

## Contents of Volume 28

### No. 1

#### Research articles

*E.-C. Mar, C.K. Chu and J.-C. Lin*

Some nucleoside analogs with anti-human immunodeficiency virus activity inhibit replication of Epstein–Barr virus 1

*R.W. King, D.L. Winslow, S. Garber, H.T. Scarnati, L. Bachelor, S. Stack and M.J. Otto*  
Identification of a clinical isolate of HIV-1 with an isoleucine at position 82 of the protease which retains susceptibility to protease inhibitors 13

*S. Chokeijchai, T. Shirasaka, J.N. Weinstein and H. Mitsuya*  
In vitro anti-HIV-1 activity of HIV protease inhibitor KNI-272 in resting and activated cells: implications for its combined use with AZT or ddI 25

*S.L. Spruance, T.G. Evans, M.B. McKeough, L. Thai, B.A. Araneo, R.A. Daynes, E.M. Mishkin and A.S. Abramovitz*  
Th1/Th2-like immunity and resistance to herpes simplex labialis 39

*S.L. Spruance, J.D. Kriesel, T.G. Evans and M.B. McKeough*  
Susceptibility to herpes labialis following multiple experimental exposures to ultraviolet radiation 57

*J.-M. Crance, F. L  v  que, S. Chousterman, A. Jouan, C. Tr  po and R. Deloince*  
Antiviral activity of recombinant interferon-  on hepatitis A virus replication in human liver cells 69

*O.S. Lund, J.O. Nielsen and J.-E.S. Hansen*  
Inhibition of HIV-1 in vitro by C-5 propyne phosphorothioate antisense to *rev* 81

#### Short communication

*B.B. Barnett, D.F. Smee, S.M. Malek and R.W. Sidwell*  
Selective cytotoxicity towards cytomegalovirus-infected cells by immunotoxins consisting of gelonin linked to anti-cytomegalovirus antibody 93

**No. 2****Research articles**

*R.F. Azad, V. Brown-Driver, R.W. Buckheit, Jr. and K.P. Anderson*

- Antiviral activity of a phosphorothioate oligonucleotide complementary to human cytomegalovirus RNA when used in combination with antiviral nucleoside analogs 101

*H. Xie, M. Voronkov, D.C. Liotta, B.A. Korba, R.F. Schinazi, D.D. Richman and K.Y. Hostetler*

- Phosphatidyl-2',3'-dideoxy-3'-thiacytidine: synthesis and antiviral activity in hepatitis B- and HIV-1-infected cells 113

*C.W. Hendrix, B.G. Petty, A. Woods, S.K. Kuwahara, F.R. Witter, W. Soo, D.E. Griffin and P.S. Lietman*

- Modulation of  $\alpha$ -interferon's antiviral and clinical effects by aspirin, acetaminophen, and prednisone in healthy volunteers 121

*M.F. Kavlick, T. Shirasaka, E. Kojima, J.M. Pluda, F. Hui, Jr., R. Yarchoan and H. Mitsuya*

- Genotypic and phenotypic characterization of HIV-1 isolated from patients receiving (–)-2',3'-dideoxy-3'-thiacytidine 133

*H. Ghiasi, S. Cai, S. Slanina, A.B. Nesburn and S.L. Wechsler*

- Vaccination of mice with herpes simplex virus type 1 glycoprotein D DNA produces low levels of protection against lethal HSV-1 challenge 147

*D.L. Taylor, T.M. Brennan, C.G. Bridges, M.J. Mullins, A.S. Tysms, R. Jackson and A.D. Cardin*

- Potent inhibition of human immunodeficiency virus by MDL 101028, a novel sulphonic acid polymer 159

*E. Guillemard, M. Geniteau-Legendre, R. Kergot, G. Lemaire, J.F. Petit, C. Labarre and A.M. Quero*

- Role of trehalose dimycolate-induced interferon- $\alpha/\beta$  in the restriction of encephalomyocarditis virus growth in vivo and in peritoneal macrophage cultures 175

**No. 3****Research articles**

*I.B. Dicker and S. Seetharam*

- Herpes simplex type 1 : *lacZ* recombinant viruses. I. Characterization and application to defining the mechanisms of action of known antiherpes agents 191

*I.B. Dicker, J.W. Blasecki and S. Seetharam*

- Herpes simplex type 1 : *lacZ* recombinant viruses. II. Microtiter plate-based colorimetric assays for the discovery of new antiherpes agents and the points at which such agents disrupt the viral replication cycle 213

*B.E. Korba and J.L. Gerin*

- Antisense oligonucleotides are effective inhibitors of hepatitis B virus replication in vitro 225
