

# Errata

The following incorrect statement appears on page 756 (April 2004) of our article entitled “Thermodynamics of Fluid-Phase Equilibria for Standard Chemical-Engineering Operations: 50 Years of Progress” by John M. Prausnitz and Frederico W. Tavares: Figure 30 shows a successful example of Klamt’s COSMOSAC model for vapor-liquid equilibria in the benzene-N-methyl formamide system (Lin and Sandler, 2002). The correct statement should be as follows: Figure 30 shows a successful example for vapor-liquid equilibria for the benzene-N-methyl formamide system using the Lin and Sandler (2000) COSMOSAC variant of Klamt’s COSMO-RS model. We thank Dr. Andreas Klamt for bringing this oversight to our attention.
