

Acknowledgments with Gratitude

AS I complete twelve years of intensive activity in the AIAA publications arena—Associate Editor of *Astronautics and Aerospace Engineering*, 1963, Editor-in-Chief of the *Journal of Spacecraft and Rockets*, 1964–70, and Vice President, 1971–74—I take this opportunity to thank all those with whom I have worked. Particular expressions of appreciation go to Ruth Bryans (Director, Scientific Publications) and Anne Huth (Managing Editor, Scientific Publications), with whom I worked so many years with such great satisfaction on the journals, and to John Newbauer (A/A Editor-in-Chief), my first boss on the A/AE job. In the last year it has also been a pleasure to work with “the new boy on the block,” as that inimitable “mover and shaker” Dave Staiger has called himself. To them and their staffs, as well as their boss, Jim Harford, my warm thanks.

The previous Vice Presidents—Publications—Martin Summerfield, who first got me involved, taught me a good deal, and has

continued as Series Editor of the Progress Series and a real stalwart on the Publications Committee; Bob Gross, who continues as Series Editor of the Selected Reprint Series; and Jerry Grey (now Administrator, Technical Activities), who accomplishes so much with energy and good humor and has also continued on the Publications Committee—it was an honor and privilege to follow in their footsteps.

To the journal Editors-in-Chief who bore with me and Ruth through the ups-and-downs related to possible use of author-prepared copy, “miniprints,” and other schemes—George Sutton (*AIAA Journal*), Carl Schmidt (deceased, *J. Aircraft*), John Breslin (*J. Hydronautics*), Ralph Ragan (*J. Spacecraft and Rockets*), Allen Fuhs (*J. Aircraft*), and, earlier, Leo Steg (*AIAA Journal*)—thanks for hanging in there with steady hands, fellows. I cannot forego a chance to express again my gratitude to those who worked with me as Associate Editors on *JSR* (1964–70)—Robert Fischell, Donald Fraser (now Editor-in-Chief of *JSR*), Francis French, David Garber, Herbert Goda, Henry Gurin, John Houbolt, Eugene Love, William Mickelsen (deceased), Bernard Miller, John Miller, Ralph Ragan, Harry Runyan, Arvin Smith, and Yusef Yoler.

Next, the unsung heroes of the AIAA publications world, who have held us on course through many trials and tribulations and some very memorable meetings but have received very little public credit for it—the Publications Committee Members. Table 1 lists those who have served with me during the past four years. Many thanks to each of them.

Finally, as my wife (Mary Louise) and secretary (Jackie Hentgen) breathe sighs of relief after their own long and much appreciated participation, I could think of no one to whom I could pass the reigns of this office with greater confidence and satisfaction than good old “R³,” Ralph R. Ragan. Best wishes, Ralph!

Gordon L. Dugger
Vice President—Publications, 1971–74
