2. Installing the Xviewer Mathematical Upgrade Edition

701992 Xviewer (latest standard version, version 1.31 or later) must be installed before installing the Xviewer Mathematical Upgrade Edition. If the version of Xviewer that you are using is old, uninstall it and then install the latest Xviewer.

Note
- For the installation and uninstallation procedures, see page viii in IM701992-01E.
- To check the version, see section 9.2, "Viewing Version Information" in IM701992-01E.

1. Start Xviewer (standard version) that is already installed.
2. On the **Help** menu, choose **Add licenseNo.** The dialog box for registering the license number opens.
3. Enter the number indicated on the license seal, and click **Add**. If the upgrade completes successfully, a message appears prompting you to restart Xviewer.
4. Click **OK**.
5. Restart Xviewer.

6. On the Help menu, choose About. Check the version information. For details, see section 9.2.

3. User's Manual

For a description of the computation function, see section 4.4 in the Xviewer User's Manual (IM701992-01E).
