

Erratum of cytotoxicity by stabilization: an improved method for enhancing drugs

Jrben Skovsgaard and Lluís M Mir
rugs 1998; 9: 319-25.

date in Figure 1 of this paper was incorrectly
indicated, the control values start at 100% and the
dashed line shows the 90% cell survival level. The
authors apologize for any inconvenience caused.

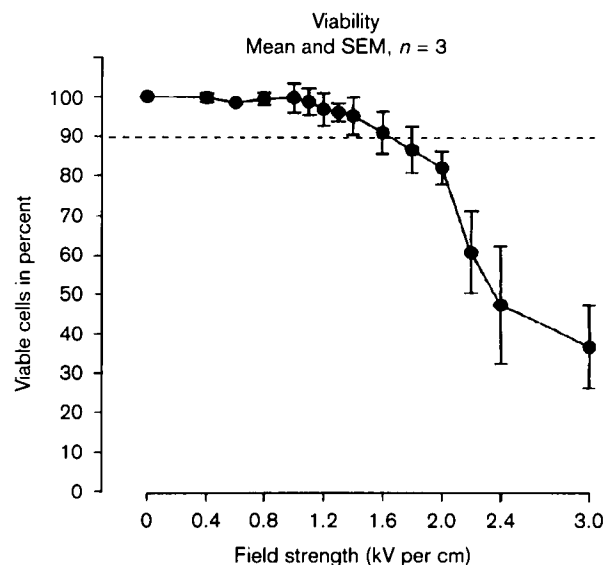

Figure 1. Viability as a function of field strength, expressed as percent of control. Means \pm SEM of $n=3$ independent experiments.
