Internal Ballistic Model for Spinning Star-Grain Motors

D. R. Greatrix
Ryerson Polytechnic University, Toronto, Ontario M5B 2K3, Canada

[J. Propulsion and Power, 12(3), pp. 612–613 (1996)]

FIGURE 3 was mistakenly used for Fig. 1. Both figures are shown herewith in their correct form.

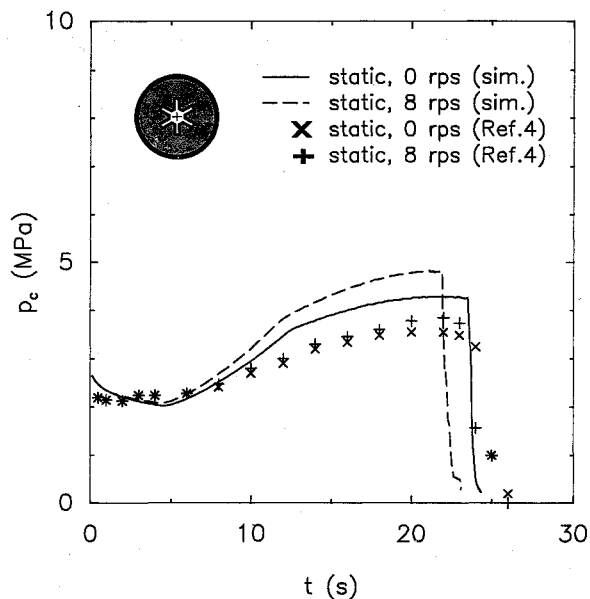

Fig. 1 Predicted pressure-time histories for static firing of motor A, with comparison to firing data of Ref. 4.

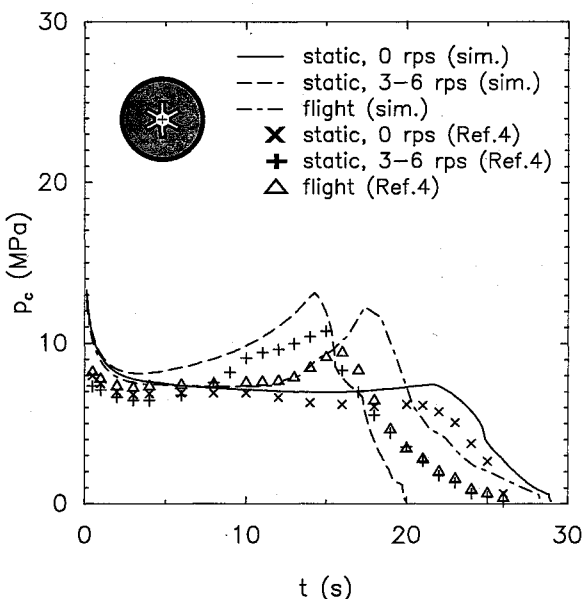

Fig. 3 Predicted pressure-time histories for static and in-flight firing of motor B, with comparison to firing data of Ref. 4.

AIAA regrets the error.
