

Corrigendum

Seppelt's compound **3** should be $\text{F}_3\text{C}-\text{C}\equiv\text{SF}_3$ and not $\text{F}_3\text{S}-\text{C}\equiv\text{SF}_3$. The corrected Scheme 1 is shown here. The authors apologize for this oversight.

A Formal Carbon–Sulfur Triple Bond:
 $\text{H}-\text{C}\equiv\text{S}-\text{O}-\text{H}$
