IBM believes the statements contained herein are accurate as of the date of publication of this document. **However, IBM hereby disclaims all warranties either expressed or implied, including without limitation any implied warranty of merchantability or fitness for a particular purpose. In no event will IBM be liable to you for any damages, including any lost profits, lost savings, or other incidental or consequential damage arising out of the use or inability to use any information provided through this publication even if IBM has been advised of the possibility of such damages, or for any claim by any other party.**

Some states do not allow the limitation or exclusion of liability for incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This publication may contain technical inaccuracies or typographical errors. Also, illustrations contained here may show prototype equipment. Your system configuration may differ.

This publication may contain articles by non-IBM authors. These articles represent the views of their authors. IBM does not endorse any non-IBM products that may be mentioned. Questions should be directed to the authors.

This information is not intended to be an assertion of future action. IBM expressly reserves the right to change or withdraw current products that may or may not have the same characteristics or codes listed in this publication. Should IBM modify its products in a way that may affect the information contained in this publication, IBM assumes no obligation whatever to inform any user of the modification.

It is possible that this material may contain reference to, or information about, IBM products (machines and programs), programming, or services that are not announced in your country. Such references or information must not be construed to mean that IBM intends to announce such products, programming, or services in your country.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation whatever.

All specifications are subject to change without notice.

With respect to the advertising material herein, this publication does not constitute an expressed or implied recommendation or endorsement by IBM of any particular product, service, company, or technology.

IBM takes no responsibility whatsoever with regard to the selection, performance, or use of the products advertised herein. All understanding, agreements, or warranties must take place directly between the software vendors and prospective users.
