

CHEMASK®

The fast curing, peelable temporary solder masking agent

- Dries tack-free in 30 minutes
- Easy to use – just peel off dried mask
- Latex material is compatible with flux systems and stable with cleaning solvents

CM8E **250 ml liquid squeeze bottle**

CM1E **3.7 litre liquid**

CHEMASK® HV

The high viscosity, peelable temporary solder masking agent

- More controlled application
- Thicker coating does not seep through thru-holes
- Latex material is compatible with flux systems and stable with cleaning solvents

CHV8E **250 ml liquid squeeze bottle**

CHV1E **3.7 litre liquid**

CHEMASK® DA

The ammonia-free, peelable temporary solder masking agent

- Dries tack-free in 30 minutes
- No ammonia – low odor
- Easy to use – just peel off dried Chemask®
- Noncorrosive

CDA8E **250 ml liquid squeeze bottle**

CDA1E **3.7 litre liquid**

CHEMASK® W

The water soluble temporary solder masking agent

- Easily removed in water cleaning cycles
- UV indicator for positive quality control
- Noncorrosive; safe for sensitive gold, silver and copper contacts

CW8E **250 ml liquid squeeze bottle**

CW1E **3.7 litre liquid**

CHEMASK® WF

The water filterable temporary solder masking agent

- Dissolves in water cleaning cycles
- Does not clog filters
- Noncorrosive; safe for sensitive contacts

CWF8E **250 ml liquid squeeze bottle**

CWF1E **3.7 litre liquid**
