Erratum: "Conical Nozzle Flow with Velocity Slip and Temperature Jump"

JAMES C. WILLIAMS III
North Carolina State University, Raleigh, N. C.

THE constant c_2 in the temperature-jump boundary condition, Eq. (14), was computed erroneously so that the temperature jumps presented in Fig. 5 and indicated on the right-hand side of Fig. 4 are too large by a factor of 4. Also, as a result of this error the curves in Fig. 2 should intersect the $G_w = 0$ axis at larger values of centerline Mach number, and the bounding curve $G_w = 0$ in Fig. 1 is shifted upward and to the right somewhat. The conclusions reached in the paper are not altered by this error.

Errata: "General Solution for Two-Dimensional Couple-Stress Elasticity"

CHARLES W. BERT AND FRANKLIN J. APPL
University of Oklahoma, Norman, Okla.

THE first of Eqs. (2) was inadvertently omitted and the second one was incorrect. The corrected Eqs. (2) are as follows:

$$(\psi - \nabla^2\psi)_{,\rho} = -2(1 - \nu)(\nabla^2\Phi/\rho)_{,\theta}$$

$$\rho^{-1}(\psi - \nabla^2\psi)_{,\theta} = 2(1 - \nu)(\nabla^2\Phi)_{,\rho}$$

Also, in the sentence following Eq. (5) and in the sentence preceding Eq. (9), Eq. (2) should read Eqs. (2).
