- Automatic setup with MaxBlast™ software
- Easy-to-use diagnostic tools
- Options for first-timers and pros

The Capacity to Perform

Experience strong performance and leading-edge capacity for today's storage-hungry applications. By simply upgrading to a Maxtor 5400 RPM hard drive, you can extend your computer's life, increase performance, and add much-needed storage for digital video, photos, and MP3s. Maxtor 5400 RPM drives feature the industry's fastest parallel ATA interface, Ultra ATA/133, for burst transfer rates of up to 133 MB/sec. And every Maxtor 5400 RPM hard drive kit includes MaxBlast software for Windows to make installation a snap. Whether your storage needs are for creative work, business, or fun, make sure your system has the capacity to perform—make sure it has a Maxtor drive inside.

Powerful, Reliable, Easy

Powerful
