

Subject index

Volume 48 (2000)

Adefovir; CRPV; Papillomas; Rabbits; Cidofovir; Nucleoside analogues; Antiviral testing **48**, 131

Antiherpetic activity; *Santolina insularis*; Essential oil; Virucidal agent; HSV-1; HSV-2 **48**, 187

Antisense; Papillomavirus; Oligonucleotides; Non-specific antiviral; HPV11; HPV40 **48**, 187

Antiviral activity; Human cytomegalovirus; Protein kinase; Indolocarbazole **48**, 49

Antiviral agents; Human influenza A viruses; Avian influenza viruses **48**, 101

Antiviral; Broad spectrum; Crustaceans; Innate immunity **48**, 39

Antiviral defenses; Innate antivirals **48**, 71

Antiviral drug; Poliovirus; 5-(3,4-dichlorophenyl) methylhydantoin; Cell-free system **48**, 61

Antiviral testing; CRPV; Papillomas; Rabbits; Cidofovir; Nucleoside analogues; Adefovir **48**, 131

Avian influenza viruses; Human influenza A viruses; Antiviral agents **48**, 101

Broad spectrum; Antiviral; Crustaceans; Innate immunity **48**, 39

Carbocyclic guanosine nucleoside analogues; Hepatitis B virus (HBV); Woodchuck hepatitis virus (WHV); Lobucavir; Woodchucks (*Marmota monax*); Chronic virus infection **48**, 197

cccDNA; DHBV; Liver; Competitive PCR; Hepadnavirus **48**, 27

Cell cycle sensitivity; Hepatitis C; Interferon; Ribavirin; Immunomodulation; Interferon receptor **48**, 91

Cell-free system; Poliovirus; 5-(3,4-dichlorophenyl) methylhydantoin; Antiviral drug **48**, 61

Cell models; HIV-1 latency; Therapeutic intervention; Viral transcription **48**, 143

Chronic liver disease; Hepatitis B virus treatment; Oral tolerance; Immune response **48**, 17

Chronic virus infection; Hepatitis B virus (HBV); Woodchuck hepatitis virus (WHV); Lobucavir; Woodchucks (*Marmota monax*); Carbocyclic guanosine nucleoside analogues **48**, 197

Cidofovir; CRPV; Papillomas; Rabbits; Nucleoside analogues; Adefovir; Antiviral testing **48**, 131

Cidofovir; Parapoxvirus; Orf; Pseudocowpox; Milker's nodule **48**, 205

Coho salmon; EICAR; In vivo; Rainbow trout; IPNV therapy **48**, 125

Competitive PCR; DHBV; cccDNA; Liver; Hepadnavirus **48**, 27

CRPV; Papillomas; Rabbits; Cidofovir; Nucleoside analogues; Adefovir; Antiviral testing **48**, 131

Crustaceans; Antiviral; Broad spectrum; Innate immunity **48**, 39

DHBV; cccDNA; Liver; Competitive PCR; Hepadnavirus **48**, 27

5-(3,4-dichlorophenyl) methylhydantoin; Poliovirus; Antiviral drug; Cell-free system **48**, 61

EICAR; In vivo; Rainbow trout; Coho salmon; IPNV therapy **48**, 125

Essential oil; *Santolina insularis*; Antiherpetic activity; Virucidal agent; HSV-1; HSV-2 **48**, 177

HBV; Ribavirin; Mycophenolic acid; Transplantation **48**, 117

Hepadnavirus; DHBV; cccDNA; Liver; Competitive PCR **48**, 27

Hepatitis B virus (HBV); Woodchuck hepatitis virus (WHV); Lobucavir; Woodchucks (*Marmota monax*); Carbocyclic guanosine nucleoside analogues; Chronic virus infection **48**, 197

Hepatitis B virus treatment; Oral tolerance; Immune response; Chronic liver disease **48**, 17

Hepatitis C; Interferon; Ribavirin; Immunomodulation; Cell cycle sensitivity; Interferon receptor **48**, 91

HIV-1 latency; Therapeutic intervention; Cell models; Viral transcription **48**, 143

HPV40; Antisense; Papillomavirus; Oligonucleotides; Non-specific antiviral; HPV11 **48**, 187

HPV11; Antisense; Papillomavirus; Oligonucleotides; Non-specific antiviral; HPV40 **48**, 187

HSV-2; *Santolina insularis*; Essential oil; Antiherpetic activity; Virucidal agent; HSV-1 **48**, 177

HSV-1; *Santolina insularis*; Essential oil; Antiherpetic activity; Virucidal agent; HSV-2 **48**, 177

