## Before Installation (Steps 1-8)

### 1.0 Machines Affected

3745 Models 17A, 21A, 31A, 41A, 61A or 3746 Model 950 with Controller Expansion (FC 5023).

*This feature should only be applied on the machine serial for which it is specified.*

### 2.0 Related BMs and ECs

None.

### 3.0 BMs to be Installed

FFB/M	Title
08J5494	Service Processor Rack Mount Kit (FC 5029).

### 4.0 Preparation

- Familiarize yourself with the purpose and details of the installation instruction before negotiating machine time with the customer.
- Check all items listed on the BM(s) to determine that all parts have been received.
- The following figures Figure 1 on page 4 to Figure 6 on page 7 show where to install the Service Processor according to his type.

Figure 1. Units Installation in the Controller Expansion (SP Type 7585)

Figure 2. Units Installation in the Controller Expansion (SP Type 3172)

Figure 3. Units Installation in the Controller Expansion (SP Type 9585)

Figure 4. Units Installation in the Controller Expansion (SP Type 9577)

Figure 5. Installing Brackets for Processor Type 7585

Figure 6. Installing Brackets for Processor Type 3172

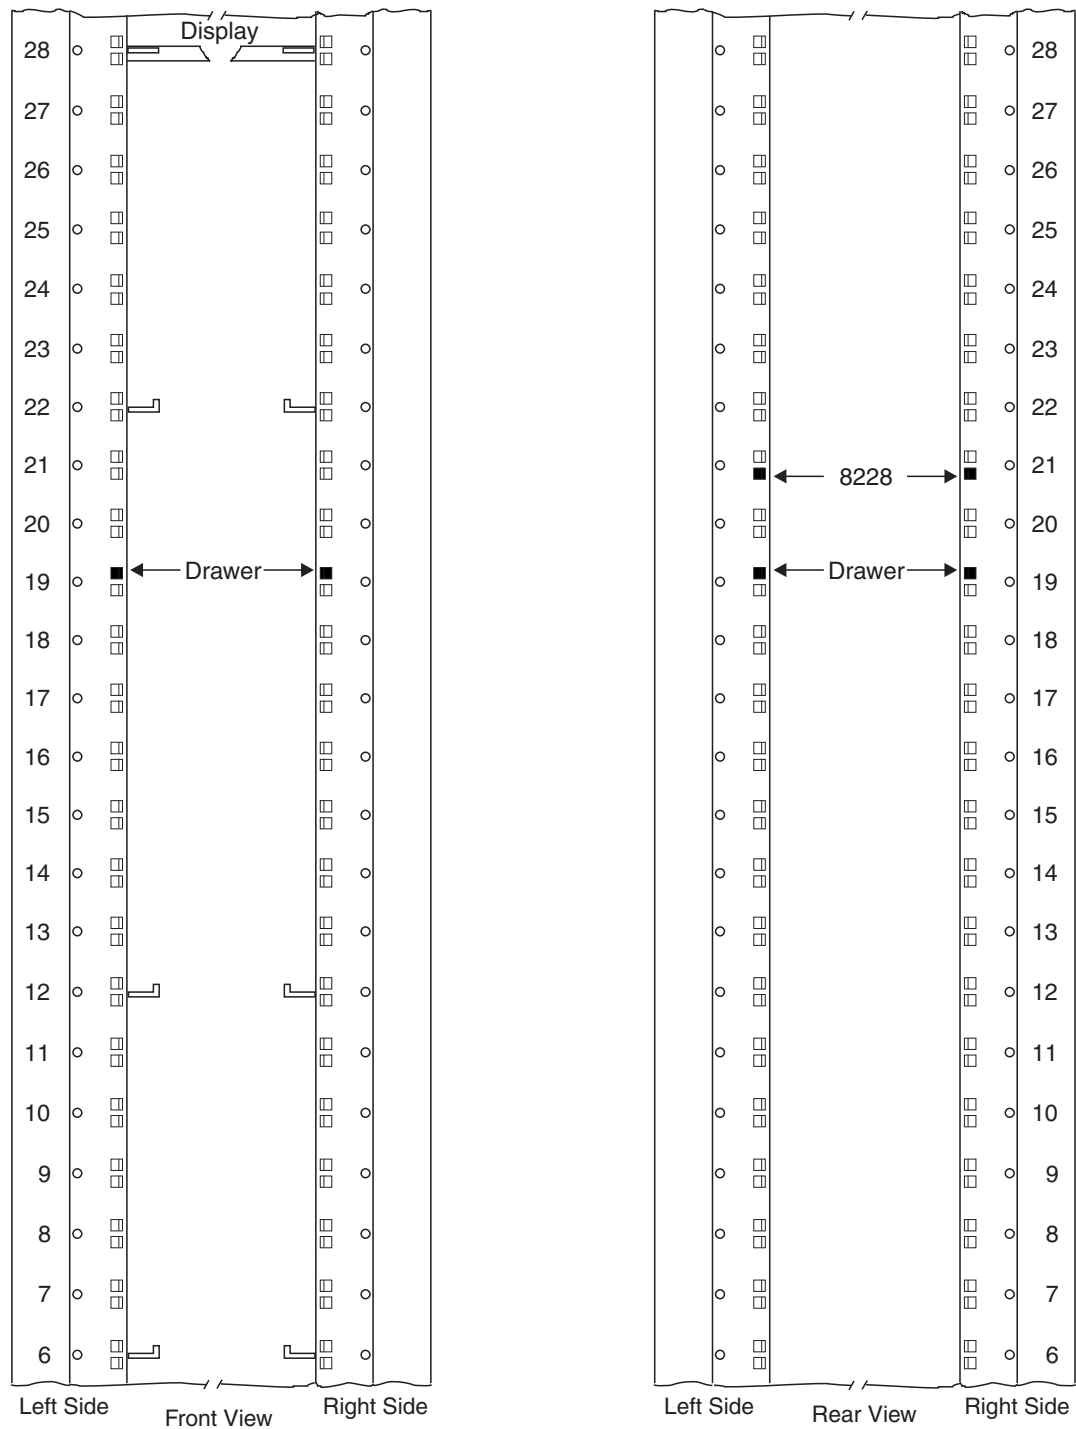

Figure 7. Installing Captive Nuts and Brackets for SP Type 7585

SP Type 3172, 9577 or 9585.

--------------	-----------------------	-------------------------	--	--	--	--

## 5.0 Programming

None.

## 6.0 Purpose and Description

### 6.1 Purpose

To allow the installation of the Service Processor in the Controller Expansion

### 6.2 Description

Installation of the Service Processor Rack Mount kit in the Controller Expansion

## 7.0 Installation Time

FFBM	Machine Hrs.	System Hrs.	Nbr of CE
08J5494	05.0	00.0	1

No impact on 3745 / 3746 customer operations.

## 8.0 Tools/Material Required

ESD kit (PN 6428316).

