(065-468)

MINUTE WHEEL AND PINION
(072-760)

Separated Parts

HOUR WHEEL 075-193
DIAL WASHER 078-040

Handling of setting stem

The setting stem is fixed completely with a setting of the battery clamp. Thus a pull-out of the setting stem must be avoided before setting the battery clamp. And the disassembly/assembly must be carried out with the setting stem pushed completely back to its normal position.

ORIGINAL SPARE PARTS AVAILABLE

Please make sure to use our ORIGINAL SPARE PARTS, which will assure you of the high quality, its excellent performance and long (3years) battery life.
