Laser Propulsion System for Space Vehicles

Aviad Brandstein
Israeli Air Force, Israel
and

Yeshayahou Levy
Technion—Israel Institute of Technology, Technion City, Haifa 32000, Israel

[J. Propulsion and Power, 14(2), pp. 261–269 (1998)]

FIGURE 2 was mistakenly used for Fig. 1. Both figures are shown herewith in their correct form.

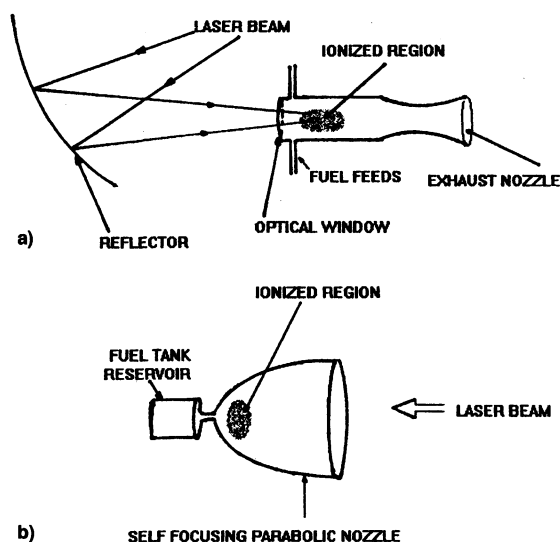

Fig. 1 Laser propulsion system modes of operation: a) continuous wave laser powered and b) repetitively pulsed laser powered.

AIAA regrets the error.

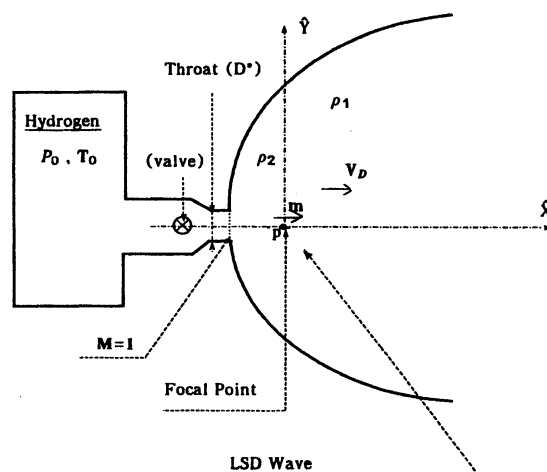

Fig. 2 Schematic of a laser engine.
