

Subject index

Volume 64 (2004)

2-Aminobenzimidazoles; Human immunodeficiency virus type I; Naphthamidines **64**, 35

Acyclovir; Herpes simplex viruses; Betulin; Drug combination; Synergistic **64**, 127

Adenovirus; Decontamination; Inactivation; Virkon[®] S; Potency assay **64**, 27

AIDS; Interferon(s)- α , - β , - γ ; Antiviral agents; Thiolated polyI:polyC; dsRNA; Vesicular stomatitis virus (VSV); Cellular proliferation; HIV-1 infection **64**, 171

AIDS; MSL-109; Cytomegalovirus retinitis; Cytomegalovirus; Monoclonal antibody **64**, 103

Aminothiazolylphenyl; HSV; Helicase-primase; Resistance; Antiviral **64**, 161

Anti-HIV-1; Xanthohumol; Flavonoid; Reverse transcriptase; HIV entry **64**, 189

Antiviral α -helical peptide; Lactoferricin; Heparan sulfate; Herpes simplex virus **64**, 119

Antiviral activity; Lactoferrin; Human papillomavirus; Heparan sulfate **64**, 63

Antiviral agents; Interferon(s)- α , - β , - γ ; Thiolated polyI:polyC; dsRNA; Vesicular stomatitis virus (VSV); Cellular proliferation; HIV-1 infection; AIDS **64**, 171

Antiviral; Bovine viral diarrhea virus; Somatic cell nuclear transfer; Fetal fibroblast **64**, 113

Antiviral; HSV; Helicase-primase; Aminothiazolylphenyl; Resistance **64**, 161

Antiviral; Human herpesvirus 6; DNA polymerase; Resistance **64**, 17

Antivirals; *Dictyota menstrualis*; HIV-1; Diterpenes; HIV-1 reverse transcriptase; HIV-1 RT **64**, 69

Avian reovirus; Mycophenolic acid; Ribavirin **64**, 55

Betulin; Herpes simplex viruses; Drug combination; Synergistic; Acyclovir. **64**, 127

Bovine viral diarrhea virus; Somatic cell nuclear transfer; Antiviral; Fetal fibroblast **64**, 113

BVDV; HCV; Mizoribine; Interferon; Combination **64**, 195

Cell-mediated immune response; WEE; E1 glycoprotein; Refolding; Humoral response; Subunit vaccine; Diagnostics **64**, 85

Cellular proliferation; Interferon(s)- α , - β , - γ ; Antiviral agents; Thiolated polyI:polyC; dsRNA; Vesicular stomatitis virus (VSV); HIV-1 infection; AIDS **64**, 171

Combination therapy; HCV; Interferon; Ribavirin; SENV-H **64**, 47

Combination; BVDV; HCV; Mizoribine; Interferon **64**, 195

Coxsackievirus; DNA vaccine; Cytokines **64**, 131

Crimean–Congo hemorrhagic fever; Tick-borne virus; Epidemiology, pathogenesis and treatment of CCHF **64**, 145

Cytokines; DNA vaccine; Coxsackievirus **64**, 131

Cytomegalovirus retinitis; MSL-109; AIDS; Cytomegalovirus; Monoclonal antibody **64**, 103

Cytomegalovirus; MSL-109; AIDS; Cytomegalovirus retinitis; Monoclonal antibody **64**, 103

Decontamination; Adenovirus; Inactivation; Virkon[®] S; Potency assay **64**, 27

Diagnostics; WEE; E1 glycoprotein; Refolding; Humoral response; Cell-mediated immune response; Subunit vaccine **64**, 85

Dictyota menstrualis; HIV-1; Diterpenes; Antivirals; HIV-1 reverse transcriptase; HIV-1 RT **64**, 69

Diterpenes; *Dictyota menstrualis*; HIV-1; Antivirals; HIV-1 reverse transcriptase; HIV-1 RT **64**, 69

DNA polymerase; Human herpesvirus 6; Resistance; Antiviral **64**, 17

DNA vaccine; Cytokines; Coxsackievirus **64**, 131

Drug combination; Herpes simplex viruses; Betulin; Synergistic; Acyclovir. **64**, 127

dsRNA; Interferon(s)- α , - β , - γ ; Antiviral agents; Thiolated polyI:polyC; Vesicular stomatitis virus (VSV); Cellular proliferation; HIV-1 infection; AIDS **64**, 421

E1 glycoprotein; WEE; Refolding; Humoral response; Cell-mediated immune response; Subunit vaccine; Diagnostics **64**, 85

- Epidemiology, pathogenesis and treatment of CCHF**; Crimean–Congo hemorrhagic fever; Tick-borne virus **64**, 145
- Ex vivo blood test**; Phytomedicine; Plant extract; Tannin **64**, 93
- Fetal fibroblast**; Bovine viral diarrhea virus; Somatic cell nuclear transfer; Antiviral **64**, 113
- Flavonoid**; Xanthohumol; Anti-HIV-1; Reverse transcriptase; HIV entry **64**, 189
- Genital herpes**; Resiquimod; Immunomodulation; Herpes simplex virus type 2 **64**, 79
- HCV**; BVDV; Mizoribine; Interferon; Combination **64**, 195
- HCV**; Combination therapy; Interferon; Ribavirin; SENV-H **64**, 47
- Helicase-primase**; HSV; Aminothiazolylphenyl; Resistance; Antiviral **64**, 161
- Heparan sulfate**; Lactoferricin; Herpes simplex virus; Antiviral α -helical peptide **64**, 119
- Heparan sulfate**; Lactoferrin; Human papillomavirus; Antiviral activity **64**, 63
- Hepatitis B**; Viral persistence; Viral resistance; Viral clearance; Nucleosides; Nucleotides; Immunopathology **64**, 1
- Herpes simplex virus type 2**; Resiquimod; Immunomodulation; Genital herpes **64**, 79
- Herpes simplex virus type 2**; Vaginal infection; Natural carrageenan; Virucidal activity; Sexually transmitted disease **64**, 137
- Herpes simplex virus**; Lactoferricin; Heparan sulfate; Antiviral α -helical peptide **64**, 119
- Herpes simplex viruses**; Betulin; Drug combination; Synergistic; Acyclovir. **64**, 127
- HIV entry**; Xanthohumol; Anti-HIV-1; Flavonoid; Reverse transcriptase **64**, 189
- HIV-1 infection**; Interferon(s)- α , - β , - γ ; Antiviral agents; Thiolated polyI:polyC; dsRNA; Vesicular stomatitis virus (VSV); Cellular proliferation; AIDS **64**, 171
- HIV-1 reverse transcriptase**; *Dictyota menstrualis*; HIV-1; Diterpenes; Antivirals; HIV-1 RT **64**, 69
- HIV-1 RT**; *Dictyota menstrualis*; HIV-1; Diterpenes; Antivirals; HIV-1 reverse transcriptase **64**, 69
- HIV-1**; *Dictyota menstrualis*; Diterpenes; Antivirals; HIV-1 reverse transcriptase; HIV-1 RT **64**, 69
- HPV**; Xenograft model; Meshing; Papilloma **64**, 179
- HSV**; Helicase-primase; Aminothiazolylphenyl; Resistance; Antiviral **64**, 161
- Human herpesvirus 6**; DNA polymerase; Resistance; Antiviral **64**, 17
- Human immunodeficiency virus type I**; Naphthamidines; 2-Aminobenzimidazoles **64**, 35
- Human papillomavirus**; Lactoferrin; Heparan sulfate; Antiviral activity **64**, 63
- Humoral response**; WEE; E1 glycoprotein; Refolding; Cell-mediated immune response; Subunit vaccine; Diagnostics **64**, 85
- Immunomodulation**; Resiquimod; Genital herpes; Herpes simplex virus type 2 **64**, 79
- Immunopathology**; Hepatitis B; Viral persistence; Viral resistance; Viral clearance; Nucleosides; Nucleotides **64**, 1
- Inactivation**; Adenovirus; Decontamination; Virkon[®] S; Potency assay **64**, 27
- Interferon(s)- α , - β , - γ** ; Antiviral agents; Thiolated polyI:polyC; dsRNA; Vesicular stomatitis virus (VSV); Cellular proliferation; HIV-1 infection; AIDS **64**, 171
- Interferon**; BVDV; HCV; Mizoribine; Combination **64**, 195
- Interferon**; Combination therapy; HCV; Ribavirin; SENV-H **64**, 47
- Lactoferricin**; Heparan sulfate; Herpes simplex virus; Antiviral α -helical peptide **64**, 119
- Lactoferrin**; Human papillomavirus; Heparan sulfate; Antiviral activity **64**, 63
- Meshing**; HPV; Xenograft model; Papilloma **64**, 179
- Mizoribine**; BVDV; HCV; Interferon; Combination **64**, 195
- Monoclonal antibody**; MSL-109; AIDS; Cytomegalovirus retinitis; Cytomegalovirus **64**, 103
- MSL-109**; AIDS; Cytomegalovirus retinitis; Cytomegalovirus; Monoclonal antibody **64**, 103
- Mycophenolic acid**; Avian reovirus; Ribavirin **64**, 55
- Naphthamidines**; Human immunodeficiency virus type I; 2-Aminobenzimidazoles **64**, 35
- Natural carrageenan**; Herpes simplex virus type 2; Vaginal infection; Virucidal activity; Sexually transmitted disease **64**, 137
- Nucleosides**; Hepatitis B; Viral persistence; Viral resistance; Viral clearance; Nucleotides; Immunopathology **64**, 1
- Nucleotides**; Hepatitis B; Viral persistence; Viral resistance; Viral clearance; Nucleosides; Immunopathology **64**, 1
- Papilloma**; HPV; Xenograft model; Meshing **64**, 179
- Phytomedicine**; Plant extract; Tannin; Ex vivo blood test **64**, 93
- Plant extract**; Phytomedicine; Tannin; Ex vivo blood test **64**, 93
- Potency assay**; Adenovirus; Decontamination; Inactivation; Virkon[®] S **64**, 27
- Refolding**; WEE; E1 glycoprotein; Humoral response; Cell-mediated immune response; Subunit vaccine; Diagnostics **64**, 85
- Resiquimod**; Immunomodulation; Genital herpes; Herpes simplex virus type 2 **64**, 79

