

Introducing KODAK VISION2 200T Color Negative Film 5217 / 7217

KODAK VISION2 200T Color Negative Film 5217 / 7217 is highly versatile and reliable. Offering excellent image structure under a wide variety of lighting conditions. And now 200T Film also enables you to shoot all scenes for digital compositing on the same stock. Giving you pristine edges and making VFX easier and more seamless than ever.

The VISION2 Film family is the first line of products created specifically for both film and digital postproduction. What's more, all VISION2 Films provide excellent tone scale and flesh-to-neutral reproduction. With superior shadow and highlight detail and very fine grain. VISION2 Films also maintain neutrality through the full range of exposure. So you can convey exactly the look you intended all the way from capture to post. KODAK VISION2 200T Film. Tell your whole story. Seamlessly.

The following additions will be reflected in the next printing of the KODAK Motion Picture Film Price Catalog.
