

Technical Information

Page 1 of 1

ESD-Chair „PISA“

- 5 star base with conductive castors
- Complies with EN 61340-5-1 and ANSI/ESD S20.20-1999
- Safety gas lift height adjustment
- Height (standard): 42 - 55 cm
- Seat and back, upholstered with a rugged conductive blue or grey fabric
- Material composition: 59% Viscose, 40% Wool, 1% carbon loaded nylon fibres
- Material abrasion resistance: 75.000 cycles (800g/12 kPa)
- Soft, self-breaking conductive castors
- Fabric can be cleaned with standard cleaner
- GS certified

On request:

- Hard castors (for carpet flooring)
- Extensions for different heights

Electrical properties:

Measurements	Standard	Typical values
Surface resistance R_S (fabric)	EN 61340-5-1	$10^4 - 10^5 \Omega$
Resistance to ground R_G	EN 61340-5-1	$10^6 - 10^7 \Omega$
