

# Letters to the editor

*Letters received from readers in response to articles and ideas published in ANS will be regularly featured in future issues, providing an opportunity for constructive critique, discussion, disagreement and comment intended to stimulate the development of nursing science. Unless otherwise stated, we will assume that letters addressed to the editor are intended for publication with your name and affiliation. As many letters as possible will be published. When space is limited and we cannot publish all letters received, we will select letters reflecting the range of opinions and ideas received. If a letter merits a response from an ANS author or Open Forum participant, we will obtain a reply and publish both letters.*

*Letters should be addressed to:*

## CONGRATULATIONS

*To the Editor:*

Many congratulations on your new journal. The first issue was really super and I think of it as a nursing textbook. We have ordered multiple copies here in the health science center.
