

KODAK VISION2 200T Color Negative Film 7217 and KODAK VISION2 500T Color Negative Film 7218 Now Available in Super 8 mm Format

Beginning May 15, 2004, Kodak will offer KODAK VISION2 200T 7217 and KODAK VISION2 500T 7218 Color Negative Films in Super 8 mm format. 7217 is highly versatile and reliable, offering excellent image structure under a wide variety of lighting conditions while 7218 delivers crisp clean images and has the lowest grain available in a 500T product. All the VISION2 Films provide excellent tone scale and flesh-to-neutral reproduction, with superior shadow and highlight detail and very fine grain. They also maintain neutrality through the full range of exposure.

KODAK VISION2 200T 7217, Super 8 Cartridge, CAT No. 5288535, replaces KODAK VISION 200T Color Negative Film / 7274, CAT No. 5243456, Super 8 Cartridge (page 17) on a stock turnover basis.

The following will be added to the next update of the KODAK Motion Picture Film Price Catalog.
