

## Now Available KODAK EKTACHROME 100D Color Reversal Film / 7285

Kodak now offers, KODAK EKTACHROME 100D Color Reversal Film / 7285 in 16 mm format (E-6 process). In addition to being a true 100-speed color reversal motion picture film designed for daylight, whether you're shooting ads, music videos, documentaries, television, or features, it delivers intensely saturated color, plus a neutral gray scale and accurate skin tones. All with sharpness you won't find in any other 100-speed reversal film.

Available beginning approximately June 1, 2004, the following will be added to the next printing of the KODAK Motion Picture Film Price Catalog.
