

AUTHOR INDEX

- Abb, H., see Abb, J., 361
- Abb, J., Abb, H. and Deinhardt, F.
Effect of cyclosporin A on the production of interferon by human peripheral blood leukocytes in vitro, 361
- Aboud, M., see Huleihel, M., 167
- Aguet, M., see Kawade, Y., 155
- Allaudeen, H.S., Descamps, J. and Sehgal, R.K.
Mode of action of acyclovir triphosphate on herpesviral and cellular DNA polymerases, 123
- Allen, L.B., Vanderslice, L.K., Fingal, C.M. McCright, F.H., Harris, E.F. and Cook, P.D.
Evaluation of the anti-herpesvirus drug combinations: Virazole plus arabinofuranosyl-hypoxanthine and Virazole plus arabinofuranosyladenine, 203
- Angelov, Z.R., see Angelova, L.A., 115
- Angelova, L.A. and Angelov, Z.R.
Upper respiratory tract epithelial cells as a component of local immunity against influenza, 115
- Antony, A., see Vasudevachari, M.B., 291
- Armerding, D., Scriba, M., Hren, A. and Rossiter, H.
Modulation of cyclosporin A of murine natural resistance against herpes simplex virus infection. I. Interference with the susceptibility to herpes simplex virus infection, 3
- Armerding, D., Scriba, M., Kirchner, H., Hren, A. and Rossiter, H.
Modulation by cyclosporin A of murine natural resistance against herpes simplex virus infection. II. Influence on the HSV-induced natural killer cell response, macrophage activities and interferon levels, 13
- Bärwolff, D., see Reefschläger, J., 41
- Bärwolff, D., see Reefschläger, J., 255
- Billiau, A., see De Ley, M., 97
- Blyth, W.A., see Hill, T.J., 135
- Canonica, P.G., Jahrling, P.B. and Pannier, W.L.
Antiviral efficacy of pyrazofurin against selected RNA viruses, 331
- Chanas, A.C., Ellis, D.S., Stamford, S. and Gould, E.A.
The interaction of monoclonal antibodies directed against envelope glycoprotein E₁ of sindbis virus with virus-infected cells, 191
- Comtois, R., see Trudel, M., 347
- Cook, P.D., see Allen, L.B., 203
- De Ley, M. and Billiau, A.
Responsiveness of human cells trisomic for chromosome 21 to the antiviral action of human immune interferon, 97
- De Reus, A., see Schellekens, H., 313
- Deinhardt, F., see Abb, J., 361
- Delong, D.C., see Herrmann, E.C., Jr., 339
- Ellis, D.S., see Chanas, A.C., 191
- Elm, J.L., Jr., see Koff, W.C., 69
- Engelmann, P., see Reefschläger, J., 41
- Eriksson, B., Stening, G. and Öberg, B.
Inhibition of reverse transcriptase activity of avian myeloblastosis virus by pyrophosphate analogues, 81
- Falcoff, E., see Zerial, A., 227
- Field, H.J. and Neden, J.
Isolation of bromovinyldeoxyuridine-resistant strains of herpes simplex virus and successful chemotherapy of mice infected with one such strain by using acyclovir, 243
- Fingal, C.M., see Allen, L.B., 203
- Friedman-Kien, A.E., see Hatcher, V.A., 283
- Fuse, A., Handa, S. and Kuwata, T.
Effect of glycolipids and glycophorin on the activity of human interferon- β and - γ , 161

- Glasgow, L.A., see Richards, J.T., 27
- Gould, E.A., see Chanas, A.C., 191
- Halstead, S.B., see Koff, W.C., 69
- Handa, S., see Fuse, A., 161
- Harbour, D.A., see Hill, T.J., 135
- Harris, E.F., see Allen, L.B., 203
- Hatcher, V.A., Friedman-Kien, A.E., Marcus, E.L. and Klein, R.J.
Arabinoxyladenine monophosphate in genital herpes: a double-blind, placebo-controlled study, 283
- Hayden, F.G., Zylidnikov, D.M., Iljenko, V.L. and Padolka, Y.V.
Comparative therapeutic effect of aerosolized and oral rimantadine HCl in experimental human influenza A virus infection, 147
- Herrmann, E.C., Jr., Herrmann, J.A. and DeLong, D.C.
Prevention of death in mice infected with coxsackievirus A16 using guanidine HCl mixed with substituted benzimidazoles, 339
- Herrmann, J.A., see Herrmann, E.C., Jr., 339
- Hill, T.J., Blyth, W.A. and Harbour, D.A.
Recurrent herpes simplex in mice: topical treatment with acyclovir cream, 135
- Hovanesian, A.G., see Zerial, A., 227
- Hren, A., see Armerding, D., 3
- Hren, A., see Armerding, D., 13
- Huleihel, M. and Aboud, M.
Effect of mouse interferon on retrovirus production by chronically infected rat cells, 167
- Huygen, K., see Zerial, A., 227
- Iljenko, V.I., see Hayden, F.G., 147
- Jahrling, P.G., see Canonico, P.G., 331
- Karaki, T., see Sasaki, O., 355
- Karoji, Y., see Sasaki, O., 355
- Kawade, Y., Aguet, M. and Tovey, M.G.
Antigenic correlations between components of C243 and L cell interferons, 155
- Kern, E.R., see Richards, J.T., 27
- Kirchner, H., see Armerding, D., 13
- Kit, S., see Otsuka, H., 301
- Kiyanagi, T., see Machida, H., 217
- Klein, R.J., see Hatcher, V.A., 283
- Klenk, H.-D. and Schwarz, R.T.
Viral glycoprotein metabolism as a target for antiviral substances, 177
- Koff, W.C., Elm, J.L., Jr. and Halstead, S.B.
Antiviral effects of ribavirin and 6-mercaptopurine against dengue viruses in vitro, 69
- Kuninaka, A., see Machida, H., 217
- Kuroda, A., see Sasaki, O., 355
- Kuwata, T., see Fuse, A., 161
- Langen, P., see Reefschläger, J., 41
- Langen, P., see Reefschläger, J., 255
- Lee, J.J., see Otto, M.J., 267
- Machida, H., Sakata, S., Morozumi, M., Kiyanagi, T., Kuninaka, A. and Yoshino, H.
Comparison of the in vitro and in vivo anti-herpes activities of 1- β -D-arabinofuranosylthymine and its 5'-monophosphate, 217
- Maeda, O., see Sasaki, O., 355
- Marcus, E.L., see Hatcher, V.A., 283
- Markham, A.F., Newton, C.R., Porter, R.A. and Sim, I.S.
Synthesis of some 5'-amino-2',5'-dideoxy-5-iodouridine derivatives and their antiviral properties against herpes simplex virus, 319
- McCright, F.H., see Allen, L.B., 203
- Morozumi, M., see Machida, H., 217
- Nadon, F., see Trudel, M., 347
- Narang, H.K.
Pathological findings of adenine arabinoside (ara-A) and cytarabine (ara-C) in the treatment of herpes simplex encephalitis in rabbit model, 53
- Neden, J., see Field, H.J., 243
- Newton, C.R., see Markham, A.F., 319
- Öberg, B., see Eriksson, B., 81
- Otsuka, H., Qavi, H. and Kit, S.
Inhibition by interferon of biochemical transformation induced by cloned herpesvirus thymidine kinase genes, 301
- Otto, M.J., Lee, J.J. and Prusoff, W.H.
Effects of nucleoside analogues on the expression of herpes simplex type 1-induced proteins, 267
- Overall, J.C., Jr., see Richards, J.T., 27