## Installation (Steps 9-12)

### 9.0 Safety

Review the **Safety Notices** and the **Safety Inspection Procedures** located at the beginning of the *IBM 3745 Communication Controller All Models, IBM 3746 Expansion Unit Model 900, IBM 3746 Nways Multiprotocol Controller Model 950 Safety Information*, GA33-0400.

### 10.0 Details of Installation

- \_\_\_ 1. Open the front and rear doors of the controller expansion.
- \_\_\_ 2. Locate the positions to install the Service Processor according to his type, the display and the service drawer. Refer to Figure 1 on page 4 to Figure 4 on page 5
- \_\_\_ 3. Locate the positions to install the brackets for the display, the service processor and the service drawer. Refer to Figure 5 on page 6 to Figure 6 on page 7

**Note:** This symbol '■' identify the locations to install the captive nuts.

#### 10.1 Installing the Display in the Controller Expansion.

Are the display brackets/support already installed? \_\_\_\_\_

- **YES**, go to 3 on page 12.
- **NO**, go to 10.1, "Installing the Display in the Controller Expansion.."

- \_\_\_ 1. Install 2 brackets (PN 58G5752) and secure using 4 screws (PN 2665527).

Figure 9. Installing Brackets PN 58G5752

- 2. Install the plate **2** (PN 58G5755), on the brackets previously installed, then, fasten it using four screws **1** (PN 1621230).

Figure 10. Installing Plate PN 58G5755

- 3. Slide the display screen on the top of the controller expansion (refer to Figure 11 on page 13).

Figure 11. Installing the Display Screen in the Controller Expansion (Front Side)

## 10.2 Installing the Service Drawer in the Controller Expansion.

Is a drawer already installed? \_\_\_\_\_

- **YES**, go to 1.
- **NO**, go to 2.

\_\_\_ 1. Remove the drawer and slides installed.

\_\_\_ 2. Refer to Figure 12 on page 14, and if needed install four captive nuts **A** (PN 58G5766) on the front and on the rear side of the controller expansion (See figure Figure 13 on page 14).

