AIChE Symposium Series

Recent Studies

176. Fluidization: Application to Coal Conversion Processes.

The papers in this volume deal with recent studies on the mechanics of fluidized bed and conversion processing techniques. Fundamental aspects of fluid particle systems, particularly large particle fluidization systems, are also covered.

1978. 242 pp. AIChE members, \$7.50; nonmembers, \$20

177. Energy and Environmental Concerns in the Forest Products Industry. The needs of the forest products industry to the year 2000, the challenge of energy and environmental pressures to the chemical engineer, energy conservation, and the impact of environmental pressure on practices and processes are the major topics in this volume.

1978. 131 pp. AIChE members, \$7.50; nonmembers, \$20

178. Water—1977. This volume consists of papers dealing with toxic material control, biological waste water treatment, electric power generating plant waste water treatment, physical chemical processes, ozone and radiation destruction of contaminants, disinfection and odor control, air flotation, and other topics.

1978. 315 pp. AIChE members, \$7; nonmembers, \$20
