

Aims and Scope

Antiviral Research publishes full-length original articles, short definitive papers and review articles (one per issue) pertaining to effective control of virus infections in animals and man as well as in plants or lower organisms. Its scope encompasses: –the mechanism of natural and acquired host resistance against virus infections, including a specific cellular resistance, interferons, cellular and humoral immunity in virus infections, chemotherapeutics which influence host resistance; –the development of new vaccines or novel forms of serotherapy against viral diseases, including virological characterization of vaccine strains or vaccine preparations; preparation and characterization of antiviral immunoglobulins; safety and efficiency assessment; field trials; –the development of new antiviral chemotherapeutics, including chemistry; in vitro activity; mechanism of action; activity in animal model systems; clinical trials.

Editorial Policy

The overriding criteria for publication are originality, high scientific quality, adequate documentation by experimental evidence and relevance to the aims and scope of the journal.

Editors-in-Chief

Erik De Clercq, Rega Institute, University of Leuven, Minderbroedersstraat 10, B-3000 Leuven, Belgium.

Earl R. Kern, The University of Alabama at Birmingham, Department of Pediatrics, Division of Infectious Diseases, CHB 128, 1600 6th Avenue South, Birmingham, AL 35233, USA.

Richard J. Whitley, The University of Alabama at Birmingham, Antiviral Research Editorial Office, 309 Bevell Biomedical Research Building, 845 19th Street South, Birmingham, AL 35294-2170, USA.

Associate Editor for Reviews

George J. Galasso, National Institutes of Health (ret.), Health Sciences Consultant, 636 Crocus Drive, Rockville, MD 20850-2045, USA.
