	Order No.	Description	Price (EUR)
Soldering Tips for MLR 21 (MT-Series)			
	0054410199	Micropoint MT 1 Soldering Tip 0,25mm	5,60
	0054411599	Micropoint MT 1SL Soldering Tip 0,25mm	10,80
	0054410599	MT 1S Soldering Tip 0,25mm	5,60
	0054410699	Chisel MT 6 Soldering Tip 1,6mm	5,60
	0054410499	Sloped MT 4 Soldering Tip 1,2mm	5,60
	0054411299	Screwdriver MT H Soldering Tip 0,8mm	5,60
	0054411099	MT A Soldering Tip 1,6mm	5,60
	0054411199	MT B Soldering Tip 2,4mm	5,60
	0054411399	Screwdriver, bent MT HX Soldering Tip 0,8mm	5,60
	0054411899	For J-Lead* MT JI Soldering Tip	10,80
	0054411999	For gullwings* MT GW Soldering Tip 2,0mm	10,80
	0054412099	MT GW Soldering Tip 4,0mm	10,80
	0054411499	MT Calibration Tip	7,85

*GW- and JL- tips for soldering QFP's and PLCC's

JL- and GW-tips have been designed especially for soldering fine -pitch SMD-components. It is possible to solder one side, sometimes even the whole component, without interruption. You don't have to pre-tin the pads or have to take soldering paste, because the solder will be delivered from the solder deposit on the tip. Tip temperature 275°C-300°C
