

Erratum

In “A New Framework and a Simpler Method for the Development of Batch Crystallization Recipes” (Ward et al., March 2011, pp. 606–617, DOI 12284), the curves in some of the figures cannot be easily identified, making the figures difficult to interpret. In Figures 1–8, the curves/lines correspond to the following colors:

Curve/Line	Color
optimal trajectory	red
constant growth rate trajectory	green
Mullin-Nyvtl trajectory	blue
linear concentration trajectory	black

The authors apologize for this inconvenience.
