

Highlights

Natural Products

Total Syntheses of (+)-Haplophytine

E. Doris

Nanostructures

All-Inorganic Nanocrystal Arrays

S. L. Brock

Essays

Molecular Recognition

What is Cooperativity?

C. A. Hunter and H. L. Anderson

Minireviews

MOFs in Catalysis

Metal–Organic Frameworks:
Opportunities for Catalysis

D. Farrusseng et al.

Reviews

Fullerene Chemistry

Chemical, Electrochemical, and Structural
Properties of Endohedral
Metallofullerenes

L. Echegoyen et al.

Communications

Droplet Microarrays

In Situ Assembly and Screening of
Enzyme Inhibitors with Surface-Tension
Microarrays (**Cover Picture**)

M. Y. Balakirev et al.

Natural Product Synthesis

Total Synthesis of (+)-Haplophytine

T. Fukuyama, H. Tokuyama et al.

Functional Nanoparticles

Biocompatible Functionalized
Polyglycerol Microgels with Cell
Penetrating Properties

R. Haag et al.

Natural Product Synthesis

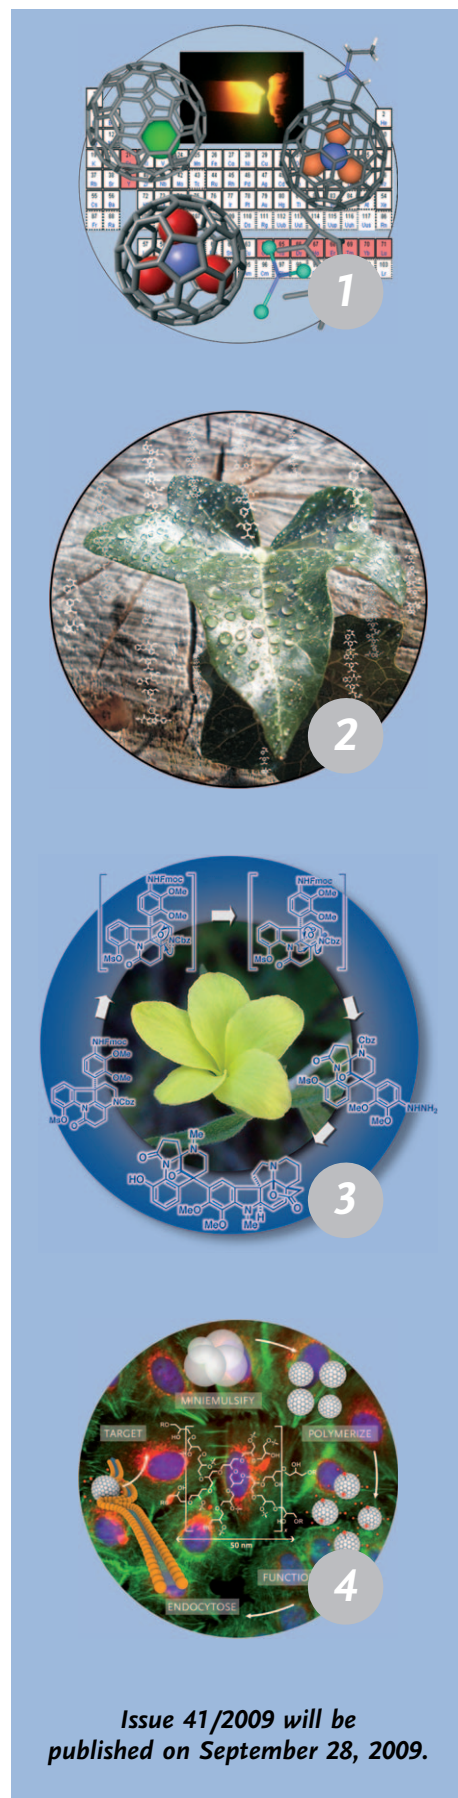

Total Synthesis of (+)-Haplophytine

K. C. Nicolaou, D. Y.-K. Chen et al.

Copper Catalysis

Discrimination of Diazo Compounds
Toward Carbenoids: Copper(I)-Catalyzed
Synthesis of Substituted Cyclobutenes

J. Barluenga et al.

Issue 41/2009 will be
published on September 28, 2009.
