

# Letters to the editor

Letters received from readers in response to articles and ideas published in *ANS* will be regularly featured in future issues, providing an opportunity for constructive critique, discussion, disagreement and comment intended to stimulate the development of nursing science. Unless otherwise stated, we will assume that letters addressed to the editor are intended for publication with your name and affiliation. As many letters as possible will be published. When space is limited and we cannot publish all letters received, we will select letters reflecting the range of opinions and ideas received. If a letter merits a response from an *ANS* author or Open Forum participant, we will obtain a reply and publish both letters.

Letters should be addressed to:
