

AIChE JOURNAL

MARCH 1980 • VOL. 26, NO. 2

The AIChE Journal, a publication of the American Institute of Chemical Engineers, is devoted to fundamental research and developments having immediate or potential value in chemical engineering.

PUBLISHER

J. C. Forman

PUBLICATIONS DIRECTOR

Larry Resen

EDITOR

Robert H. Kadlec

PRODUCTION EDITOR

Publication Office, 215 Canal Street, Manchester, New Hampshire. Published in January, March, May, July, September, and November by the American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017. (ISSN 0001-1541) Manuscripts should be submitted to Robert H. Kadlec, Editorial Offices, Room 3036, East Engineering Building, The University of Michigan, Ann Arbor, Michigan 48109. Statements and opinions in the AIChE Journal are those of the contributors, and the American Institute of Chemical Engineers assumes no responsibility for them. Subscription: one year, \$70; special member rate, \$12; additional yearly postage, Canada \$4.00, Pan American Union \$5.00, other foreign \$5.00 (foreign subscriptions payable in advance). Single copies: \$16.50. Second-class postage paid at New York, N. Y. and additional mailing offices. Copyright 1980 by the American Institute of Chemical Engineers. National headquarters of AIChE is concerned about nondelivery of copies of the AIChE Journal and urgently requests subscribers to give prompt notification of any change of address. Sixty days must be allowed for changes to be made in the records.

Postmaster: Please send form 3579 to AIChE Journal, 345 East 47 Street, New York, N. Y. 10017.

AIChE Symposium Series

Recent Studies

S-193. Design, Control and Analysis of Crystallization Processes. The work presented in this volume broadly divides into two themes, namely design-analysis-control and crystallization kinetics. The work reported is current and accurately reflects on-going academic research efforts in crystallization.

1980. 97 pp. AIChE members, \$7.50; nonmembers, \$20

S-194. Hazardous Chemicals—Spills and Waterborne Transportation. This volume is comprised of papers presented at the AIChE 87th National Meeting in Boston in conjunction with the U.S. Coast Guard. The papers consist of methods in dealing with hazardous chemical spills, waterborne transportation of hazardous chemicals and synthetic and wire ropes for ocean systems

1980. 147 pp. AIChE members, \$8.50; nonmembers, \$20

S-195. The Role of Chemical Engineering in Utilizing the Nation's Forest Resources. The principal goal of this volume is to bring together some of the latest technology available to chemical engineers for improved utilization of our nation's forest resources. They include computer simulation in evaluating harvesting systems, and laminated-veneer lumber made from plantation-grown conifers.

1980. 120 pp. AIChE members, \$7.50; nonmembers, \$20

Order from American Institute of Chemical Engineers, 345 East 47 Street, New York, New York 10017.
