This year too Yamamay supports the “Yamamay & Mahi Bali” project together with Bedo (a non-profit association for the development of the small and medium enterprises in Bali) and Fashion for Development ([fashion4development.com](http://fashion4development.com)).

The art of embroidery is the focus of this teamwork: the establishment of mobile schools with the aim of teaching the locals embroidery so that such women can find a job more easily.

With the purchase of swimwear from Yamamay & Mahi Bali line you will help to give a young Balinese female embroiderer a job and to provide for her future.

The making of the garments, which is obtained through the finicky job of female embroiderers, enhances the ancient embroidery techniques that are passed on from one generation to the next.