**Note:** If SP type 3172, Install the four captive nuts in position 19.

Figure 12. Installing Captive Nuts for the Service Drawer.

Figure 13. Installing the Captive Nuts for the 7585

- 3. Refer to Figure 14 on page 15, on the rear side of the controller expansion, install bracket **A** using two screws **C** (PN 1621232).
- 4. On the front side of the controller expansion, slide the drawer **B** on the bracket **A** and secure using two screws **C** (PN 1621232).

Figure 14. Installing the Service Drawer

- 5. Open the drawer and install the keyboard as shown in Figure 15.

**Note:** Route the keyboard cable thru the back of the drawer.

Figure 15. Installing the Keyboard

## 10.3 Installing the Service Processor in the Controller Expansion.

### Service Processor Type?

- **3172**, go to 5 on page 17.
- **7585**, go to 1.
- **9577**, go to 5 on page 17.
- **9585**, go to 7 on page 18.

### SP type 7585 Installation:

1. Install 2 brackets (PN 58G5752) and secure using 4 screws (PN 2665527).

Figure 16. Installing Brackets PN 58G5752

2. Locate the captive nuts used to secure the service processor in the controller expansion. If already installed, go to step 4, otherwise go to step 3.
3. Refer to Figure 13 on page 14, install four captive nuts (PN 58G5766) on the left and right side of the controller expansion.
4. Slide the service processor unit on the brackets as shown in Figure 17 on page 17, then secure the unit using four screws (PN 1621230).

Figure 17. Installing the SP Unit type 7585 in the Controller Expansion (Front Side)

**Go to 8 on page 19 .**

**SP type 3172 or 9577 Installation:**

- 5. Install 2 brackets **1** (PN 58G5752) and secure using 4 screws **2** (PN 2665527).

Figure 18. Installing Brackets PN 58G5752.

- 6. Slide the Service Processor on the brackets as shown in Figure 19 or Figure 20 Then, secure it using 4 screws **3** (PN 0782986), see Figure 18 on page 17.

Figure 19. Installing the SP Unit type 3172 (Rear Side).

**Go to 8 on page 19.**

Figure 20. Installing the SP Unit type 9577 (Rear Side)

**SP type 9585 Installation:**

- 7. Slide the Service Processor unit as shown in Figure 21 on page 19.

Figure 21. Installing the SP Unit type in the Controller Expansion (Rear Side)

**Go to 8 .**

**Optical Disk Drive Installation:**

- 8. Install the optical disk drive close to the Service Processor as shown in Figure 22.

Figure 22. Installing the Optical Drive

## 10.3.1 Installing the Service Processor Access Unit (8228)

- \_\_\_ 1. Locate the positions to install the 8228 unit and the positions to install the captive nuts for the 8228. according to the type of Service Processor used. Refer to Figure 7 on page 8 and Figure 8 on page 9.

**Note:** This symbol '■' identify the locations to install the captive nuts.

- \_\_\_ 2. Install the two captive nuts (PN 58G5766) see Figure 13 on page 14.
- \_\_\_ 3. Install the 8228. secure it using two screws (PN 1621232).
- \_\_\_ 4. Identify the 8228 as Service Processor Access Unit, Using label **A** (PN 0782966). See Figure 23.

Figure 23. Installing the 8228 (Controller Expansion Rear side)

Connect the 8228 to the Service Processor as follows:

- \_\_\_ 5. Plug connector **1** of cable **A** to to the service processor
- \_\_\_ 6. Using a sticker, identify the connector **2** as the "service processor cable".
- \_\_\_ 7. Plug connector **2** to **any plug** of the 8228 from **1 to 8**

Figure 24. Connecting the 8228 to the Service Processor type 7585.

## 10.3.2 Connecting the Service Processor

### Service Processor Type?

- **3172**, go to 1.
- **7585**, go to 8 on page 22.
- **9577**, go to 15 on page 24.
- **9585**, go to 18 on page 25.

### Connecting the SP Type 3172 (see Figure 25 on page 22):

- 1. Connect cable (PN 49G2224) keyboard plug **A** to connector K, and mouse plug **B** to connector M.  
**Note:** If you are installing the keyboard outside of the controller expansion, use cable PN 59G1271.
- 2. Connect the service processor power cord **C**.
- 3. Connect the optical drive signal cable **D** (PN 33F4606) to the service processor connector in slot 8.
- 4. Connect the token ring cable **E** (PN 60G1066) from cable **H** (PN 6339098) to the service processor connector in slot 7.
- 5. Connect the display signal cable **F** (PN 92F0329) to the service processor connector in slot 5.

