[J. Thermophysics and Heat Transfer, 9(3), pp. 403–409 (1995)]

A TYPOGRAPHICAL error was found in Eq. (5) in the lower limit of the summation over the index k in the original paper. The correct equation follows:

$$C_s^\sigma = \frac{2\lambda}{\pi} \sum_{j=1}^{N_0} \sum_{k=1}^{N_0} \sum_{n=-\infty}^{\infty} \sum_{s=-\infty}^{\infty} \exp\{i(n-s)(\gamma_{kj} - \pi/2)\} J_{s-n}(l_0 R_{kj}) \{b_{jn}^\sigma b_{ks}^{\sigma*} + a_{jn}^\sigma a_{ks}^{\sigma*}\} \quad (5)$$
