

## Technical Information

Page 1 of 2

### Probe Model 850

(Part No.: 7220.850 )

- For surface resistance and resistance to ground measurement
- Conductive rubber with contact resistance  $< 20 \Omega$
- Total resistance of probe  $< 150 \Omega$
- Rubber hardness:  $65 \pm 5$  Shore A
- Weight 2,25 kg
- Complies with EN 61340-5-1, IEC 61340-4-1, IEC 61340-2-3

#### Dimensions:

Diameter: 70 mm  
Height: 120 mm  
Diameter  
contact rubber: 63,5 mm

#### Technical data:

	Standard:
Surface resistance measurement $R_S$ [ $\Omega$ ]	EN 61340-5-1 IEC 61340-4-1 IEC 61340-2-3
Resistance to ground / groundable point and point-to-point resistance $R_E$ , $R_G$ and $R_P$	EN 61340-5-1 IEC 61340-4-1 IEC 61340-2-3
