ADVANCED FUNCTIONAL MATERIALS

An abstract illustration featuring several orange, textured, 3D-like structures against a dark blue background. One structure is a long, wavy, ribbon-like form. Another is a larger, more complex shape with a grid of dark brown dots on its surface. A third structure is a series of rounded, bulbous shapes. These orange structures are surrounded by numerous small, white, Y-shaped or star-shaped molecular models, some of which are highlighted with a bright blue glow.
