Structure of a feeder window with 12 holes.....	6-9
Figure 6-9 Installation holes on the feeder window.....	6-10

Tables

Table 3-1 Requirements for temperature and humidity.....	3-12
Table 3-2 Climatic Requirements.....	3-12
Table 3-3 Requirements for chemically active materials	3-13
Table 3-4 Limits of the density of the corrosive gases.....	3-13
Table 3-5 Requirements for mechanical stress.....	3-14
Table 3-6 Requirements for electromagnetic.....	3-14
Table 3-7 Requirements for the environment control system.....	3-15
Table 4-1 Requirments for the 110/220 V AC voltage.....	4-2
Table 5-1 Resistivity of soils.....	5-9
Table 6-1 Tools and instruments used for antenna system installation.....	6-4
Table 6-2 Tools and instruments for the antenna system installation.....	6-6
Table 7-1 Checklist for site location.....	7-1
Table 7-2 Checklist for the power supply system.....	7-2
Table 7-3 Checklist for the grounding cables.....	7-3
Table 7-4 Checklist for the antenna system.....	7-3
Table 7-5 Checklist for the transmission system.....	7-4
