

## CONTRIBUTORS

Numbers in parentheses indicate the pages on which the author's contributions begin.

- B. R. BAKSHI, *Department of Chemical Engineering, Ohio State University, Columbus, Ohio 43210* (1)
- LI CHENGYUE, *Department of Chemical Engineering, Beijing University of Chemical Technology, Beijing, 100029, China* (205)
- J. F. DAVIS, *Department of Chemical Engineering, Ohio State University, Columbus, Ohio 43210* (1)
- P. DEROUSSEL, *Department of Chemical Engineering, Northwestern University, Evanston, Illinois 60208* (105)
- S. HANSEN, *Department of Chemical Engineering, Northwestern University, Evanston, Illinois 60208* (105)
- K. A. HOO, *Department of Chemical Engineering, Swearingen Engineering Center, University of South Carolina, Columbia, South Carolina 29208* (1)
- D. V. KHAKHAR, *Department of Chemical Engineering, Northwestern University, Evanston, Illinois 60208* (105)
- J. M. OTTINO, *Department of Chemical Engineering, Northwestern University, Evanston, Illinois 60208* (105)
- M. J. PIOVOSO, *Dupont, Wilmington, Delaware 19880* (1)
- PETER L. SILVESTON, *Department of Chemical Engineering, University of Waterloo, Waterloo, Ontario, Canada* (205)
- YUAN WEI-KANG, *Department of Chemical Engineering, East China University of Chemical Technology, Shanghai 201107, China* (205)