Human cytomegalovirus; Antiviral activity; Protein kinase; Indolocarbazole **48**, 49

Human influenza A viruses; Avian influenza viruses; Antiviral agents **48**, 101

Immune response; Hepatitis B virus treatment; Oral tolerance; Chronic liver disease **48**, 17

Immunomodulation; Hepatitis C; Interferon; Ribavirin; Cell cycle sensitivity; Interferon receptor **48**, 91

Indolocarbazole; Human cytomegalovirus; Antiviral activity; Protein kinase **48**, 49

Influenza; Zanamivir; Oseltamivir **48**, 1

Innate antivirals; Antiviral defenses **48**, 71

Innate immunity; Antiviral; Broad spectrum; Crustaceans **48**, 39

Interferon; Hepatitis C; Ribavirin; Immunomodulation; Cell cycle sensitivity; Interferon receptor **48**, 91

Interferon receptor; Hepatitis C; Interferon; Ribavirin; Immunomodulation; Cell cycle sensitivity **48**, 91

In vivo; EICAR; Rainbow trout; Coho salmon; IPNV therapy **48**, 125

IPNV therapy; EICAR; In vivo; Rainbow trout; Coho salmon **48**, 125

Liver; DHBV; cccDNA; Competitive PCR; Hepadnavirus **48**, 27

Lobucavir; Hepatitis B virus (HBV); Woodchuck hepatitis virus (WHV); Woodchucks (*Marmota monax*); Carbocyclic guanosine nucleoside analogues; Chronic virus infection **48**, 197

Milker's nodule; Cidofovir; Parapoxvirus; Orf; Pseudocowpox **48**, 205

Mycophenolic acid; HBV; Ribavirin; Transplantation **48**, 117

Non-specific antiviral; Antisense; Papillomavirus; Oligonucleotides; HPV11; HPV40 **48**, 187

Nucleoside analogues; CRPV; Papillomas; Rabbits; Cidofovir; Adefovir; Antiviral testing **48**, 131

Oligonucleotides; Antisense; Papillomavirus; Non-specific antiviral; HPV11; HPV40 **48**, 187

Oral tolerance; Hepatitis B virus treatment; Immune response; Chronic liver disease **48**, 17

Orf; Cidofovir; Parapoxvirus; Pseudocowpox; Milker's nodule **48**, 205

Oseltamivir; Influenza; Zanamivir **48**, 1

Papillomas; CRPV; Rabbits; Cidofovir; Nucleoside analogues; Adefovir; Antiviral testing **48**, 131

Papillomavirus; Antisense; Oligonucleotides; Non-specific antiviral; HPV11; HPV40 **48**, 187

Parapoxvirus; Cidofovir; Orf; Pseudocowpox; Milker's nodule **48**, 205

Poliovirus; 5-(3,4-dichlorophenyl) methylhydantoin; Antiviral drug; Cell-free system **48**, 61

Protein kinase; Human cytomegalovirus; Antiviral activity; Indolocarbazole **48**, 49

Pseudocowpox; Cidofovir; Parapoxvirus; Orf; Milker's nodule **48**, 205

Rabbits; CRPV; Papillomas; Cidofovir; Nucleoside analogues; Adefovir; Antiviral testing **48**, 131

Rainbow trout; EICAR; In vivo; Coho salmon; IPNV therapy **48**, 125

Ribavirin; HBV; Mycophenolic acid; Transplantation **48**, 117

Ribavirin; Hepatitis C; Interferon; Immunomodulation; Cell cycle sensitivity; Interferon receptor **48**, 91

Santolina insularis; Essential oil; Antiherpetic activity; Virucidal agent; HSV-1; HSV-2 **48**, 177

Therapeutic intervention; HIV-1 latency; Cell models; Viral transcription **48**, 143

Transplantation; HBV; Ribavirin; Mycophenolic acid **48**, 117

Viral transcription; HIV-1 latency; Therapeutic intervention; Cell models **48**, 143

Virucidal agent; *Santolina insularis*; Essential oil; Antiherpetic activity; HSV-1; HSV-2 **48**, 177

Woodchuck hepatitis virus (WHV); Hepatitis B virus (HBV); Lobucavir; Woodchucks (*Marmota monax*); Carbocyclic guanosine nucleoside analogues; Chronic virus infection **48**, 197

Woodchucks (*Marmota monax*); Hepatitis B virus (HBV); Woodchuck hepatitis virus (WHV); Lobucavir; Carbocyclic guanosine nucleoside analogues; Chronic virus infection **48**, 197

Zanamivir; Influenza; Oseltamivir **48**, 1