**Note:** If you are installing the display outside of the controller expansion, use cable PN 59G1270.

- 6. Connect the cable **G** coming to the modem to the Service Processor connector in slot 3.

Figure 25. Cable Locations

- 7. After you secure all these connections, plug the power cords into properly grounded electrical outlets:  
If you have installed **all the units** in the controller expansion, go to **step 24 on page 26**  
If the **keyboard** and **display** are installed **on a table**, go to **step 25 on page 27**.

**Go to 11.0, "Test Procedures" on page 28.**

**Connecting the SP Type 7585** (see Figure 26 on page 23):

- 8. Connect cable (PN 49G2224) keyboard plug **A** to connector K, and mouse plug **B** to connector M.

**Note:** If you are installing the keyboard outside of the controller expansion, use cable PN 59G1271.

- 9. Connect the service processor power cord **C**.

- \_\_\_ 10. Connect the optical drive signal cable **D** (PN 06H6036) to the service processor connector in slot 8.
- \_\_\_ 11. Connect the token ring cable **H** (PN 6339098) to the service processor connector.
- \_\_\_ 12. Connect the Cable **G** coming from the modem to the service processor connector COM 1.
- \_\_\_ 13. Connect the display signal cable **F** (PN 92F0329) to the service processor connector.

**Note:** If you are installing the display outside of the controller expansion, use cable PN 59G1270.

Figure 26. Cable Locations

- \_\_\_ 14. After you secure all these connections, plug the power cords into properly grounded electrical outlets:  
 If you have installed **all the units** in the controller expansion, go to **step 24 on page 26**  
 If the **keyboard** and **display** are installed **on a table**, go to **step 25 on page 27**.

**Go to 11.0, "Test Procedures" on page 28.**

**Connecting the SP Type 9577** (see Figure 27 on page 24 and Figure 28 on page 24).

- \_\_\_ 15. Connect the keyboard cable, the mouse cable, and the display signal cable (1 through 4).
- \_\_\_ 16. Connect the power cords to the display and the Service Processor (5 and 6).

Figure 27. Cable Locations

Figure 28. Cable Locations

- \_\_\_ 17. *After you secure all these connections, plug the power cords into properly grounded electrical outlets:*  
 If you have installed **all the units** in the controller expansion, go to **step 24 on page 26**  
 If the **keyboard** and **display** are installed **on a table**, go to **step 25 on page 27** .  
**Go to 11.0, "Test Procedures" on page 28.**

### Connecting the SP Type 9585

- \_\_\_ 18. Connect the keyboard and the mouse cables,
- \_\_\_ 19. The display cable **4**,
- \_\_\_ 20. the Modem cable **3**,
- \_\_\_ 21. the LAN cable **1**, and
- \_\_\_ 22. The Power cord.

- \_\_\_ 23. *After you secure all these connections, plug the power cords into properly grounded electrical outlets:*  
 If you have installed **all the units** in the controller expansion, go to **step 24 on page 26**  
 If the **keyboard** and **display** are installed **on a table**, go to **step 25 on page 27**.

**Go to 11.0, "Test Procedures" on page 28.**

- 24. Route and connect the power cords (PN 58G5783) from the display, optical disk drive, and service processor unit to the ac outlet distribution box as shown in Figure 29. Secure these cables using tie clamps along the frame, then go to step 26 on page 27.

**Warning**

The ac outlet distribution box is connected to a **220V** power source, all the units must be set to support this voltage.

Figure 29. Power Cords Connection

- 25. Connect the display cable **5** to connector **6** of cable **7** (PN 59G1270), then connect the keyboard cable **9** (PN 59G1271) to connectors K and M.

Figure 30. Installing the Display and Keyboard on a Table

- 26. If it is not already plugged, connect the main power cord **A** coming from the ac outlet distribution box to the customer receptacle (refer to Figure 31).

Figure 31. Power Cord for Power Strip

## 11.0 Test Procedures

No test required.

## 12.0 Field Updating

None.

---

## After Installation (steps 13-15)

### 13.0 Field Updating

None.

### 14.0 Publications Update

None.

### 15.0 Parts Disposition

#### 15.1 Purchased Machines

Refer to the parts ownership matrix to determine the correct owner of removed/unused parts.

- For EMEA/APG/AG Areas, refer to *Hardware and General Service Code Description*.
- For Domestic Areas, return parts to the customer.

### 16.0 Machine Records

- Install the new **MACHINE HISTORY** supplied.
- Report installation and quality to existing procedures.

**End of instructions.**
