

CONTENTS OF VOLUME 2

Nos. 1/2, May 1982

<i>Editorial</i>	1
<i>D. Armerding, M. Scriba, A. Hren and H. Rossiter</i> Modulation by cyclosporin A of murine natural resistance against herpes simplex virus infection. I. Interference with the susceptibility to herpes simplex virus infection	3
<i>D. Armerding, M. Scriba, H. Kirchner, A. Hren and H. Rossiter</i> Modulation by cyclosporin A of murine natural resistance against herpes simplex virus infection. II. Influence on the HSV-induced natural killer cell responses, macrophage activities and interferon levels	13
<i>J.T. Richards, E.R. Kern, J.C. Overall, Jr. and L.A. Glasgow</i> Anti-herpesvirus activity of adenine arabinoside analogues in tissue culture and a genital infection of mice and guinea pigs	27
<i>J. Reefschläger, D. Bärwolff, P. Engelmann, P. Langen and H.A. Rosenthal</i> Efficiency and selectivity of (E)-5-(2-bromovinyl)-2'-deoxyuridine and some other 5-substituted 2'-deoxypyrimidine nucleosides as anti-herpes agents	41
<i>H.K. Narang</i> Pathological findings of adenine arabinoside (ara-A) and cytarabine (ara-C) in the treatment of herpes simplex encephalitis in rabbit model	53
<i>W.C. Koff, J.L. Elm, Jr. and S.B. Halstead</i> Antiviral effects of ribavirin and 6-mercapto-9-tetrahydro-2-furypurine against dengue viruses in vitro	69
<i>B. Eriksson, G. Stening and B. Öberg</i> Inhibition of reverse transcriptase activity of avian myeloblastosis virus by pyrophosphate analogues	81
<i>M. De Ley and A. Billiau</i> Responsiveness of human cells trisomic for chromosome 21 to the antiviral action of human immune interferon	97
<i>F.H. Sarkar</i> Pharmacokinetic comparison of leukocyte and <i>Escherichia coli</i> -derived human interferon type alpha	103
<i>Book reviews</i>	107

No. 3, August 1982

<i>Editorial</i>	113
<i>L.A. Angelova and Z.R. Angelov</i> Upper respiratory tract epithelial cells as a component of local immunity against influenza	115
<i>H.S. Allaudeen, J. Descamps and R.K. Sehgal</i> Mode of action of acyclovir triphosphate on herpesviral and cellular DNA polymerase	123
<i>T.J. Hill, W.A. Blyth and D.A. Harbour</i> Recurrent herpes simplex in mice; topical treatment with acyclovir cream	135
<i>F.G. Hayden, D.M. Zylidnikov, V.I. Iljenko and Y. V. Padolka</i> Comparative therapeutic effect of aerosolized and oral rimantadine HCl in experimental human influenza A virus infection	147
<i>Y. Kawade, M. Aguet and M.G. Tovey</i> Antigenic correlations between components of C243 and L cell interferons	155
<i>A. Fuse, S. Handa and T. Kuwata</i> Effect of glycolipids and glycophorin on the activity of human interferon- β and - γ	161
<i>M. Huleihel and M. Aboud</i> Effect of mouse interferon on retrovirus production by chronically infected rat cells	167

No. 4, September 1982

<i>H.-D. Klenk and R.T. Schwarz</i> Viral glycoprotein metabolism as a target for antiviral substances	177
<i>A.C. Chanas, D.S. Ellis, S. Stamford and E.A. Gould</i> The interaction of monoclonal antibodies directed against envelope glycoprotein E ₁ of Sindbis virus with virus-infected cells	191
<i>L.B. Allen, L.K. Vanderslice, C.M. Fingal, F.H. McCright, E.F. Harris and P.D. Cook</i> Evaluation of the anti-herpesvirus drug combinations: Virazole plus arabinofuranosylhypoxanthine and Virazole plus arabinofuranosyladenine	203
<i>H. Machida, S. Sakata, M. Morozumi, T. Kiyanagi, A. Kuninaka and H. Yoshino</i> Comparison of the in vitro and in vivo anti-herpes activities of 1- β -D-arabinofuranosylthymine and its 5'-monophosphate	217
<i>A. Zerial, A.G. Hovanessian, S. Stefanos, K. Huygen, G.H. Werner and E. Falcoff</i> Synergistic activities of type I ($\alpha\beta$) and type II (γ) murine interferons	227

No. 5, October 1982

H.J. Field and J. Neden

- Isolation of bromovinyldeoxyuridine-resistant strains of herpes simplex virus and successful chemotherapy of mice infected with one such strain by using acyclovir 243

J. Reefschläger, P. Wutzler, K.-D. Thiel, D. Bärwolff, P. Langen, M. Sprössig and H.A. Rosenthal
Efficacy of (E)-5-(2-bromovinyl)-2'-deoxyuridine against different herpes simplex virus strains in cell culture and against experimental herpes encephalitis in mice 255

M.J. Otto, J.J. Lee and W.H. Prusoff

- Effects of nucleoside analogues on the expression of herpes simplex type 1-induced proteins 267

V.A. Hatcher, A.E. Friedman-Kien, E.L. Marcus and R.J. Klein

- Arabinosyladenine monophosphate in genital herpes: A double-blind, placebo-controlled study 283

M.B. Vasudevachari and A. Anthony

- Inhibition of avian myeloblastosis virus reverse transcriptase and virus inactivation by metal complexes of isonicotinic acid hydrazide 291

H. Otsuka, H. Qavi and S. Kit

- Inhibition by interferon of biochemical transformation induced by cloned herpesvirus thymidine kinase genes 301

H. Schellekens, P.M.C.A. van Eerd, A. de Reus, P.K. Weck and N. Stebbing

- Antiviral and side effects of interferons produced by recombinant DNA techniques as tested in rhesus monkeys 313

No. 6, December 1982

A.F. Markham, C.R. Newton, R.A. Porter and I.S. Sim

- Synthesis of some 5'-amino-2',5'-dideoxy-5-iodouridine derivatives and their antiviral properties against herpes simplex virus 319

P.G. Canonico, P.B. Jahrling and W.L. Pannier

- Antiviral efficacy of pyrazofurin against selected RNA viruses 331

E.C. Herrmann, Jr., J.A. Herrmann and D.C. Delong

- Prevention of death in mice infected with coxsackievirus A16 using guanidine HCl mixed with substituted benzimidazoles 339

M. Trudel, F. Nadon, R. Comtois, M. Ravaoarinoro and P. Payment

- Antibody response to rubella virus proteins in different physical forms 347

O. Sasaki, Y. Kuroji, A. Kuroda, T. Karaki, K. Takenokuma and O. Maeda

- Protection of pigs against mosquito-borne Japanese encephalitis virus by immunization with a live attenuated vaccine 355

J. Abb, H. Abb and F. Deinhardt

Effect of cyclosporin A on the production of interferon by human peripheral blood leukocytes in vitro 361
