

Erratum

For “Impact of Deposit Ageing on Thermal Fouling: Lumped Parameter Model” by Ishiyama et al. (DOI: 10.1002/aic.11978, pp. 531–545, February 2010), the authors request the following erratum:

On page 545, Eq. B2

$$v_1 \frac{\lambda_1 - \lambda_e}{\lambda_1 - 2\lambda_e} + v_2 \frac{\lambda_2 - \lambda_e}{\lambda_2 - 2\lambda_e} = 0 \quad (\text{B2})$$

should read

$$v_1 \frac{\lambda_1 - \lambda_e}{\lambda_1 + 2\lambda_e} + v_2 \frac{\lambda_2 - \lambda_e}{\lambda_2 + 2\lambda_e} = 0 \quad (\text{B2-R})$$

All calculations in Table A1 on page 544 were performed using Eq. B2-R.

Equation B2-R is the original equation as appears in the reference by Wang et al. (2008). “A New Structural Model of Effective Thermal Conductivity for Heterogeneous Materials with Co-Continuous Phases” *Int J Heat Mass Transfer*. 2008;51:2389–2397.
