

New Enhanced Version of B&W Printed Catalog

Included in this mailing is a completely updated and modified version of the KODAK Motion Picture Film Price Catalog. This new catalog *entirely* replaces the previous catalog and should help save you time in finding basic information about KODAK products.

Note the following enhancements:

- A new Table of Contents is at the beginning of the catalog
- Product Index now appears at the end of the catalog
- Last price change date is now shown at the item level
- Replacement pages will no longer be mailed. Instead, when warranted, you will receive a complete, updated printed catalog

Kodak is a trademark.
