Index to Previous Issues of *AIXpert*

Back issues are available for $12 per issue plus $3.95 shipping ($6.95 Canada/Mexico, $9.95 other countries). Originals are available for the last four issues. Copies are provided for issues before that. Send check, payable to The TDA Group, to: The TDA Group, Box 1360, Los Altos, CA 94023. Fax orders to (415) 948-4280 (include VISA or MasterCard number with expiration date). Call (800) 551-2832 in the U.S. or (415) 948-3140 outside the U.S. and Canada. All orders must be prepaid. California residents add applicable sales tax.

AIX

AIX Version 3 Facilities for Real-Time Applications (May 1992)
AIX XL C++ Compiler/6000 (August 1992)
The AIX Binder System (August 1992)
A Diskless Performance Primer (August 1992)
The Preemptable and Pageable AIX Kernel (August 1992)
POWER Architecture in the Commercial Environment (November 1992)
Distributed Transaction Processing with Encina (November 1992)
CICS/6000 Online Transaction Processing with AIX (November 1992)
AIX Commercial Application Development (November 1992)
Tuning Commercial Applications on AIX 3.2 (November 1992)
AIX Version 3 Boot Process (November 1992)
AIX Interlanguage Programming (February 1993)
Mirrored Logical Volume Performance (February 1993)
Writing a SCSI Device Driver: A Pass-Through Implementation (February 1993)
RISC System/6000 Segmented Memory (February 1993)
Accessing Shared Functions Using glink.o and ptrgl.o (February 1993)
Porting an MVS Application to AIX/ESA (May 1993)
Implementing a Client/Server Model with SOCKETS and RPC (May 1993)
Relinking Executable and Shared Objects Using ld (May 1993)
AIX Does AlphaWindows (November 1993)
Managing Motif Child Processes and Pipes (November 1993)
AIX Visual Systems Management: A User's Perspective (November 1993)
The AIX Process Structure (November 1993)
Accelerated NFS: Prestoserve for AIX/6000 (November 1993)
PowerPC Alliance (February 1994)
PowerPC: A High-Performance Architecture with a History (February 1994)
PowerPC 601 Microprocessor (February 1994)
RISC System/6000 Model 250: The First PowerPC System (February 1994)
Performance Aspects of Portability (February 1994)
TCP/IP Performance Tuning for the RISC System/6000 (February 1994)
Programming with OpenGL (February 1994)
Developing a Client/Server Application Without a Client (February 1994)
IBM POWERparallel Products (February 1994)

AIX 3.2

AIX 3.2 Highlights (February 1992)
AIX 3.2 Memory Load Control (February 1992)
The AIX 3.2 VMM Page-Replacement Algorithm (February 1992)
New Optimizations in AIX 3.2 Compilers (February 1992)

AIXposure

Apple and the PowerPC (February 1994)

CASE

The IBM AIX CASE Strategy (May 1992)
Configuration Management Version Control/6000 (May 1992)
SDE Workbench/6000 and SDE Integrator/6000 (May 1992)
Overview of PCTE (May 1992)

Communications

AIX RISC System/6000 3270 Emulator Guide (February 1992)
High Availability Options (February 1992)
Parallel Channel Connectivity for the RISC System/6000 (August 1992)
ESCON Communication for the RISC System/6000 (May 1993)
The Multiprotocol Adapter/A (November 1993)
ARTIC: A Communication Cornucopia (February 1994)

Database

DB2/6000: IBM's Client/Server Database (May 1993)
Enterprise Client/Server Computing: SYBASE System 10 (May 1993)
DDCS/6000: The Bridge to Enterprise Data (May 1993)
UniSQL/X: A Unified Database System (May 1993)
Connecting to Heterogeneous Data (May 1993)
Meeting OLTP Demands: INFORMIX Software (May 1993)
ORACLE Parallel Server for HACMP/6000 Clusters (May 1993)

Graphics

The Design and Use of GL Widgets (August 1992)
PEX: The Choice for Interoperability and More (August 1992)
XIE—Image Extension to X (August 1992)
X Window System Input Extension (February 1993)

IBM Directions

A Major Step for Commercial UNIX (November 1992)
Interview with Phil Hester (November 1992)
Interview with Donna Van Fleet (November 1992)
Interview with Janet Perna (May 1993)
Phil Hester Talks About the PowerPC (August 1993)
What's New in the AIX World? (November 1993)

OOP

Introduction to Object Technology on AIX (May 1992)
Object-Oriented Design and Programming (May 1992)
Object-Oriented Analysis and Design (May 1992)
Choosing an Object-Oriented Programming Language (May 1992)
Different Roles for SQL, ODBMS, and Files (May 1992)
The GemStone Object Database Management System (May 1992)
ONTOS DB: An ODBMS for Distributed AIX Applications (May 1992)
ITASCA Distributed ODBMS (May 1992)
Overview of the ObjectStore ODBMS (May 1992)
The VERSANT ODBMS (May 1992)
Hermes: A High-Level Process-Model Language for Distributed Computing (May 1992)
Integration of OSAM* and ROSE Technologies for CIM (May 1992)
OMG Standards for Object-Oriented Programming (August 1993)
The Taligent Operating Environment (August 1993)
Taligent's Approach to Frameworks (November 1993)

Resources

AIX Education (August 1992)

Standards

Dr. Pamela Gray Talks About the Standards Process (August 1993)
/aix/open/commitment (August 1993)
The PowerOpen Environment (August 1993)
CUA and Motif Compatibility (August 1993)
The POSIX Standards: Overview and Status (August 1993)
The Latest Enhancements to Motif (August 1993)
Delivering Applications to Multiple Platforms Using ANDF (August 1993)

Support Programs

/etc/quality/technical support (February 1993)
IBM Expands Developer Support on the West Coast (February 1994)

Tools

An Overview of the OSF DCE Distributed File System (February 1992)
AIX Application Interface Composer (February 1992)
Deskterm—A Perfect DisGUIse? (February 1992)
BEST/1 for Capacity Planning (February 1993)
mksysb on AIX for the RISC System/6000 (February 1993)
Calling C Functions from FORTRAN Modules (February 1993)
Coding a DCE Application (August 1993)
DCE Update (August 1993)
AIX Performance Toolbox/6000 (November 1993)
Type Managers in DCE RPC (November 1993)
NetLS: The Key to Network Licensing (November 1993)
Software Quality and IBM's CMVC (November 1993)
An Introduction to Configuration Management (November 1993)
Configuration Management with CCC/Harvest (February 1994)
XL Compiler Support for New RISC System/6000 Architectures (February 1994)