Resistance; HSV; Helicase-primase; Aminothiazolylphenyl; Antiviral **64**, 161

Resistance; Human herpesvirus 6; DNA polymerase; Antiviral **64**, 17

Reverse transcriptase; Xanthohumol; Anti-HIV-1; Flavonoid; HIV entry **64**, 189

Ribavirin; Avian reovirus; Mycophenolic acid **64**, 55

Ribavirin; Combination therapy; HCV; Interferon; SENV-H **64**, 47

SENV-H; Combination therapy; HCV; Interferon; Ribavirin **64**, 47

Sexually transmitted disease; Herpes simplex virus type 2; Vaginal infection; Natural carrageenan; Virucidal activity **64**, 137

Somatic cell nuclear transfer; Bovine viral diarrhea virus; Antiviral; Fetal fibroblast **64**, 113

Subunit vaccine; WEE; E1 glycoprotein; Refolding; Humoral response; Cell-mediated immune response; Diagnostics **64**, 85

Synergistic; Herpes simplex viruses; Betulin; Drug combination; Acyclovir. **64**, 127

Tannin; Phytomedicine; Plant extract; Ex vivo blood test **64**, 93

Thiolated polyI:polyC; Interferon(s)- α , - β , - γ ; Antiviral agents; dsRNA; Vesicular stomatitis virus (VSV); Cellular proliferation; HIV-1 infection; AIDS **64**, 171

Tick-borne virus; Crimean–Congo hemorrhagic fever; Epidemiology, pathogenesis and treatment of CCHF **64**, 145

Vaginal infection; Herpes simplex virus type 2; Natural carrageenan; Virucidal activity; Sexually transmitted disease **64**, 137

Vesicular stomatitis virus (VSV); Interferon(s)- α , - β , - γ ; Antiviral agents; Thiolated polyI:polyC; dsRNA; Cellular proliferation; HIV-1 infection; AIDS **64**, 171

Viral clearance; Hepatitis B; Viral persistence; Viral resistance; Nucleosides; Nucleotides; Immunopathology **64**, 1

Viral persistence; Hepatitis B; Viral resistance; Viral clearance; Nucleosides; Nucleotides; Immunopathology **64**, 1

Viral resistance; Hepatitis B; Viral persistence; Viral clearance; Nucleosides; Nucleotides; Immunopathology **64**, 1

Virkon[®] S; Adenovirus; Decontamination; Inactivation; Potency assay **64**, 27

Virucidal activity; Herpes simplex virus type 2; Vaginal infection; Natural carrageenan; Sexually transmitted disease **64**, 137

WEE; E1 glycoprotein; Refolding; Humoral response; Cell-mediated immune response; Subunit vaccine; Diagnostics **64**, 85

Xanthohumol; Anti-HIV-1; Flavonoid; Reverse transcriptase; HIV entry **64**, 189

Xenograft model; HPV; Meshing; Papilloma **64**, 179
