

Subject index

Volume 49 (2001)

Aciclovir; Murine cytomegalovirus; Ganciclovir; Cidofovir; Foscarnet; DNA polymerase; Drug-resistance **49, 25**

Animal models; Antiviral activity; Human cytomegalovirus; Murine cytomegalovirus **49, 179**

Anthraquinone; Chrysophanic acid; Poliovirus; *Picornaviridae*; *Dianella longifolia* **49, 169**

Antibody responses; Therapeutic immunisation; Cytokine responses; HSV-2 **49, 83**

Anti-rotavirus activity; *Stevia rebaudiana*; Polysaccharide; Virus binding, VP7 **49, 15**

Antiviral activity; Animal models; Human cytomegalovirus; Murine cytomegalovirus **49, 179**

Antivirals; HIV; Nucleocapsid protein; 3'azido-3'-deoxythymidine **49, 101**

Antiviral therapy; Cytomegalovirus; Immediate early gene expression; Immunopathomechanisms **49, 129**

3'azido-3'-deoxythymidine; HIV; Nucleocapsid protein; Antivirals **49, 101**

Baculovirus; Vaccine, HIV-1; Clade-A; VLPs **49, 35**

Chrysophanic acid; Anthraquinone; Poliovirus; *Picornaviridae*; *Dianella longifolia* **49, 169**

Cidofovir; Murine cytomegalovirus; Aciclovir; Ganciclovir; Foscarnet; DNA polymerase; Drug-resistance **49, 25**

Clade-A; Vaccine, HIV-1; VLPs; Baculovirus **49, 35**

Coxsackie virus; DNA vaccine; Immune response **49, 49**

Cytokine responses; Therapeutic immunisation; Antibody responses; HSV-2 **49, 83**

Cytomegalovirus; Immediate early gene expression; Immunopathomechanisms; Antiviral therapy **49, 129**

***Dianella longifolia*;** Chrysophanic acid; Anthraquinone; Poliovirus; *Picornaviridae* **49, 169**

DNA polymerase; Murine cytomegalovirus; Aciclovir; Ganciclovir; Cidofovir; Foscarnet; Drug-resistance **49, 25**

DNA vaccine; Immune response; Coxsackie virus **49, 49**

Drug-resistance; Murine cytomegalovirus; Aciclovir; Ganciclovir; Cidofovir; Foscarnet; DNA polymerase **49, 25**

Foscarnet; Murine cytomegalovirus; Aciclovir; Ganciclovir; Cidofovir; DNA polymerase; Drug-resistance **49, 25**

Ganciclovir; Murine cytomegalovirus; Aciclovir; Cidofovir; Foscarnet; DNA polymerase; Drug-resistance **49, 25**

Genotoxic effects; Risks; Nucleosides; Nucleoside risks **49, 55**

HIV; Nucleocapsid protein; 3'azido-3'-deoxythymidine; Antivirals **49, 101**

HSV-2; Therapeutic immunisation; Cytokine responses; Antibody responses **49, 83**

Human cytomegalovirus; Antiviral activity; Animal models; Murine cytomegalovirus **49, 179**

Immediate early gene expression; Cytomegalovirus; Immunopathomechanisms; Antiviral therapy **49, 129**

Immune response; DNA vaccine; Coxsackie virus **49, 49**

Immunopathomechanisms; Cytomegalovirus; Immediate early gene expression; Antiviral therapy **49, 129**

Innate immunity; Intestinal virus inhibitors; Intestinal defense **49**, 157

Intestinal defense; Intestinal virus inhibitors; Innate immunity **49**, 157

Intestinal virus inhibitors; Intestinal defense; Innate immunity **49**, 157

Murine cytomegalovirus; Aciclovir; Ganciclovir; Cidofovir; Foscarnet; DNA polymerase; Drug-resistance **49**, 25

Murine cytomegalovirus; Antiviral activity; Animal models; Human cytomegalovirus **49**, 179

Nucleocapsid protein; HIV; 3'azido-3'-deoxythymidine; Antivirals **49**, 101

Nucleoside risks; Risks; Nucleosides; Genotoxic effects **49**, 55

Nucleosides; Risks; Nucleoside risks; Genotoxic effects **49**, 55

Picornaviridae; Chrysophanic acid; Anthraquinone; Poliovirus;

Dianella longifolia **49**, 169

Poliovirus; Chrysophanic acid; Anthraquinone; *Picornaviridae*; *Dianella longifolia* **49**, 169

Polysaccharide; *Stevia rebaudiana*; Anti-rotavirus activity; Virus binding, VP7 **49**, 15

Risks; Nucleosides; Nucleoside risks; Genotoxic effects **49**, 55

***Stevia rebaudiana*;** Polysaccharide; Anti-rotavirus activity; Virus binding, VP7 **49**, 15

Therapeutic immunisation; Cytokine responses; Antibody responses; HSV-2 **49**, 83

Vaccine, HIV-1; Clade-A; VLPs; Baculovirus **49**, 35

Virus binding, VP7; *Stevia rebaudiana*; Polysaccharide; Anti-rotavirus activity **49**, 15

VLPs; Vaccine, HIV-1; Clade-A; Baculovirus **49**, 35