- Padolka, Y.V., see Hayden, F.G., 147
- Pannier, W.L., see Canonico, P.G., 331
- Payment, P., see Trudel, M., 347
- Porter, R.A., see Markham, A.F., 319
- Prusoff, W.H., see Otto, M.J., 267
- Qavi, H., see Otsuka, H., 301
- Ravaoarino, M. see Trudel, M., 347
- Reefschläger, J., Bärwolff, D., Engelmann, P.,
Langen, P. and Rosenthal, H.A.
Efficiency and selectivity of (*E*)-5-(2-bromo-
vinyl)-2'-deoxyuridine and some other 5-
substituted 2'-deoxypyrimidine nucleosides
as anti-herpes agents, 41
- Reefschläger, J., Wutzler, P., Thiel, K.-D., Bär-
wolff, D., Langen, P., Sprössig, M. and Ro-
senthal, H.A.
Efficacy of (*E*)-5-(2-bromovinyl)-2'-deoxy-
uridine against different herpes simplex virus
strains in cell culture and against experiment-
al herpes encephalitis in mice, 255
- Richards, J.T., Kern, E.R., Overall, J.C., Jr. and
Glasgow, L.A.
Anti-herpesvirus activity of adenine arabin-
oside analogues in tissue culture and a genital
infection of mice and guinea pigs, 27
- Rosenthal, H.A., see Reefschläger, J., 41
- Rosenthal, H.A., see Reefschläger, J., 255
- Rossiter, H., see Armerding, D., 3
- Rossiter, H., see Armerding, D., 13
- Sakata, S., see Machida, H., 217
- Sarkar, F.H.
Pharmacokinetic comparison of leukocyte
and *Escherichia coli*-derived human inter-
feron type alpha, 103
- Sasaki, O., Karoji, Y., Kuroda, A., Karaki, T.,
Takenokuma, K. and Maeda, O.
Protection of pigs against mosquito-borne
Japanese encephalitis virus by immunization
with a live attenuated vaccine, 355
- Schellekens, H., Van Eerd, P.M.C.A., De Reus,
A., Weck, P.K. and Stebbing, N.
Antiviral and side effects of interferons
produced by recombinant DNA techniques
as tested in rhesus monkeys, 313
- Schwarz, R.T., see Klenk, H.-D., 177
- Scriba, M., see Armerding, D., 3
- Scriba, M., see Armerding, D., 13
- Sehgal, R.K., see Allaudeen, H.S., 123
- Sim, I.S., see Markham, A.F., 319
- Sprössig, M., see Reefschläger, J., 255
- Stamford, S., see Chanas, A.C., 191
- Stebbing, N., see Schellekens, H., 313
- Stefanos, S., see Zerial, A., 227
- Stening, G., see Eriksson, B., 81
- Takenokuma, K., see Sasaki, O., 355
- Thiel, K.-D., see Reefschläger, J., 255
- Tovey, M.G., see Kawade, Y., 155
- Trudel, M., Nadon, F., Comtois, R., Ravaoari-
noro, M. and Payment, P.
Antibody response to rubella virus proteins
in different physical forms, 347
- Van Eerd, P.M.C.A., see Schellekens, H., 313
- Vanderslice, L.K., see Allen, L.B., 203
- Vasudevachari, M.B. and Antony, A.
Inhibition of avian myeloblastosis virus re-
verse transcriptase and virus inactivation by
metal complexes of isonicotinic acid hydraz-
ide, 291
- Weck, P.K., see Schellekens, H., 313
- Werner, G.H., see Zerial, A., 227
- Wutzler, P., see Reefschläger, 255
- Yoshino, H., see Machida, H., 217
- Zerial, A., Hovanessian, A.G., Stefanos, S.,
Huygen, K., Werner, G.H. and Falcoff, E.
Synergistic activities of type I (α, β) and
type II (γ) murine interferons, 227
- Zyldnikov, D.M., see Hayden, F.G., 147
