

## Announcement

### International Society for Antiviral Research

The International Society for Antiviral Research (ISAR) was organized and incorporated as a not for profit, tax-exempt organization in May 1987. The purpose of the Society is to aid the promotion and advancement of scientific knowledge among international investigators working in all areas of antiviral research. To further progress towards this goal, the ISAR organizes and sponsors an annual or biennial meeting and has arranged for the journal, *Antiviral Research*, to be the 'official publication of the Society'. ISAR members are eligible for a special subscription rate of U.S. \$40.00 per year for the journal and an order form will be sent to them upon receipt of their application and dues.

The Society sponsored the Second International Conference on Antiviral Research last year in Williamsburg, Virginia which had 425 participants and 160 scientific presentations. The Third International Conference will be held in Brussels, Belgium, April 22–27, 1990 and the Fourth International Conference will be held in the spring of 1991 in New Orleans, Louisiana, U.S.A.

Membership is open to any interested person working in the field of antiviral research and applications for membership can be obtained by contacting The International Society for Antiviral Research, Earl R. Kern, Ph.D. Department of Pediatrics, Suite 653, Children's Hospital Tower, University of Alabama at Birmingham, Birmingham, AL 35294 U.S.A., Telephone: (205) 934-1990, Fax: (205) 934-8559.
