Books Reviewed During 1994

Supercomputing in Fluid Flow, by T. K. S. Murthy and C. A. Brebbia, *Computational Mechanics Publications* (**32,** 4, p. 889); reviewed by P. Hartwich.

The Behavior of Shells Composed of Isotropic and Composite Materials, by J. R. Vinson, *Kluwer* (**32,** 4, p. 890); reviewed by C. W. Bert.

Mechanics of Composite Structures, by V. V. Vasiliev, *Taylor & Francis* (**32,** 5, p. 1107); reviewed J. N. Reddy.

Turbulence Modeling for CFD, by D. C. Wilcox, *DCW Industries* (**32,** 6, p. 1339); reviewed by J. G. Marvin.

Computational Aeroacoustics, by J. C. Hardin and M. Y. Hussaini, *Springer-Verlag* (**32,** 7, p. 1555); reviewed by W. Eversman.

Computational Modelling for Fluid Flow and Interfacial Transport, by W. Shyy, *Elsevier Science Publishers* (**32,** 8, p. 1746); reviewed by P. Roe.

Advances in Hypersonics, Vol. 1: Defining the Hypersonic Environment, by J. J. Bertin, J. Periaux, and J. Ballman, *Birkhauser Boston* (**32,** 10, p. 2137); reviewed by H. K. Cheng.

Advances in Turbulence IV, edited by F. T. M. Nieuwstadt, *Kluwer Academic Publishers* (32, 12, p. 2492); reviewed by J. F. Foss.
