ACDrive (Advanced Codec Drive) powered by PhatNoise mCD technology

Step up to better file management and enhanced playback experience. ACDrive can help manage a huge library of compressed audio files using PMM (Phatnoise Media Manager). This user-friendly PC software allows file editing, ripping from CD, creating playlists and building text of speech files to allow Audible Voice Index browsing of Playlist, Artist, Album, Genre and Folder during playback in your car. In addition, ACDrive has the ability to upgrade to be compatible with new audio codecs that are released in the future simply through the internal CD mechanism. So enjoy the advanced desktop software that makes file management a breeze and have a safer playback experience in your vehicle.

G-Analyzer (Graphic Motion Analyzer)

You can now feel and see your driving force. G-Analyzer (Graphic Motion Analyzer) comes with 3 types of displays -Lateral-G display, Real time G-Meter and G-Counter that transforms gravity force into graphics and text data. There is even a Stop Watch function that starts automatically upon sensing movement of the vehicle.

KAC-7252

MAX POWER 1000W

High Quality 2-channel Power Amplifier

- Cast Aluminum Heat Sink
- Detachable Aluminum Dress Plate & Top Panel Control
- Variable Bass Boost with Wired Remote
- Built-in Variable Low-pass Filter
- Built-in Variable High-pass Filter
- Gold Plated RCA Inputs/Outputs
- Speaker Level Input
- Cooling Fan
- Power MOSFET Switching Power Supply
- Single-side Exposure of Terminals for Multi-Installation

KAC-7202

MAX POWER 920W

High Quality 2-channel Power Amplifier

- Cast Aluminum Heat Sink
- Detachable Aluminum Dress Plate & Top Panel Control
- Variable Bass Boost
