

### Product Information

#### Weller Cordless Pyropen WP 60

The new Weller WP 60 comes with three different functions in one compact tool: soldering, hot air and torch make this product an universal tool for many applications. Widely available butane gas provides the power as for all Pyropen tools.

The ergonomically designed product is infinitely variable within a temperature range of 500°C – 1300°C. Our WP60 is portable, lightweight and easily refillable.

One gas tank filling lasts for approx. 60 minutes. The integrated gas level window indicates the butane gas level.

Inert hot air prevents other materials from oxidizing and is therefore suitable to handle non-contact solder joints of IC and MOS-LSI boards, solder paste, heat shrink tubes and vinyl chloride boards.

Accessories are different soldering tips, hot gas nozzles, ejector, protection cap and tip holder.

## Product Information

### Weller Cordless Pyropen WP 60

#### Functions:

Function as soldering iron  
~ 500°C (20 – 60 Watts)

Function as hot blower  
~ 650°C

Function as torch  
~ 1.300°C

#### Specifications:

System: Infra-red/ultra-infra-red catalyst combusting butane gas reaction system  
Overall length: 186 mm  
Weight: 74 g

#### Optional Parts:

Soldering tip taper  
Æ 1 mm

Soldering tip chisel  
2,4 mm

Soldering tip chisel  
5 mm

Soldering tip spade  
2 mm, 45°

Hot blow tip  
Æ 4,7 mm

Ejector unit

Protective cap
